The Chi Phi Chakett is published in September, December, February, and April by The Chi Phi Fraternity, 3330 Peachtree Road, N.E., Rm. 550, Atlanta 26, Georgia. Second class postage paid at Atlanta, Georgia. Subscription rate, \$5.00 per year. Single Copies \$1.50.

**LET'S TALK
IT OVER . . .**

WITH THE PRESENT academic year rapidly drawing to a close it seems fitting to review the year which opened with our 138th Annual Congress. Most significant was the election of C. Moreland Thomas to be the next Grand Alpha, and the decision to eliminate Congress in 1963 in favor of Zone meetings.

Three chapters started the year below strength and I am happy to report that all have shown some improvement. Gamma Delta opened the year with only six Brothers but with an active alumni group spearheading the way the membership has doubled. Brother Joe Leicht, III, GD '60 met weekly with the chapter and deserves much credit for the present enthusiasm exhibited by the active chapter.

Iota returned to a refurbished chapter home and has proven to the alumni that the confidence they demonstrated in the chapter was not unfounded. In spite of the fact an unproportional number of brothers graduate this year it appears that Iota will return with a fair size chapter roll next fall. Iota's financial picture has shown real improvement this year.

Eta Delta is below strength and has not materially improved its position during the year. However, a new house (see cover) is being built and both the chapter and the alumni organization feel that this fact will do much to improve the chapter's rushing situation.

All three chapters, Iota, Gamma Delta and Eta Delta must conduct a profitable summer rush or their problems will continue. Sigma and Theta did very poorly this year in rush and will likewise have to conduct a really effective summer and fall rush.

The two newest chapters, Tau Delta and Rho Iota Kappa have had an excellent year. Tau Delta added an addition last summer housing 16 more men. Rho Iota Kappa is working on plans to increase the size of their home.

The Colony at the University of Nebraska now boasts of 15 pledges. The pledges will be initiated by the Kappa Chapter on May 4th. The Fraternity is deeply indebted to Victor Smith, AThX '36 and Earl Frederickson AThX '29 for preparing the way at Nebraska, and to Gil Sobie, TD '62 for his untiring devotion to the colony effort.

Zone meetings were held in New England and the mid-Atlantic area. The Southern Zone meets in Atlanta on July 14th and 15th, just prior to the installation of the Grand Alpha on July 16th. The Mid-Western and Pacific groups will meet early in the fall.

Financially this has not been a banner year. The colonizing effort at Nebraska has involved a larger expenditure than originally anticipated and the income from alumni dues was less than expected. The latter is partially a re-

(Continued on page 24)

CHI PHIS

IN ARCHITECTURE

"Creator of environmental design, counselor to his clients and to society, coordinator of the work of his design and construction collaborators, controller of the entire environmental design and construction process. These have been the traditional roles of the architect. They remain so today, but the scope of the environmental problems and the degree of their complexity have been magnified. The degree of change and the rate of change have speeded up. The needs of clients and society remain in evolution as they always have, but today the needs are swept up in a sweeping evolution of acceleration."

The above is the lead paragraph of an article on the "New Role of the Architect" written by Dudley Hunt, Jr., ThD '47 in the June 1962 A.I.A. Journal.

Chi Phi architects are part of the evolution. It seems fitting to pay tribute to some of them. We apologize to those Brothers that our research did not turn up and promise to feature others as we know of them.

The Fraternity has two new chapter houses under construction at the moment. Brother Philip Daniel, HD '37 prepared the plans for the U.S.C. chapter, and Arthur Wupper, S '27 for the Indiana University house. Brother Underhill, S '13 was the architect for the University of Illinois chapter house back in 1922.

Former Grand Alpha, Eugene "Thirsty" Benham, I '11 designed the Iota chapter house and his firm has been retained to do the proposed new Alpha-Chi house at Ohio Wesleyan University.

Phillip J. Daniel, HD '37, member of A.I.A. is associated with Daniel, Mann, Johnson and Mendenhall of Los Angeles. Brother Daniel has been a registered architect for over 20 years. His expe-

rience includes site planning, design and engineering of numerous school, commercial, industrial and institutional facilities such as the Culver City (Calif.) schools. He is in charge of Research and Development for his firm and has had numerous classified architectural and engineering assignments. Recently he directed D.M.J.M. activities for the U.S. Navy Project X-Tem. The project in-

(Continued from page 1)

involved the planning of six large structures, housing administrative officers for the entire agency personnel to be relocated and dispersed to six remote sites.

Wm. Dudley Hunt, Jr., ThD '47, member of A.I.A. is the senior editor of Architectural Record, a publication of the F. W. Dodge Co. of New York City, and has authored many articles for the A.I.A. Journal. In 1958 he authored a book titled, "Contemporary Curtain Wall," and is presently preparing a book on "The New Role of The Architect." Brother Hunt resides in Port Chester, N. Y. and still engages in private practice, although he says "I have been working on what is probably the most important program for architects in our time—the program for the American Institute of Architects concerned with the role of architects today." He practiced in Florida and Louisiana from 1948 to 1958 and also taught at Jacksonville State College and Tulane during this period.

Howard L. White, S '42, is a member of A.I.A. and registered in Indiana since 1948. Howard served as an instructor in design at the University of Illinois following a stint in World War II as an engineering officer. In 1946 he joined an architectural firm in Indianapolis and became a principal of James Associates, Indianapolis, Indiana in 1956. He has designed and managed many school projects in Indiana as well

as dormitories and fraternity houses at the University of Indiana. He is currently working on plans for the West Washington Country School, Campbellsburg, Indiana.

John Wesley Cherry, Omega '40, was born February 14, 1918 in Atlanta, Georgia, and received his B.S. and Bachelor of Architecture in 1940 at Georgia Institute of Technology. His career started as a draftsman for Merry & Parsons and Burge & Stevens of Atlanta. In 1945 he opened his own firm which does mostly industrial, commercial and school work. The following awards have been presented to him: A.I.A. medal for Excellence in Architecture at graduation from Georgia Tech after completing five years in four; the Ivan Allen Trophy Award for work on A & B Institute; Award of Merit "House & Home, 1956" for Subdivision Development. He is a member of A.I.A. and served as president of the Georgia chapter of A.I.A. in 1959.

Henry E. Lundquist, Th '49 received his B.A. degree from Rensselaer Polytechnic Institute. He is a registered architect in New York State and a member of the A.I.A. Brother Lundquist conducts a general practice of architecture consisting primarily of residential, small commercial and office buildings. He recently completed three branch offices for the Union National Bank of Troy of which he has been elected a director. He is also a director of W. & L. E. Gurley Company, makers of surveying instruments and industrial instruments. He lives and practices on the outskirts of Troy, N. Y. He married Elizabeth Dibert

in 1947 and they have four children, two girls 12 and 10, and two boys, 8 and 6. Brother Lundquist is chapter advisor to the Theta chapter and president of the Theta Alumni Association of Chi Phi, Inc.

Herbert A. Arthur, Pi '25 (Iowa State College) established private practice in Ames, Iowa in 1945. Prior to private practice he worked for several architectural firms and the Iowa State Highway Commission. He still serves as consultant to the Iowa State Highway Commission. Art, a member of A.I.A., has designed residences, commercial buildings, fraternities and sororities, highway office and maintenance buildings. His most recent design was the Mary Greeley Hospital in Ames.

N. K. MacLennan, O '53 was born in Montreal, Canada and now resides and practices in Toronto, Canada where he is an associate of Somerville, McMurrick and Oxley. Brother MacLennan studied architecture and design at Yale, University of Toronto, University of Helsinki and Trinity College, Cambridge University, England, and is a member, Royal Architectural Institute of Canada. The Gerald Larkin Academic Building, Trinity College, Toronto, was recently cited as one of the 100 best buildings in Canada during the last 5 years. MacLennan did the design.

Josh C. Bennett, Jr., ThD '48 while not in the practice of architecture retains membership in the A.I.A. and works in a closely related field. At one time he and Brother Dudley Hunt, Jr., were associates in Anniston, Alabama. Brother Bennett has been associated with

EUGENE BENHAM
Iota '11

CHARLES E. FIRESTONE
Iota '13

the Portland Cement Association since 1953 and covers a ten county area in South Florida. He resides in Pompano Beach with his wife and three children.

Harold W. Underhill, S '13 states he was first licensed by Illinois to practice architecture in 1913. In 1940 he was licensed in California and has practiced independently in Los Angeles since that time. He now resides and works in Palm Springs. Since 1948 Underhill's firm has handled 671 projects, 34 of which have been major shopping centers. Brother Underhill served as a construction executive with Sinclair Refinery of Chicago from 1919-21, from 1936 to 1943 with Terminix Co. of Southern Calif. During World War II he was Assistant Project Manager with USN "Sea-Bees." From 1921 to 1936 he was associated with a General Contractor with offices at Wichita, Oklahoma, Dallas and Amarillo. Last Fall, Harold entertained the Chi Phi alumni of Southern California at his home in Palm Springs.

Eugene "Thirsty" Benham, Iota '11, has engaged in the general practice of Architecture since his degree work at Ohio State University and Carnegie Institute of Technology. He probably has practiced longer than any other Chi Phi. Brother Benham was initiated in 1908 and has been active in Chi Phi affairs since that time. He was first appointed to the National Council as Grand Gamma by the then Grand Alpha, Hueh M. Dorsey, Jr., and served as Grand Alpha from 1949 through 1951.

Specializing in office, commercial and educational buildings he has received

several national awards. In 1951 his design of the Nationwide Insurance Company's home office building achieved the distinction of being one of the three best office building designs in the United States. He has received two awards from the National Restaurant Association for restaurant designs. He is retained as Architect by Otterbein College and Muskingum College. Brother Benham has been a member of the Scioto Country Club for many years, where Jack Nicklaus learned to play golf. I don't know if his association with Jack, over the years, has improved his game or not!

Charles E. Firestone, Iota '13, member of A.I.A. and leading Canton, Ohio architect during the past 46 years, attended Ohio State University, then the University of Michigan where he received his B.S. degree in Architectural Engineering in 1914. The early part of his career was devoted to the design of residences for prominent citizens of Stark County. This was followed by the designs of school, factory and office buildings, hotels, hospitals and churches. In 1947 he received a Fellowship from the A.I.A. Brother Firestone has served in official capacity with many Architectural Associations. In 1959 he was appointed chairman of the building code committee of Stark County by the Stark Regional Planning Commission. Among his community activities he is a member and past director of the Chamber of Commerce, director and past president of the Y.M.C.A., member and past president of the Canton Rotary, past president of the Michigan Alumni Association, and past president of the Canton Shriners.

During his last year in Michigan he assisted the Chi Phi Alumni of Detroit in selecting a club which later became the Alpha-Tau Chapter of Chi Phi. He is now in partnership with his son and Laurence J. Motter in Canton.

Arthur Wupper, S '27 conducts his practice in Indianapolis and specializes in schools, hospitals, institutional buildings and churches.

Immediately upon graduation in 1927 he associated with his alma-mater—University of Illinois, under the direction of the Supervisory Architect. He received his M.S. in Architecture in '33. Following a period of association with architectural firms in and around Illinois he established his own practice in Indiana in 1949.

Art is a member of A.I.A. and during the past ten years has been Secretary, first and second vice-president and on Board of Directors of the Indiana Society of Architects. He is on the advisory committee for the State of Indiana, Administrative Building Council, having been appointed by the Governor.

Brother Wupper designed the Iota Delta chapter house, now under construction in Bloomington.

Other Chi Phis practicing architecture are: C. Norman Teach, Iota '56, Palo Alto, Calif.; Jerry P. Simmons, E '42, ThD '49, Miami, Florida; George K. Harris, Jr., A-T '38 with O'Dell, Hewlett & Luckenbach Architects, Birmingham, Michigan; Pope H. Fuller, Omega '37 with Fuller & Beckett, Architects, Atlanta, Georgia; and Preston S. Stevens, Jr., Omega '51, with Stevens and Wilkinson, Atlanta, Georgia.

Johnson Firm Moves 100-Year-Old Church

THE FIRM OF C. A. JOHNSON & SON, INC. received national publicity in Life Magazine, as well as numerous technical and trade publications in the moving of Detroit's old Mariner's Church, a 3000-ton, 100-year-old structure that had to be relocated for the development of the City of Detroit Civic Center's master plan. This project required raising and lowering the church structure 10 feet, as well as transporting it 1000 feet over unstable ground. Hundreds of people watched the movement of this landmark, including many of our Canadian neighbors just across the Detroit River.

Another moving job that is well remembered in the suburban area of Dearborn, Michigan, is the relocating of a Convent housing 50 nuns. Though this job was performed in the wintertime, the sisters occupied the house during the entire operation and were never without heat, light, sewers or water.

The firm headed by Carl B. Johnson, A-T'38, is engaged in an unusual and often, from the public's point of view, a spectacular business. They move buildings, structures and homes, as well as perform underpinning and shoring of existing construction that is involved in alterations, additions or repairs.

Carl is a graduate Civil Engineer, having attended both Wayne State University in Detroit and the University of Michigan. During his 4 years at Ann Arbor he lived at the Alpha-Tau chapter house and served the fraternity in various capacities. Since graduation he has been active in the Alpha-Tau Chapter House Association.

Outside of serving 3 years as a Naval Officer in the Seabees, his business association has been with the firm which bears his name.

One main guidepost has been his fear of being too confined to Engineering and construction. Though an active member

of the American Society of Civil Engineers, member of the Board, and committee chairman of the Engineering Society of Detroit, the Associated General Contractors and presently Director of the Builders and Traders Exchange, he plays golf and bowls regularly and has 17 years of perfect attendance at the Detroit Rotary Club. He has served on the Board and was Chairman of various committees for both the Rotary Club and Civic Associations.

Carl has also given community service to the Boy Scout organization and after a 30-year interim received his Eagle Award along with his son, Craig, last year. Wife Madeline and daughter Judy make up the rest of the Johnson household.

While there are many companies that move frame houses, and the Johnson company does too, it specializes in moving large masonry and steel structures. Single homes are moved by this firm as well as project relocation of 100 or more houses. Last year, it appeared that they would be involved all over the country when they performed the first bridge raising job to allow clearance for missile transportation over our country's new expressways.

Though the Johnson firm has a massive inventory of trucks, cranes, steel and timbers, as well as other specialized construction equipment, they feel their greatest asset is their personnel. Especially proud are they of the many years of tenure of their engineering staff, office personnel and field men. Many of their employees have never worked for any other company and many have brothers working with them. Johnson is especially proud of the fact that never in his 25 years with the firm have they had one hour of lost time due to a labor dispute of their employees.

Recent government publicity releases allow the inclusion in this article of a most ticklish and technical project. De-

sign criteria required that the microwave panels of a "3D" Radar Screen 200 feet long and 60 feet wide be installed on a horizontal steel frame inside a building. The \$1,000,000 installation was transported to its erection site and hoisted vertically and attached to its tower. The unit used in airport traffic control, as well as defense missile detection, was successfully installed last summer in Atlantic City, New Jersey.

Carl admits he likes the moving business but loves the underpinning part of construction. To those not familiar with the construction meaning of this word, this is the phase of his business where they shore or jack up portions of, or whole buildings. This is where he sees the best example of technical engineering and field "know how."

Many buildings and structures suffer from foundation failure and settle and crack. By application of proper shoring and underpinning principles, these buildings can receive new adequate foundations and their life extended for many years to come.

An example of this specialty that he performs in the construction industry is the recent solution of halting of settlement of the expensive complex of boilers in a large paper company near Detroit. The shifting of the close-by river bottom resulted in settlement of the foundations of the boilers. By the successful installation of their newly developed Hydraulic Pile Jacking System each boiler now rests on piling driven to rock instead of its former foundation. This work was accomplished with no shut-down in the furnace or plant operations.

Carl says his firm builds each day with the Creed of the Association of General Contractors, "Skill, Integrity and Responsibility." He admits every project is a calculated risk, but that no project is a gamble.

TIME AND ENERGY can easily be wasted in inefficient study, whereas the same time, directed systematically and intelligently, can lead to gratifying results.

Inefficient study methods have an impact even upon able students who, though getting fairly good grades, express frustration over getting so little learning for so much time and energy spent in studying. They feel that they are being "short changed" educationally.

Effective study methods can be learned and made habitual. One's college life should be run systematically, just as any job or profession is run. Almost every successful student with whom I have talked, reported that it was only when he used systematic study procedures that he was able to cope successfully with his assignments, thereby gaining confidence in his own ability, and achieving a genuine feeling of intellectual and emotional growth.

Academic Goals

In addition to having effective study methods, a student must have the desire to succeed in college. This requires a certain clarity of purpose. In talking with literally hundreds of students, I have found that a major difference between success and failure is a well-defined and realistic goal. It is well-nigh impossible to work profitably and constructively without one. A clear goal supplies motivation and the confidence that comes only from knowing where one is going. This healthy state of mind in turn channels energy into productive work, whereas uncertainty diffuses effort and tempts the mind to wander from the job. A goal supplies purpose to academic life, and students who have a purpose find studying easier and marks higher.

Contrary to popular belief, the student with a goal is a good deal freer than the one of vague or feeble purpose. Having a purpose does not preclude a change of purpose. Actually, the student who is doing well is the only one who is free to change. For example, an engineering student who is getting good grades can easily transfer to a premedical or a liberal arts course; but one with poor grades cannot make the change because the other school or department will not accept him.

Just what is a goal? Whenever I ask an unsuccessful student about his goal, he usually tells me he wants "to get a liberal education." Only after he tried, more or less fumblingly, to explain what a liberal education is, did he realize that he had been as vague in his thinking about his goal as in his thinking about his studies. It is all right to strive for

You Can Learn to Study

By DR. WALTER PAUK

a liberal education, but it is first necessary to know just what a liberal education is: that it helps one to know literature well, to write well, to speak well, to use a foreign language well, to know history, to know economics, to know a biological or physical science.

To translate this concept into practice, the student might first list all the courses he thinks necessary to the kind of education he wants. He should also talk over his ideas of education with members of the faculty. Then, emerging with a revised list of subjects and courses, he is in a position to plan his program intelligently. He has set a standard which he can use, from time to time, as a measuring stick. Individual courses will then have a specific purpose in an over-all scheme, and the student, by thinking through to his goal, will have taken a long step toward academic success. He will have a *reason* to study.

Studying Textbooks

If we think about it for a moment, I believe we would all agree that, on the college level, almost all of our academic information—concepts, ideas, principles, and data—come from two sources primarily: from textbooks, and from lectures. This is why I maintain that if you can master these two areas, then your chances for academic success are extremely high. In this paper we will deal only with the first of these—textbooks.

Assignments are usually given by the instructor in words like these: "Read Chapter V." In such cases the instructor should not be taken literally, because by the word "read" he really means "master."

The student who merely reads his chapter generally remains on the superficial side of his subject. The mere casting of the eyes over pages of verbiage does not guarantee learning. This fact is generally made clear to the student the next day in class or two weeks hence in the examination when questions are

EDITOR'S NOTE

THIS ARTICLE was especially prepared for the Beta Theta Pi magazine where it first appeared. Dr. Pauk, the author, is a professor of education and director of the Cornell University Reading-Study Center. He has had experience as a resident counselor of a fraternity and currently is directing a new program for Cornell University in study skills. In the opinion of many, Professor Pauk's "How To Study in College" (Houghton-Mifflin, 1962) is the best study guide now available to college students. We commend this article to you, whether you think you know how to study or not.

asked. At this point the student realizes that he did not truly come to grips with the chapter—he did not comprehend the author.

Underlining

One sure way to comprehend is as follows: when you have read one section of the chapter, whether it be one page or five pages, stop at that point and go back to underline very selectively only the key ideas, together with their supporting materials.

Before we go on with this topic of underlining, there is one danger: Don't underline too much! I have inspected textbooks which were so heavily underlined that the only things which stood out were the lines of print which were not underlined. These, of course, were the unimportant ideas.

Now, to get back on the positive side, I urge that you underline the key ideas by using a wavy line; whereas, a single straight line would indicate the supporting material. In this way you will be able to wrap, so to speak, the key idea with its supporting materials into a unit—a package.

Up to this point, the underlining may seem to be a purely mechanical procedure; but don't be deceived. When you are forced to underline the key idea, you are put on the spot to make a decision, and in the making of the decision, you reject some statements which at first appear to be key ideas, and you must select finally other statements, for good or for worse, as the key ideas. In making these decisions, you are mentally alert; and when you are mentally alert, then you are learning.

I believe that the students who underline almost every line on the page do so for either of two reasons: first, some are lazy, and thus find it easier to go through the motions of a scholar; and second, many students lack the courage to isolate

(Continued on next page)

YOU CAN LEARN (Continued) TO STUDY

a statement and say, "This is the author's key idea in this paragraph." You see, they can play it safe if they underline everything, then they know that somewhere in that paragraph they have underlined the key idea without having to make the decision as to which statement specifically is the key idea.

Now for the dictum: If with the book open to the section or paragraph just read you cannot determine what the key idea is and what the supporting materials are; then, how do you expect that tomorrow in class or two weeks hence in the examination, without the book in front of you, you will be able to do so? You must make the decision in the privacy of your study room—right or wrong. It takes courage, but with practice, you will learn how to read with greater precision. Though it takes a lot of words to describe the process of underlining, the actual doing of it may be quite rapid.

Marking Your Book

Have you ever seen a well worn favorite text of a scholar? A book he cherishes usually bears his mark—notes which have deep significance for him, underlinings, papers slipped between pages, directions—"compare w. pp. 234-40," and an array of other favorite symbols.

A student's textbook filled with marginal notes is sure proof that the student was thinking while reading; that is, thinking through the author's ideas in terms of his own words. So, to round out the aspect of comprehension, one more important step must be taken; that is, writing summarizing notes in the margins of the pages. The notes must be sufficiently precise to act as clues for the later process of active recall. Making notes in the margin will help you in the following ways: a good note requires that you fully understand the passage, forcing you to engage in active rather than passive reading; concise notes can act as clues for remembering the full concept, are easier to remember than long sentences in the author's words; they set the stage for later recall, reflection, and review.

Active Recall

The next step in the process of mastering your textbook assignment is designed to help you remember. Even after underlining, and making of notations in the margin, you still have not mastered your

assignment, because forgetting takes place at an alarmingly rapid rate. Hundreds of studies on groups of students made by psychologists prove that such groups when tested immediately after reading a chapter recall only about 62 per cent of the material; two weeks later only 30 per cent is remembered.

It is for this reason that the technique of *recall* must be used to forestall this rapid rate of forgetting. By recall I mean, when you have finished the chapter, having made short summaries in the margin, take a clean sheet of paper and cover the printed portion of the page, but leaving exposed the margins of the page with the summaries thereon. Then, taking a swift look at the first jotting in the margin to get a clue as to the key idea involved, look away and recite aloud, or to yourself if you do not want to disturb your roommate, the first full concept on the printed page which is covered, of course, by the sheet. Remember, you have two positive factors on your side: you have just finished reading and marking the chapter; and you are in the privacy of your own room—away from the tension of the classroom recitation. So, with recency and privacy on your side, if you cannot, at this moment, recite what is under that sheet, then you have no right to expect that tomorrow in the classroom or two weeks hence in the examination, the material on the printed page will somehow float to the top of your mind, and all you need to do is to skim it off. The dictum is this: If you don't know what's under the sheet now, you won't know it tomorrow. So, while you have time, reread and rethink the author's concept, then look away and try again to recite it in your own words. In this way, continue down the page until the entire chapter has been recited.

Though I have many cases to relate, let one suffice. Just before the end of the second semester an obviously distraught freshman appeared in my office and announced that he was sure to fail Physics since he had already gotten a mid-semester grade of 47. Having but two days before the final examination, and since the examination would be based on the textbook, I told him to mark up each chapter, then cover up the print, and recite, recite, recite. Since this course was so crucial he stayed on Campus until the grades were handed in. Upon receiving his grade he hurried to my office to report his final grade on the examination: a 97. I cite this case not as the way to cram, but as an example of the power of recall. This was the same student, the same intelligence, the same industriousness, but now he had a study method.

So, after finishing a chapter and testing yourselves with the technique of re-

call, you will no longer need to fall back on a "faulty memory." You will know what you know, and you will know what you don't know—while you still have time to do something about it.

Reflection

The method of recall is an "examination passer." But, students want more than a diploma to show for four years of academic work. Since this is almost always the case, we now present the step which converts information into wisdom.

Professor Hans Bethe, internationally prominent nuclear physicist at Cornell University, said that a student can become proficient, but never creative if he depends solely upon memorizing data and facts in lectures and textbooks. Mastery and creativity come when the student continually reflects upon facts and ideas, attempting to synthesize and place them into new situations and relationships. Lectures and textbooks can take you to the frontiers of knowledge, but reflection can lift you to the exciting realm of new knowledge.

Professor Alfred North Whitehead, the philosopher and mathematician, spoke about the knowledge which grows out of throwing "into fresh combination." He meant by this that a student should speculate—should project his thoughts beyond his familiar experience. This allows the formation of new thought patterns.

This is especially valuable when new ideas are pouring into your mind. The implications of these ideas should be investigated, insights followed up, questions recognized, and reservations noted. Above all, these reflections should not be left at a vague stage, but should be pursued until definite ideas are reached. If you need more information, use an encyclopedia or reference book to gain additional insight about a fact or an idea.

Where several diverging opinions are expressed by different authors, attempt to see why each holds the opinion he does. Put yourself in each author's place and attempt to think through the problem from his viewpoint. Be alert to see where one or the other viewpoints may depart from the facts. Ask yourself *why the reverse is not true*.

One of the great benefits of being skillful at reflecting is that you can take the skill with you wherever you go, making use of spare moments. Think of the prodigious amount of knowledge and wisdom you could accumulate if you used spare moments to reflect on challenging concepts encountered while reading a textbook or listening to a lecture! The "mental inspection" could be carried on while walking from one building to

another, standing in line, waiting for a friend, or riding in a bus. Men who have made great discoveries have often reported that some of their best insights came in the oddest places, and at the oddest times!

Finally, we should not forget the role of the subconscious in reflection. Having once introduced a concept to mind by reflection, we have all experienced having some exciting idea or even a solution to a problem suddenly "pop up" without being aware of having given the original concept any considerable amount of additional conscious thought. It appears, then, that the subconscious continues to work on concepts once they have been introduced deeply enough through reflection.

Review

Reviewing is the last stage in our system for thorough and effective reading. Reviewing is much more than just re-reading all the assigned textbook chapters or "looking over" all the lecture notes. Such a procedure usually leads to disaster at examinations, because the student is lulled into thinking that he remembers what he has looked at. Reviewing is more than passive reading.

True reviewing is an active process of trying to remember without looking at the textbook pages *what has been already learned*. After recalling as much as you can, look over your textbook and notes to see where you were right, where you made errors, and where you omitted important material. Continue this process of recalling and verifying until you have mastered the material.

To add some variety to the process of reviewing, put yourself in the instructor's place. What would you ask if you were testing students on the reading assignment? Write out three or four questions which you believe cover the main issues; then answer them. You will be surprised how often these same questions come up in quizzes and exams. This is not out-guessing the teacher; this is studying to learn.

I mentioned that reviewing is essential, if mastery is desired. Mastery, however, is a never-ending process—you can never be a "master" of a subject if you let the new knowledge "get cold." Just as the athlete must keep in condition, or the musician must keep his fingers limber, so must the student keep new knowledge in the "active" part of his mind.

This is one of the problems of college: you are learning ideas you may not actually "need" until after you graduate and seek your first job. Reviewing, therefore, is a crucial and ever-present part of

Editorial

A Question of Human Rights

By

JOHN S. CLARKE, K '62

ON MANY OF THE CAMPUSES ACROSS the country, a Student Life and Interest Committee or its equivalent is telling the local IFC that the chapters on that campus must have no clause that could bar a man for race, religion, color, or national origin. Luckily Chi Phis have not been too troubled by this sort of clause, because back in 1948 we eliminated our clause, substituting "acceptable to other chapters." Our interpretations of acceptable have been liberal enough to keep most of these committees off our backs.

At most of these campuses, however, the committees and particularly the chairmen, change every few years. These new members tend to forget the accomplishments of their predecessors, or if they remember, they try and outdo them.

Wisconsin's sub-committee on human rights has recently required all social organizations on campus to fill out a questionnaire. This questionnaire not only asks what powers the national has over membership but what powers alumni have. Ostensibly this applies only to race, color, creed or national origin.

Even more recently, a strong national fraternity at Wisconsin had their charter lifted and were put on social, rush, and initiation probation. This resulted from a disgruntled initiates' story to his father, a faculty member. Though the punitive actions were taken by their national and by the IFC, it was with the assumption that the Student Life and Interest Committee would review the findings and could alter them as they saw fit.

Thus I see faculty men, some of whom know nothing of such terms as national brotherhood, beginning to dic-

your college life—a key to mastery. It is up to you to find out how fast you forget, and to conscientiously review, re-view, review, not only after each chapter

John S. Clarke, author of the editorial, has twice served as Alpha of Kappa (University of Wisconsin).

tate to the fraternities and sororities on more and more fronts. At Wisconsin, they are capable of dealing mortal blows to some groups on campus right now.

I do not consider myself competent to judge whether or not the work these committees are doing now is good or bad. I agree with many of their stands. In many respects, they are forcing a group that is conservative by nature to think in more modern, liberal terms. Only by so adapting can we hope to survive.

What I do question, though, is the increasing power that is being given these men. Is it right for them to tell groups how they will pick their members and how they will instill in them a feeling for the group? Are they competent to handle the increasing responsibilities for groups many of them know little about? Most important, is it right for them to tear down the work of countless men at a single blow, when in reality, many of these men are paying the salaries of those who would see us gone?

Such powers as these committees have obtained and are now obtaining can be corrupt. As students, we have comparatively little voice in these matters. We can protest, but we have no punch. It must be the men who have experienced the fraternity feeling and are now successful men in their fields that exert the influence, when it is needed. If you have your doubts, or if you know of such practices, work through alumni groups or through the faculty itself. It will be better to place restrictions now to save the national fraternities than to try and rebuild such a structure after it has been destroyed.

or after each course (or certainly not frenziedly the night before an exam), but throughout each and every one of your college years.

Fifty Years a Chi Phi!

The letters below speak volumes in their brevity. We think young and old alike will enjoy reading them:

March 25, 1963

Dear Brother Gladfelter:

Please accept my thanks for the 50 year pin which came a few days ago. I am honored and pleased to wear it—though the 50 year element is a bit disturbing. It is difficult to realize that time has passed so quickly!

With kindest regards,

Fraternally yours,
John G. Crawford,
Rear Admiral,
U.S.N. (Ret.) Z '17

* * *

March 25, 1963

Dear Brother Gladfelter:

Your courtesy in sending me the fiftieth anniversary badge of Chi Phi membership is highly appreciated. I thank you cordially. It goes without saying, I am sure, that my fraternity experience has been most gracious and rewarding. I trust profoundly that the best for Chi Phi is yet to come.

Fraternally yours,
Henry H. McDevitt,
Alpha Chi '16

The B. F. Goodrich Company
Akron, Ohio

March 23, 1963

Dear Brother:

It was a pleasant surprise to receive today your letter of March 20th, enclosing a lapel pin commemorating my fifty years as a Chi Phi. This association has been a very satisfying one to me, and I shall wear my pin with pleasure.

Many thanks for this memento, and kind personal regards.

Sincerely yours,
John L. Collyer,
Xi '17

* * *

April 15, 1963

Dear Brother Gladfelter:

Just a few lines to tell you how happy I was to receive my 50 year Chi Phi button. It hardly seems possible that so many years have passed since I so proudly started wearing the Chi Phi pin. Few things in life have meant as much to me as my happy association with our wonderful band of brothers.

Fraternally yours,
H. Whitcom Nicholson,
Mu '17

The Johnstown Tribune Publishing Co.
Johnstown, Pennsylvania

March 27, 1963

Dear Brother Gladfelter:

Thank you very much for the 50 year badge of the Chi Phi Fraternity. This came as a very pleasant surprise to me as I did not know they were being issued.

With my brother, F. W. Krebs, I hope to attend many more Chi Phi Fraternity affairs.

Sincerely yours,
Walter W. Krebs,
Xi '17

* * *

January 30, 1963

Dear Brother Gladfelter:

Just a note to acknowledge the receipt of my 50 year pin. The non-receipt of it at the time of the 50th Anniversary of Sigma Chapter has caused some consternation among several of the brothers.

Your letter of transmittal with the poem, written nearly 100 years ago, was so refreshing, that I filed it away for safe keeping. In fact, I filed it so darned good—now I can't find it so I am not sure of your address.

Thanking you for your trouble in this matter.

Sincerely yours,
J. M. Silkman,
S '15,
Col. U.S.A. (Ret'd.)

* * *

April 4, 1963

Dear Brother Gladfelter:

Your note forwarding a fifty-year Chi Phi badge brought me up with a bit of a start! I did not realize that time had passed so quickly since I became a member of the Psi Chapter.

Albeit it was a shock, there were compensations: a reviving of pleasant recollections, your good note and the poem.

Yours in Chi Phi,
Robert S. Waters,
Psi '17

President Kennedy Appoints Thorp to DAC

DR. WILLARD L. THORP, Phi '20, was elected Chairman of the Development Association Committee of the Organization for Economic Cooperation and Development on February 15, 1963. President Kennedy made the announcement in response to a request by the Committee that the U.S. put forward a candidate for this major international post.

David Bell, AID Administrator, who hailed the election of Professor Thorp said "The DAC is a most important instrument from the viewpoint of the United States. It is the principal means through which we hope to achieve a more equitable sharing of assistance to the developing countries. We are most fortunate that a man of Mr. Thorp's stature and experience has been selected as Chairman of this vital body."

Brother Thorp is widely known as an educator, executive, public official and author. Born in Oswego, New York in 1899, he received his A.B. degree from Amherst College in 1920, A.M. from Michigan in 1921, and Ph.D. from Columbia in 1924. After serving as Assistant Secretary for Economic Affairs in the Department of State from 1946 to 1952, he has subsequently been Professor at Amherst College (serving as Acting President in 1957) and Director of the Merrill Center for Economics.

Throughout his public, professional and business career, he has made important contributions in the field of international relations. Most recently he served as a delegate to the Japan-U.S. conference on cultural and educational teaching held in Tokyo in 1962. Prior to that his international assignments include: President's Special Economic Mission, Bolivia, 1961; Chief, UN Economic Survey Mission, Cyprus, 1960; Chairman of Delegation to sessions of the General Agreement on Tariffs and Trade at Torquay, England, 1950, Geneva, 1951-52; Acting Alternate Governor, IBRD and IMF, 1949; Chairman of U.S. Delegation to Ruhr Coal Production Talks, Washington 1947; U.S. Representative on the UN Economic and Social Council, 1947-50; and alternate U.S. representative to the UN General Assembly, 1947-48.

He has long been active in the affairs of Phi Chapter and currently is the Phi Council Representative. At a meeting of

New England chapters on March 9th he talked to the delegates on the role of the Fraternity now and in the future.

The DAC, a principal committee of the OECD with primary responsibilities for the more effective mobilization and coordination of aid to the developing countries, is the successor organization to the Development Assistance Group (DAG) which was established in January 1960. The membership of DAC includes Belgium, Canada, Denmark, France, Germany, Italy, Japan, Nether-

lands, Norway, Portugal, United Kingdom, United States, and the European Economic Community. Major objectives of the Committee are to increase the flow of development assistance to the less developed nations; to improve the terms on which such assistance is extended; to promote an equitable sharing of the burden of aid; to coordinate the aid policies and programs of the contributing countries. A priority topic on its current agenda is consideration of policies on terms of aid.

Foster G. "Fuz" Ulrich

At the beginning of the 1962-63 academic year Foster G. "Fuz" Ulrich was elected Chapter Adviser to Zeta.

Brother Ulrich was appointed Assistant Director of Admissions at Franklin & Marshall College in August 1961 and soon thereafter resumed active association with the chapter. Harry Lane, Zeta '55, had a number of pressing research projects under way and resigned his chapter advisership in favor of Brother Ulrich.

"Fuz" is a native of Pennsylvania, graduated from Franklin & Marshall in 1956 with an A.B. in History. Shortly after graduation he was married. He and his wife, Lois, have one son, Steven

Zeta Chapter Names Ulrich Adviser

Foster. Following active duty with the U.S. Marine Corps from 1956 to 1959 (Captain and member of the active U.S. Marine Corps Reserve), he returned to Pennsylvania to teach secondary school at the Governor Mifflin Joint School System, Schillington, Pa. In addition to his teaching responsibilities he was coach of the football and track team. During his college career "Fuz" was a member of the Varsity football and basketball teams.

Brother Ulrich is doing graduate work toward an M.S. in Education at Temple University and, in addition to his work with the chapter, teaches Sunday School at the Evangelical United Brethren Church in Lancaster.

Chapter News

John P. Doherty, Alpha

A

UNIVERSITY OF VIRGINIA

If the first half year is any indication, the 1962-63 school session will be a red letter year for the Alpha Chapter. Under the competent leadership of our officers, the chapter has made substantial progress throughout the first semester. Due to the hard work of the brothers and pledges, the chapter has taken great steps forward both in the physical appearance of the house and the standing of the fraternity.

Our pledges arrived at the chapter house a week before school began, and under the capable leadership of their pledge master, Jack Doherty, achieved good results in getting the house in shape for the coming school year. During this period work done on the house involved: a complete repainting of all outside wooden trim, tiling of the basement corridors, and a repainting of the living room and vestibule walls. New carpets were laid in these two rooms, the Animal Room was completely re-decorated and the house got a general cleaning up.

We of the Alpha are especially proud of the new carpets that grace our floors. These carpets were purchased with funds derived from the generous contributions of our alumni. As one of his last official acts as Alpha, Brother Grayson McNair, sent a letter to all alumni of the chapter explaining that the house was in need of carpets and that the active chapter would bear half the cost if the alumni would supply the other half. The response was overwhelming and as a result the chapter started the year with the new floor coverings. We are extremely grateful to Brother McNair for his efforts and to the alumni for their most generous contributions. Also the chapter purchased a set of new draperies for the living room and front hall and these have added a great deal to the appearance of these rooms. The draperies are white with a beautiful gold leaf pattern with pinch pleats. They are lovely.

Soon after the school term began the brotherhood was pleased to welcome fourteen new initiates into the chapter room. The new brothers have been a tremendous asset to the chapter in that they have immediately taken over re-

sponsible jobs within the brotherhood and have shown great initiative in the operation and maintenance of the house. With the addition of these men the number of active brothers has swelled to a level greater than it has been in the last five years. A new strength and unity has manifested itself among the brotherhood and together we are enthusiastically working for the betterment of the old and honorable Alpha Chapter.

The rush period which lasted for the months of October and November was very successful. In all we took twenty pledges throughout the first semester. Though this number may not seem too great when compared with other schools, for the University it was larger than the average pledge class. We are very proud of our new pledges and feel that they constitute one of the best classes taken at Alpha in recent years. Two of our pledges are working to carry on Chi Phi family traditions. In fact, one of these young men hopes to become the third generation of Chi Phis from the Alpha Chapter.

Our pledge class has been rapidly assimilated into the main-stream of University life and are taking part in numerous activities around the Grounds. The Chapter foresees a bright future for itself at the University with these young men actively leading and working in important organizations. We also feel that these men are the caliber of material that will work throughout their college career to perpetuate the proudest traditions of Alpha.

We of the chapter are extremely proud of our position in activities on the grounds. We have men on the soccer and lacrosse teams. Also men are working actively on the University's magazine and newspaper. Alpha is represented in the PDE journalistic fraternity and the MOLE Society. We are proud to have a brother in the responsible position of dormitory counselor. Members who are officers in organizations include Brother Mac Lafferty who is vice-president of the Engineering School and also of the Engineering fraternity. Robbie Rutherford is secretary of the Crozet Square Dancing Society. In addition, Alpha had a number of brothers and pledges named to the Dean's list last semester. The chapter also has a fine representation in the University's Jefferson Society. We all recognize these

extra-curricular activities are important in furthering the fraternity's prestige as well as contributive to our individual educational experiences.

With this strong first half year behind us, we look forward to a year marked by achievements and accomplishments unsurpassed at Alpha in recent years. The brothers and pledges are very much aware of our oft-expressed goal of raising the status and prestige of the chapter here at Mr. Jefferson's academic village, and we are actively and vigorously working to achieve these objectives.

We are confident that the end of this session will find us at "fifty-fifth street."

G. Lawrence Warren, Zeta

Neal J. Carron, Alpha

B

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

The Beta chapter of Chi Phi is coming to the conclusion of one of its most successful years, both scholastically and otherwise.

In the scholastic department, Chi Phi, helped by a fine pledge class that came in third among all living groups, further improved its standing to third among fraternities and fifth among all living groups.

In the "otherwise" department, thirteen fine men were duly initiated. The freshmen further proved their worth when they completed the new room in the basement. This room was a project solely of the pledge class and they did a commendable job. The new occupants of the room are being pressed to give a housewarming party for the other 36 members of the chapter but they seem strangely reluctant to do so.

Early in the second semester Chi Phi gave a very successful cocktail party for the MIT community, which was attended by over 230 couples. The party was sponsored by IFC and was a part of an all-institute weekend. Reports from the campus grapevine, after the weekend, were all favorable.

One of the most notable happenings this year was the wonderful response of the Beta Alumni to a request by the Beta Foundation (the alumni managing group of the chapter) for funds. These funds were requested to replace furni-

(Continued on next page)

M.I.T. (Continued)

ture which was becoming fairly decrepit. The members of Beta are very grateful to all the alumni who responded so generously. With these funds it has been possible, among other things, to furnish the new room.

So life at Beta rolls on. Our annual Boheme party is scheduled for the near future and the brothers are rolling up their sleeves in anticipation. In the not too distant future looms finals and summer vacations, and the Beta Chi Phis try hard to forget that the latter must be preceded by the former.

Hank Khanna, Zeta

Lee S. Sherman, Alpha

RUTGERS UNIVERSITY

Delta chapter has continued on the path of campus leadership in academic excellence by capturing the championship of the annual Campus Quiz Bowl, sponsored by Rutgers Radio Station, WRSU. It has at the same time maintained its renowned reputation in athletics, mainly through the efforts of Lee Sherman, Alan Karcher, William Lavery, William Nothnagel, Donald Cerefice, Jeffery Wood, Frederick Schmidt, Philip Mitchell, Robert Harper, Robert Olson, Frank Washburn, James Dvorin, and James Haeni. These men were important on both the freshman and varsity level in football, swimming and diving, track crew, wrestling, lacrosse and baseball. Although Delta had thirteen men out for varsity sports, it was still able to present a powerful bid for the intramural Keller trophy.

In realization of decreasing alumni spirit, Delta has expanded the *Delta Register* to include six pages of alumni news. The questionnaire which we sent out last fall was fairly successful. However, our alumni address files are incomplete, so we missed many of you. If you have not been receiving mail from us, would you please send us your name and your new address.

Appreciation is due to brothers Robert H. Morris '50, Robert H. Frisch '50, Robert A. P. Sese '48, Louis Wolfson '38 and Ken Angleman '23, who have all been helpful at the alumni meeting with advice and leadership. It is due mainly to the efforts of these brothers that Pinehurst is getting a new dishwasher.

In looking back over the year, Delta can be proud of its accomplishments. However we do not plan to rest on our laurels. Pinehurst spirit is growing and

its quality is improving as illustrated by the outstanding twenty-one freshmen pledged this spring. Although Delta has improved, it realizes its faults. It is only through this realization and desire for further improvement that Delta will maintain itself as one of the top fraternities at Rutgers.

Russell C. Maclin, Jr., Zeta

R. BRUCE DONNELLY, Alpha

EMORY UNIVERSITY

Gamma Chapter has recently completed a busy quarter. Hard study and hard work on the pledge project created great anticipation of our annual formal weekend. The long awaited event took place in February, and no one was disappointed. A dinner-dance and sweetheart's reception were the highlights of the weekend.

Earlier in the quarter, elections and initiation were held. The new officers are: Bruce Donnelly—Alpha; Bill Smith—Beta; Henry Odum—Gamma; Bill Weddington—Delta; Sandy Morehouse—Epsilon; and Tony Ferland—Zeta. The initiation of eighteen new brothers brought the chapter to capacity for the first time in four years. These new brothers have brought with them the energy and ambition necessary for the proper administration of a chapter.

Goals for the Spring quarter include pulling up our sagging academic standing, championships in volley and softball—and, incidentally, a full social calendar.

Tony Ferland, Zeta

With Emory's wooded campus as backdrop, Gamma Brothers King and Walls watch as Saunders "heads" the ball.

L. Bruce Althouse, Alpha

FRANKLIN AND MARSHALL COLLEGE

The brothers of Zeta started the second semester off on a good note after having again raised their scholastic average in the previous semester. Thanks to the determined efforts of Rush Chairman John Skinner, Zeta obtained 25 top pledges, the second largest pledge class on campus. The pledges' constructive efforts are helping to maintain the house in fine physical condition.

Inter-Fraternity weekend was once more a big success. Zeta capped the weekend entertainment of Si Zetner and "The Brothers Four" with a Saturday night party at the house. I.F. competition for the college All-Sports Trophy is still in progress, with Zeta among the leaders. The success of the I.F. activities throughout the year stems from the leadership of brother Charles Foresman, the second consecutive Zetan to be president of the I.F. Council.

Chi Phi is well represented in extra-curricular activities on campus. Editor-in-Chief Bill Ferry, Business Manager Bob Wood, Fraternity Editor Mark Vaughn, and Sports Editor Charles Foresman form the nucleus of the Franklin and Marshall yearbook staff this year. Five of the eighteen members of the Black Pyramid, a senior honorary society, are brothers of Zeta; and Mike Yaggy and Dennis Buchan represent the house on the Student Council for next year.

Jim Leslie, Lee Baber, and Lee Smith carried Zeta's colors on the basketball team, leading to a winning season. Pledges Dave Smith and Dan Jenkins were on the Varsity and Freshman wrestling squads, respectively, and Skio Hooper on the swimming team. Spring sports claim the attention of many brothers, with representatives on the lacrosse, track, baseball, and golf squads.

The present officers are: L. Bruce Althouse, Jr., Alpha; Robert Barry, Beta; Michael Matthews, Gamma; Robert Wood, Delta; Christopher Staff, Epsilon; William Difley, Zeta; and Alan Plotts, Steward.

R. William Difley, Zeta

Fred Kieser, Jr., Alpha

RENSELAER POLYTECHNIC INSTITUTE

Spring has arrived at the Theta Chapter and the brothers are engaged in their usual spring activities. It has been a hard winter for Theta and the physical

plant is in much need of repair. The Epsilon has taken it upon himself to organize the brothers in a concerted effort to refurbish the general appearance of the house. Hopefully by the Spring weekend the work will be completed. Unfortunately several of these tasks are beyond the present capacity of the active brothers.

In short the house is in dire need of repair. As you well know the chapter house is entering its 51st year at this location and the physical plant is beginning to show its age.

To be quite frank the attempts to re-establish alumni relations in the form of newsletters has failed to arouse the response that we had hoped it would. We would like the alumni to make a sincere effort to aid the active chapter. You are all aware of the recent problems which have confronted the fraternity system on eastern campuses within the past two years. Only active alumni participating, advising, and aiding the active chapters will be able to preserve the identity of the fraternity system on our college campuses. This does not necessarily imply merely monetary support of the chapter but may take the form of general correspondence and exchange of interests between the chapter and the alumni.

Any information or advice which would be of interest to us would greatly be appreciated. In short, what we are striving for is a revitalization of alumni interest.

William Resk, Zeta

Frank Fiori, Alpha

OHIO STATE UNIVERSITY

The men of Iota are proud to extend their congratulations to Brother William Saxbe, Iota 40, on his election as Attorney General of Ohio. Brother Saxbe has been active in Ohio politics and this is his second term as attorney general of Ohio.

Scholastically Iota is once again near the top of the list of fraternities on the Ohio State Campus. Out of the 48 fraternities Iota was seventh and was well above the all men's average. The big brother system and the enforcement of quiet hours in the house are largely responsible for the high academic standing of the pledges. The present pledge class has the highest grade average since the pledge class of 1959.

The Purple Passion Party which is an Iota tradition was once again a great success. The dates were given purple material from which they made outfits

for the party and the girl with the most original dress was presented with the revolving trophy which remains in the house.

Just before Christmas the Mother's Club and the Alumni combined efforts to have a dinner for their members and the brothers. This was the first time that such an event has taken place and the results were very impressive and plans are now being made to continue the event.

Improvements to the house never stop and right now we are in the process of adding to and improving our recreation facilities. New light fixtures have been installed in the basement and the building of a Heidelberg room, adjacent to the party room, has been started.

The brothers also continue to move forward in the campus community. Through their efforts they were able to help Brother Richard Jambor get elected to Student Senate.

At this time the brothers would like to congratulate the eight brothers who are graduating this June, and wish them luck in their future endeavors. We would also like to thank them all for their work and help in strengthening Iota.

The brothers and the Iota alumni are trying something new for Iota. They are awarding a trophy to the outstanding pledge. The trophy will be awarded on the basis of points given for rushing, grades, and leadership ability.

Dick Jambor, Zeta

John S. Clark, Alpha

UNIVERSITY OF WISCONSIN

The biggest renovation this year at Kappa has been the conversion of the chapter room to a chapter-study room. In keeping with tradition and to preserve secrecy, a beige folding curtain wall was installed across the far end of the room. Behind this wall lie the secret materials, etc. In the room proper, fluorescent lights and a white ceiling give sufficient light to the easily removed study tables. On weekends the furniture from upstairs turns the room to yet a third purpose, namely a quiet room for XΦ's and their dates to talk. All in all, the outlay of money was small in comparison to the increased space. The chapter is glad of the new room and the older fellows are happy to see tradition pretty well retained.

Jim Bingen has just been elected to the Student Senate. Since the retirement of Ray Hamel and the demise of Peder Svare, campus politics have not held much sway in the house. Maybe we have

a new Ray? Good luck, Jim. Jack Brens made third string Ben Ten as a junior. He led the team in points. Lance Melick will be a prominent golfer this spring. Jon Stoddard was treasurer for Humorology and is a crew man. Don Demitros is trying to gain recognition for his new sport, at which he is most proficient. Unfortunately, there are no intercollegiate lunchbucket teams yet.

Officers for the spring semester are Jack Clarke, Alpha; Ed Rogan, Beta; Bob Zuelsdorf, Gamma; Jim McCabe, Delta; Bob Friemuth, Epsilon; Duff Dyke, Zeta; Jon Stoddard, Steward and Bill Lautz, Metro chairman.

The Thetas and Chi Phi's built Ollie, the Roamin' Holiday Octopus for Homecoming, but even suspending him from the trees couldn't win our fourth trophy in six years.

Robert Friemuth, Zeta

Donald M. Wiesner, Alpha

UNIVERSITY OF CALIFORNIA

Lambda terminated the Fall semester leaving behind a good scholastic and social record. The seventeen pledges, under the guidance of Steven A. Norwood, Beta, made an outstanding performance which enabled the chapter to initiate thirteen. The lure of education brought back two previous pledges to the University after prolonged absences; Dale C. Adams and Christopher J. Harrington became active members on February 17.

The active chapter welcomed in the Spring semester officers: Donald M. Weisner, Alpha; Edwin P. Laufenberg, Beta; Steven E. Ipson, Gamma; Tom R. Cooper, Zeta. The Epsilon will be decided in the ensuing weeks.

Lambda's annual Alumnae Banquet this year honored the classes of '03, '13, '23, '33, '43, '53, and '63. This year the Banquet fell three days before the founding 88 years ago, February 11, 1875. Lambda was especially honored to have the Grand Alpha-elect C. Moreland Thomas and our National Director Carl Galdfelter present. Awards were given; speeches were made, and a generally good time was had by all.

Lambda's progressive Help Week was instrumental in restoring the Chapter House to excellent physical condition. The "Week" was culminated by formal initiation.

We at Lambda look forward to another fine semester under our new officers, with the fifteen new active members, and the high spirit that is a part of the Lambda Chapter.

Tom R. Cooper, Zeta

M

STEVENS INSTITUTE OF TECHNOLOGY

The end of October proved to be a prosperous month for Mu with the initiation of thirteen new brothers into the chapter. The potential and attitude shown by the new brothers give good signs of future advancement for Mu in the fraternity life at Stevens.

The annual Thanksgiving party set Green Gate's social life into motion with the presentation of the music and wit of the Oval Band. This was closely followed with the Interfraternity Council's Winter Carnival weekend formal at the new Stevens Center where four brothers of Mu won the annual singing contest.

Besides the active social life at Mu, the chapter also prides itself in the improvements being done on the house. With the aid of a loan from the Chi Phi Educational Trust, we have recently undertaken steam cleaning and repainting the house. Along with this exterior improvement, we plan to install a new wooden first floor. Green Gate has always been known at Stevens for its upkeep and constant improvements and we hope to keep this reputation and expand it with these improvements.

Recently Mu held a banquet for its retired Chef, Mr. Leo Silbermann, who had held this position with Mu for 13 years and had proven himself to be a devoted servant. The banquet was a great success with the attendance of all the present active members along with twenty-one alumni who knew Mr. Sil-

bermann quite well. We presented him with an engraved gold watch in appreciation of his service and friendship.

The brotherhood has also recently elected new officers as follows: Herbert Hall, Alpha; John Zielinski, Beta; George Langberg, Gamma; David Hogan, Delta; Fred Staudinger, Epsilon; and John Van Remoortel, Zeta. The new administration was immediately faced with the problems of rushing, however, led by a very active and persistent Rushing Chairman—Brother Ruben, Mu completed a very successful rush with the pledging of seventeen of Steven's finest men. Under the direction of their Pledge Master, Brother Kopper, we feel that this pledge class will turn out to be a great credit to Green Gate and a new source of leadership for Chi Phi.

John Van Remoortel, Zeta

John L. Carlson, Alpha

Nu

UNIVERSITY OF TEXAS

The Chi Phi Fraternity and representatives from other fraternities were honored at the University of Texas Interfraternity Council banquet last February 27, by a speech from Walter Cronkite. He spoke of his past, and how Chi Phi had meant so much to him in his later years. Cronkite emphasized the point that students should have fun through their fraternity as well as educational experiences. All present at the banquet enjoyed the speech.

Walter Cronkite, Nu'37, just prior to receiving his 25 year pin from the chapter. The National Director (left) and Creston H. Funk, Nu'28 (right), president of Nu Alumni Association, bring him up to date on the chapter.

The Chi Phi's of Nu Chapter have just completed a new addition to the fraternity plant in the form of a flagstone terrace called "the terrace." The construction contains 5 levels of terraces, one cement slab and 4 levels of brick floor covering 3,000 sq. ft. of ground, and is located on the embankment below the house. We are looking forward to many enjoyable afternoons and evenings on "the terrace," and it certainly adds a new dimension to fraternity life.

The chapter's new advisor is Frank Siddons of Austin, Texas, father of Robert C. Siddons '64, a member of the active chapter. Mr. Siddons replaces Ben W. Greig, N'45, who recently moved to Tucson, Arizona.

Jack J. Ball, Jr., Zeta

Maurice W. Gerard, Alpha

Xi

CORNELL UNIVERSITY

An excellent rush program has brought 25 of the best freshmen of the hill to the Xi. Congratulations are in order to Rushing Chairman Harry Sallada for a job well done. In all, over 75% of all eligible freshmen pledged fraternities at Cornell.

Academically, Xi rose 10 places in the fraternity standings, and came closer to the all-men's average than we have been for years. This accomplishment shows an all-round drive by all brothers of Xi for scholastic improvement. The Inter-Fraternity Council has brought out a new incentive for academic improvement in the form of a scholastic blacklist. This blacklist will comprise all houses falling below a set grade point standard based on the all-men's average, and will be distributed to all freshmen prior to rushing.

Xi is still in the race for athletic honors. Having won the All-Sports Trophy last year, emblematic of interfraternity supremacy in intramurals, Xi is out for a repeat performance. Prospects do not look quite as bright, however, as they did last year at this time.

A new Alpha and Beta were elected in January. Mike Gerard is now Alpha, and Rick Hope, Beta. The rest of the executive committee remained intact, with the exception of pledgemaster. The new pledgemaster is Tom Stirling who took over for brother Gerard. During brother Gerard's term as pledgemaster, he and brother Dan Fitzpatrick compiled an excellent pledge manual for Xi. Finally, congratulations are in order to brother Bennett who has been elected as treasurer of the Inter-Fraternity Council.

Robert D. Nickels, Alpha

Π

NORTHWESTERN UNIVERSITY

In January Pi chapter initiated ten men, pledged during the September Rush Week. More recently, two new men have been pledged, the result of an unusually active open rush program. For the first time formal open-rush dates were scheduled, and participation of the active chapter has been excellent.

The enthusiasm for open-rush has been characteristic also of other chapter activities. In the fall we surprised the whole campus by starting an active cheering section at football games. Spirit reached a peak when we won the Homecoming house decorations award.

A new feature of the winter social program was a houseparty patterned after a child's birthday party. The brothers and their dates dressed as small children, and the event was complete with cake, candles, and presents. Highlight of the winter social program was the traditional Sweetheart Formal, held this year at Chicago's Tower Club.

Pi has shown unusual interest in intramural bowling this year. Our five-man team finished third in its league. The basketball squad, however, finished the season with three wins, three losses, and hopes for a better season next year.

Chapter Adviser Phil Guzzetta has undertaken the job of updating addresses and collecting news from all the chapter's alumni. We have also reactivated the chapter's newsletter to parents and alumni. Through these efforts, Pi Association hopes to increase its membership and alumni support to the chapter.

P

LAFAYETTE COLLEGE

As Lafayette began its Spring semester of 1963, we of Rho were already quite busy getting Vallamont, our home, into tip-top condition for the extremely hectic semester ahead. In order to complete the work already undergone, we decided to purchase a set of six hardwood end tables and two red-leather lounge chairs for our living room. We also purchased a set of six easy-chairs for our lounge-television room. When these new fixtures were in place, we of Rho were quite proud of our general reconditioning of Vallamont and of our new furnishings.

When the fifth of February came, Rushing was officially inaugurated and

we of Rho gave the Lafayette Class of 1966 its first view of Chi Phi. Our Rushing season lasted for three weeks and culminated in our pledging of seven excellent men, one of whom is the most promising swimmer ever to attend Lafayette. Following the official pledging ceremony, we held our annual Pledge Party and dinner, a complete success for Pledge and Brother alike!

As is our tradition, the first brother's meeting after pledging is the night of House Elections. Our meeting was held at seven o'clock, Tuesday, February twenty-sixth at which time Peter Huelsenbeck '64 was elected Alpha. Also elected were: Robert Wise '65, Beta; John Ladden '65, Gamma; Spencer Ankeney '64, Delta; Donald Palmer '64, Epsilon, and John Dunwoody '65, Zeta. Pete is a Dean's list student, a history major and is currently participating in the history honors program. He is an active member of the intramural football, swimming, and track teams, and has been past Gamma of Rho.

We of Rho have a very heavy schedule of intramural events this Spring. The first is wrestling in which we have entered Spencer Ankeney, Arnold Marks, Robert Wise, John Dunwoody, John Valvanis and Richard Vreeland. Our swimming and track teams have some excellent men and we hope to again offer stiff competition in the intramural program. Our champion softball team will be out to defend its title of last year.

We are entering "Step-singing," the annual all-campus competition of houses performing as singing groups on the steps of Old South College. We of Rho placed fourth last year, but with our rendition of fourteen guitars and many voices, we are anticipating a rather strong bid for first. Rho is unique in having many excellent musicians this year and hope to use them well and to great advantage in late April.

On the ninth of March an executive alumni meeting was held at Vallamont to discuss future plans for the Rho chapter and for renovations and additions to Vallamont in order to accommodate more brothers in the chapter house than are presently residing there. The meeting was highly successful and a future meeting was decided upon around the beginning of June during which will be held our annual "Welcome Home Party" for all alumni. We are hoping that more concrete measures will be molded then!

In summary, you can well see that we have had, and are experiencing, an active semester and with the typical enthusiasm meeting our every entry and concluding victory, we cannot be anything but opti-

mistic about our outcome in the participation of activities here at Lafayette.

John A. Dunwoody, Zeta

John C. Webber, Alpha

Σ

UNIVERSITY OF ILLINOIS

Here on the campus at Illinois, rush will soon take on a new look. Brother John Webber led a rush research committee whose findings led them to suggest that a new rush program was needed. IFC is working out a new program based on the information gathered in the research project. In the Spring of 1964 Rush Week will be held in May for high school seniors.

We are presently involved in informal rush. We have pledged several good men, but we can still use a few more. Our pledge class as it stands now is a good one.

The pledges put on the annual "Go to Hell Dance" and it was quite a success. Although not an extremely large pledge class, they again showed that they could work together.

Plans for a new look at Sigma are to take effect this Spring. The alumni are planning a program to redecorate the house. We are not sure what will be done yet, but we are sure they will do a good job. Our Mom's and Dad's Day Associations have been active in this renovation process already. The Mom's gave us a new floral arrangement for the living room planter. The Dad's had all of our social room furniture reupholstered. These improvements are needed, and we are indebted to our parents.

With so many sports in season, or about to start, credit should be given to those who participate in them. Marty Lipinski and Louis Viececi have been doing a fine job on the hockey team. Also Bill Larsen, freshman fencing, and Bill McDevit, varsity captain, have been doing a fine job on our fencing team. Lee Newell will soon be out for golf, and will probably make the varsity team. Last year Lee played on the freshman team.

In the way of activities we have John Webber who is the head of the I.F. Research Committee, and Bill Evans who is president of our chapter of ISPE. John Webber and Bill McDevit have been invited to the Top 100 Banquet which is for senior activity leaders.

Sigma's officers have been doing a fine job this semester. They are: John Webber, president; Al Coxhead, vice president; Lud Kuhar, secretary; Ron

(Continued on next page)

ILLINOIS (Continued)

Lipinski, treasurer; Doug Moring, pledge trainer, and Ron Meliza, historian.

As you see there are many changes taking place at Sigma, and more to come. We are working hard, but we all feel that the rewards will justify the efforts put into their achievement.

Ronald S. Meliza, Zeta

Andrew J. Gentry, Jr., Alpha

T

UNIVERSITY OF ALABAMA

It has been another all-around good year for Tau of Chi Phi—in academics, house improvement, campus activities, and especially in sports. The chapter house has received interior painting, new stair carpeting, and a trophy case which we have gone a long way toward filling this year.

Our sports program is in high gear; "Coach" Bob Hughes has created the most successful athletic machine on campus. The football team, spearheaded by pledge Jim Lazenby's accurate passing, the basketball team, led by Brother Bruce Hutchins who averaged 22 points per game, and the tennis doubles teams, led by Brothers Woody Mickle and Jim Holland, compiled records of eight wins and no losses. The swimming team, led by Brothers "Bubba" Hughes, John Blair, and John Bowden, is now entering the swimming finals with a 6-0 record.

Tau was down somewhat in grades for the past semester, but still ranked in the upper half of fraternities scholastically. Brother Charles Rampacek accomplished a rare feat with his third straight all-A average in engineering, while Brother Jerry Franks received his Phi Beta Kappa key and a Woodrow Wilson Fellowship.

In campus politics, Tau scored some outstanding successes this year. Brother Ed Sentell is editor of the yearbook, the Corolla; Brother Chuck Smiley is advertising manager of the Corolla; and Brothers Andy Gentry and Thad Mauldin are members of the student legislature. Andy also holds the position of Director of Union Activities.

Coming events at Tau include Tau Day on April 20th, when alumni will gather for their annual business meeting; the annual Rush weekend in April; and the big party of the Spring, the West Indies Weekend in May.

In February Tau initiated ten members into the chapter, and added two new men to the Spring pledge class.

In February, Tau prepared a self-

evaluation report as required by the University. This report constituted a direct challenge to all fraternities on campus in that it was mainly concerned with the purposes and goals of each chapter. As stated in our report, our purpose for existence is to give our members diversity and stimulation while preserving a sense of belonging. This, we believe, we are providing to our members.

M. Lloyd Screven, III, Zeta

Lewis A. Jacobson, Alpha

Φ

AMHERST COLLEGE

This year has marked a rise to new heights for the brothers of Phi. We have moved through most of a varied program, culminating in a highly successful rushing period, and are now looking forward to a full membership of fifty-seven, who will occupy a plant that has been groomed to perfection.

In athletics, we have been more active than in the past few years. This fall, we fielded three varsity soccer players in Ian Sim, Paul Oitner, and Jack Remington. Pete and Steve Bancroft, whose father was Phi, '32, were prominent members of the crosscountry squad. During the winter season, our prestige was boosted by the play and popularity of seven foot Tom Weaver on the basketball court. Pete Bancroft and Steve Gates anchored the relay teams, while Jon Saphier and John Ransmeier held down places on the squash team. Stu Wells, Sandy Washburn, and Dave Parker were mainstays of this year's improved hockey team.

In other areas, all of the officers of the Debate Council are brothers of Phi, led by President Rich Podell. Pete Kerns was awarded the Mayo-Smith Fellowship and will spend his next year working here in the admissions office. The house has launched a new program of informal seminars with various members of the faculty. They have proved to be very successful, and are likely to be continued.

A zone meeting of the chapters in the northeast area of the country was held here March 9. There was much fruitful discussion, and a good time was had by all in the festivities that followed.

Rushing for the Phi Chapter started with our arrival on campus this fall, and the informal, though all-out campaign was waged "with great vigah" until the formal procedure started March 20. Rushing chairmen Dave Lake, Dave Bunting, and Joel Miller led and coordinated the whole movement, doing a

magnificent job, especially during the formal period. Frank Poole and John Wyman, and Lew Jacobson and Bob Keith, the alpha-beta combinations for first and second semesters respectively, also played a great part in getting the brothers and the house in top condition for the ordeal. The commons room and hall were done by the pledges, finishing the remodeling on the downstairs. These changes, coupled with those of the past three years, give the Phi the most comfortable physical plant on campus. At the end of the rushing period, the brothers could look back on a sterling year, and ahead to a rosy future, as our new pledge class shows great promise.

Jim Donham, Zeta

Lewis E. S. Parker, Alpha

Ψ

LEHIGH UNIVERSITY

Psi Chapter was very honored to be chosen as host to representatives from seven eastern chapters of Chi Phi who attended the Zone Meeting here on December 8 and 9. This was the first of its kind in the history of Chi Phi and was a huge success. An all-day Saturday meeting was followed by a banquet and a dance.

Perhaps the most avid interest shared by the members of Psi in the area of extracurricular activities is intramural athletics. In the past four years, Chi Phi at Lehigh has ranked very high in the fraternity intramural standings, and two years ago we were number one. Again in 1963 the results show that the brothers of Psi have exhibited superior athletic prowess and rank in the top four of thirty-two fraternities at Lehigh. We have not been weak in any phase of intramural competition and have excelled in swimming and basketball, ranking number two and four respectively.

We have been pleased to meet the many Chi Phi brothers and pledges who have visited us in the past several months. Because of Lehigh's outstanding wrestling team, students from other colleges and universities have come here to watch the matches and to enjoy the festivities afterwards at the Chapter house.

Each year there seems to be a different rushing program at Lehigh, and this year was no exception. Contacting and rushing was cut down to a concentrated and rather hectic two weeks. We took an excellent pledge class of eight, this number being substantially below the number we have taken in previous years because of the fact that we are only graduating nine men.

One of our greatest assets is the physical plant. Two years ago a committee of brothers and alumni, with excellent foresight, started an endowment fund for the house itself. It was the opinion of the committee that within ten or twenty years our chapter house would need extensive revitalization or perhaps even rebuilding. With this in mind a mutual fund investment scheme was started with a system of ever increasing contributions. The active brothers contribute, and each graduating class makes a pledge. However, the contributions of alumni will be needed to swell the fund to the desired proportions within the allotted time.

With the able guidance of our Alpha, Edwin H. Gott, Jr., Chi Phi has continued its prestige at Lehigh University.

George M. Converse, III, Zeta

Raymond Maddox, Alpha

GEORGIA INSTITUTE OF TECHNOLOGY

After a very successful rush during the Fall Quarter of 1962, the Omega Chapter was off on the right foot toward a very successful year and high hopes for another great year, with thirty-nine new pledges. Full participation in sports as well as other fraternity activities started the ball rolling for the 1962-63 year.

During the Winter Quarter, initiations were held and twenty new brothers joined the ranks of Chi Phi. Three of the new brothers became officers of the chapter. With the overall enthusiasm of the new brothers and confidence of the old brothers, the ball continued rolling at a very fast pace. Although the chapter was on a limited social program at the time, the spirit was very high. Participation in I.F.C. activities, which included basketball and bowling, proved to be fairly successful although we did not come out on top. And through the efforts of the brothers and the alumni, whose close relation to the fraternity was quickly proven, the chapter regained its full social position.

With the beginning of the Spring Quarter, elections were held, and the new slate of officers are: Raymond Maddox, Alpha, replacing one of Omega's finest Alphas, Fred Rudder. Randy Pearce, Beta; Wallace Daniels, Gamma; Allen Dodd, Delta; John Lappington, Epsilon, and Dick Thompson, Zeta.

Preparations for rush next fall have already begun, and a general fix-up of the house is at the top of the list.

The Omega Chapter has definitely had a successful year thus far, and with the new officers, we plan to reach a new

high. With the Chi Phi spirit and close relationship of the alumni, the Omega Chapter will continue its supremacy on campus.

George R. Thompson, Zeta

David Replogle, Alpha

Alpha Tau recently completed a most successful Spring Rush. Sixteen pledges were initiated in a ceremony held March 4th. Earlier, six men were activated from the Fall pledge class.

New officers were elected for the coming year. They are: Senior—Dave Replogle, Detroit, Alpha; Sophomore—Paul Malboeuf, Plymouth, Beta; Junior—George Stevenson, Mt. Clemens, Gamma; Junior—Jon Diebold, Saginaw, Delta; Sophomore—Mike Nichols, Battle Creek, Epsilon; Sophomore—Roger Jeanson, Port Huron, Zeta.

The following brothers successfully petitioned for positions on standing committees of the Student Government Council: Jim Haughey, Toronto, Canada, Public Relations Board; Scott B. Crooks, Ft. Thomas, Ky., Committee on Membership in Student Organizations.

Paul Malboeuf is petitioning for Executive Council of the Michigan Union. George Stevenson was elected Treasurer of the Young Republican's Club of the University.

Alpha Tau is looking forward to improving its position among fraternities both scholastically and academically. In intramural sports we are fifteenth; strong golf and softball teams should improve our standing in the Spring sports. Hopefully, the tennis team can improve on its second-place finish of last year.

Major social events for the semester include the Pledge Formal and the annual Hawaiian Party.

Roger Jeanson, Zeta

Richard H. Johnson, Alpha

UNIVERSITY OF MINNESOTA

The primary function of Gamma Delta during this year has been the rebuilding of a new and dynamic chapter at Minnesota worthy of the name Chi Phi. At first the results of the program seemed rather meager, but by winter quarter of 1963 Chi Phi at Minnesota began to show signs of new life. Having laid the foundation during fall quarter, Gamma Delta embarked on the new year with a new pledge class, an interesting

social calendar and an earnest rushing program. An accelerated and intensified pledge program was carried out during the winter quarter, and already some of the new members are assuming positions of responsibility in the chapter. A varied social calendar was also organized for winter quarter and was highlighted by a ski trip in mid-February to Val Croix at Taylors Falls, Minnesota. As part of the rebuilding efforts of the chapter, a continuous rushing program was held during the past quarter, and some of the results are becoming evident in the spring pledge class. One of the outstanding events of the winter quarter was a Parents' Night dinner held by the chapter which was designed to acquaint parents with the fraternity. Speakers from the chapter, the alumni, and the counselor explained various aspects of fraternal life, and this was followed by a tour of the house. The event proved to be an excellent way of bridging the gap between brothers and their parents and improving the public image of fraternities.

At present Gamma Delta is preparing with Alpha Kappa Gamma sorority for participation in Campus Carnival, the outstanding Greek and campus activity of the year. At the same time the chapter is continuing its rush program while training the new pledge class for participation in the fraternity. An important part of the rebuilding program at Minnesota is the summer rush program which is presently being planned in order that Gamma Delta will return in the fall as a strong and active chapter of Chi Phi. The final social event of the quarter and highlight of the year will be the annual Orchid Formal Dinner-Dance held late in May.

Sheridan Kramer, Zeta

Dave Richardson, Alpha

OREGON STATE COLLEGE

The men of Epsilon Delta stepped back into stride this winter term with high spirits. We have again topped the all-men's and all-fraternity grade point average for fall term.

The chapter has seven additional pledges, and the pledges of fall term are doing well. An outstanding pledge is Marv Crowston who switched from quarterbacking the rook football team to the rook basketball squad and all this time maintaining a GPA better than 3.0.

Our intramural bowling team consisting of brothers Marvin Lee, Wayne Cox, Dave Byrns, Duncan Robertson, Jim Ellis and pledge Dwight Catherwood,

(Continued on next page)

OREGON STATE (Continued)

captured the "AA League" championship. In addition, our intramural basketball team took their league championship.

The social highlight this term was the house dance which was organized and presented by the pledge class with Dave Meldrum as chairman. The theme was "Our Winter's Dream." The chapter house was decorated with rock gardens, ponds, waterfalls, and other outdoor scenery.

"Dad's Weekend" was met with great participation, with some Dads traveling as far as 1,000 miles to attend. The weekend was ably coordinated by Brother Ted Pitman with such events as school meetings, smokers, jam sessions, and topping the evening off with a basketball game—OSU winning over USC.

A change in house officers find: Dave Richardson, Alpha; Les Apple, Beta; Keith Wrolstad, Gamma; Gary McGahuey, Delta; Jim Wood, Epsilon; Clifford Dang, Zeta; John Trollman, House manager; Marvin Lee, Social chairman; Don Murphy, Song chairman; Larry Lew, Scholastic chairman and Jim Ellis, Activities chairman.

Events coming up for the spring term are: I.F.C. sing for Mom's Weekend; intramural track, softball, and golf, plus our annual "Riverboat" house dance at which the house will be completely disguised as a riverboat.

Clifford Dang, Zeta

ZΔ

Richard Seely, Alpha

UNIVERSITY OF CONNECTICUT

On February 25, 1956, the Zeta Delta Chapter of the Chi Phi Fraternity came into being at the University of Connecticut. Since this time Chi Phi has proudly maintained a position of leadership and quality on this campus, and is continually striving to improve that position. For example, the chapter is an Interfraternity Council Scholarship House and stands in the top twenty-five percent of all men's-housing averages.

The learning process in Chi Phi extends outside of the house. Many brothers who have learned the value of experience in leadership or group participation within the house, have taken this knowledge outside and applied it to campus-wide activities.

Our chapter has always been proud of its campus leaders who are present in both quantity and quality. A glance at the accompanying picture quickly tells

UCONN LEADERS

Row 1 (l. to r.): Kevin Dunne, President of Associate Student Government; Merritt Brown, Editor-in-Chief, Nutmeg Staff. Row 2 (l. to r.): Robert Satire, President, Scabbard and Blade; Rick Semels, WHUS staff; James Clabby, Vice President, Senior Class; George Appleby, Assistant Business Manager, Nutmeg Staff and Vice President, Junior Class; and Lawrence Churchill, Board of Governors Student Union.

the story. Besides those in the picture we have Joel Janenda, Chairman of the Goodwill Committee; Tom Talbott, Chairman of Greek Sing; Ron Massey, Rush Chairman of IFC; and on the Nutmeg Staff—Robert Butler, Business Manager; Joe DeLaurentis and Chris White, Advertising Managers; Dennis Stanek, Sales Manager; and Tom Talbott, Assistant Business Manager.

There is also Dick Boudreau, King of Winter Weekend 1963; Bob Haines, Student Representative to the Athletics Advisory Committee; Steve Fairfield and Ken Huminski, IFC representatives; Jeff Linfert, Student Union Board of Governors; Dick Boudreau, Cadet Lt. Colonel, AFROTC; and last but not least, Donald Warzocha, Cadet Colonel and first in command of AFROTC.

Chi Phi's not only excel as student leaders, they are also athletes, and many of them are both athletes and student leaders. Chi Phi's are members of almost any intercollegiate team found at the University.

The football team is composed of such indispensables as Dick Boudreau, Dick Seely, Larry Reed, Jack Redmond, Nick Rossetti, Dick Grieves, Brian Smith and Walt David, all of whom are Chi Phis. In the other major fall sports we find that Ken Gilkes was a standout on the soccer team.

This year the varsity basketball team was outstanding in its drive to a Yankee Conference championship. Chi Phi can claim, and do so with pride, two starters on the team. Both Jerry Manning and Toby Kimball were outstanding this year. Bob Haines and Dale Comey were two

reserves who came off the bench game after game and led the UCONS out of trouble. Al Ritter and Charlie Talbott showed that they will be an asset to next year's team.

The varsity baseball team should be in for a good season this year. Members of Chi Phi who should give fine performances this spring are: Ken Gilkes, Don Warzocha, Doug King and Dave Werner. Sophomore Doug King led last year's freshman team in batting with a .400 plus average.

The tennis team also is well represented by Chi Phis. Dick Seely, Ron Massey and Bill Tucker are all varsity tennis players.

Douglas King, Zeta

Gilbert I. Garcetti, Alpha

HΔ

UNIVERSITY OF SOUTHERN CALIFORNIA

The Eta Delta Chapter is embarking on a "New Concept" in Fraternity, both physically and ideologically. The men of the Chapter believe this will display a dynamism, a freshness, a degree of unity that is lacking in our Fraternity, today.

It is hoped Chi Phi's new \$300,000 Fraternity house will be completed this coming September. It will be located at the old address of 720 W. 28th Street. At present, we are occupying a temporary house at 947 W. 30th Street.

Our Pledging program's purpose is to develop attributes of leadership, comradeship, personality and to instill in the pledge a feeling of Chi Phi. The emphasis is placed on the pledge's participation in the workings of the fraternity such as planning house functions along with actives, budgeting finances or organizing Rush School and rush programs. We have also instituted a Pledge Speaker program where speakers from the academic, business and political worlds attend Monday night dinners and carry on active discussions with House members. We have also revised our Chapter Song Book and even composed a few new Chi Phi songs. Also pledges and actives are entering the House in "Songfest," USC's Spring Sing at the Hollywood Bowl.

The Brothers are anxiously awaiting the "skin" owed to Eta Delta by the Kappa Chapter after USC's No. 1 in the Nation, football, team defeated the Wisconsin Badgers in the Rose Bowl. We anxiously await Kappa's reply.

Last semester's scholarship average was above the University's All Men's Average of 2.48. Chi Phi placed fifth out of twenty-nine with a 2.57 grade point average.

Pledges Bob Capri and Rich Rutledge recently received honors in a Western Speech Contest while Brothers Sugarman, Garcetti, and DeNunzio debated on behalf of the Young Democrats throughout Southern California. Brother Noel Stowe was recently tapped for Phi Alpha Theta, national History honorary Fraternity. Brother Bob Quinn has been President of the USC Business School and was named an outstanding member of his Business Fraternity. In school intramural athletics, Brother Phil Page won the Handball title, Jim Cain placed in the golf tournament along with Brothers Jurski and Moffett won first and third places respectively in the Lions sponsored Surfing contest.

In the field of Student Politics, Brothers Garcetti, and Sugarman along with Brother Quinn have taken active parts. They have served successfully in their capacity to lead USC on the road towards a more realistic plan for student government. Pledge Alan Hurley heads the USC chapter of the Young Conservatives. He also is the head coxswain on the USC Varsity Crew team.

New house officers for this semester are: Gil Garcetti, Alpha; Dale Moffett, Beta; Ron Sugarman, Gamma; Phil Page, Delta; Jim Jurski, Zeta, Paul Josef DeNunzio, Social Chairman and Ron Sugarman as Pledge Master.

Eta Delta Alumni are reminded that the annual Eta Delta Founders Day Dinner will be held during the first week of May.

The Brothers of the Chapter are grateful due to the election of Brother C. Moreland Thomas as Grand Alpha-elect. Brother Thomas has worked very hard and with great effectiveness on behalf of the Chapter.

Jim Jurski, Zeta

Richard M. Prior, Alpha

UNIVERSITY OF FLORIDA

The Theta Delta Chapter has progressed in all fields of activity since the beginning of last trimester. Both the house and dining room have been showing a profit which indicates that the chapter is getting on its feet. Eleven men were initiated in January thus increasing the size of the active chapter since no one graduated last trimester. Rush has been slow for all fraternities on campus, but ThD has managed to pledge a sufficient number of men.

Since the last newsletter ThD has captured intramural trophies for football and volleyball and is still undefeated in

softball, with one game remaining. Chi Phi will win the President's Trophy for the Blue League, if we win the softball trophy. Since the top four teams are within a few points it is anybody's guess who will win. Brother Peloquin has been managing the intramural teams and has done a fine job of organizing.

Elections were held at the beginning of the trimester and the new officers are: Richard Prior, Alpha; Norman Vaughan-Birch, Beta; Jon Eddington, Delta; Peter Mockeridge, Epsilon; Roger Straub, Zeta and House Manager, and Walter Forehand, Dining Room Manager.

Many improvements were made to the house facilities including, painting of the front, library, dining room and other areas; finishing the floors, purchasing of new furniture and a dumpster, and repairing of the TV set. It is felt that the house looks the best that it has

Brother Prior, Alpha of Theta Delta, presents newly initiated Brother Fleming with membership certificate. Brother Weems in background.

L. to R.: Strange, Th '11, O '13; Stormes, ThD '36; Gladfelter, A-T '33 (National Director); Graham, ThD '63; and Quintana, ThD '37, enjoy having their picture taken following the initiation of Colonel Graham and the presentation of 25-year pins to Stormes and Quintana.

Photo by Roger Straub, ThD '64

looked in years. Since there will be little work to do on the house next year, the time will be spent on rush.

As usual Chi Phi Weekend was a success again this year. The festivities began with a formal banquet at the University Inn followed by dancing. Saturday the chapter picnicked at Dr. Weems' ThD '48 lake resort. The chapter would like to thank both Banks Prevatt, ThD '63 and Dr. Weems for their hospitality.

Brother Don Bode was given the honor of being nominated as Rhodes Scholar to represent the University of Florida. Don, twice a Sparks Medal Winner, was tapped for Phi Beta Kappa. Don, who was Alpha as a sophomore, will be graduating in April. This year Richard Prior was awarded the outstanding sophomore award for his work last year as Delta.

Again this year Chi Phi was active in campus politics, but on the winning side this time. The VOTE party which ThD supported won nearly all Student Government positions. Although Norman Vaughan-Birch was defeated as representative on the Legislative Council, he received the appointed position of Secretary of Social Affairs on the Cabinet. Chuck Fleming, who was political representative also received the appointed position of Traffic Court Justice. Being in the winning party helped raise the position of Chi Phi on the campus, especially since we had the highest check off of voters in the election.

Many other brothers and pledges have been active in extracurricular activities including; Don Bode, president of both the Florida Chapter of the American Institute of Physics and Sigma Tau Sigma which is the Student Tutor Society, Inspector General of Army ROTC and active in student government committees; Roger Straub, president of both Southeastern Inter-Collegiate Sailing Association and Gator Sailing Club, and a member of the American Institute of Industrial Engineers; George Kanastras, secretary of the Society for the Advancement of Management; Kelly Prior, pitcher on freshman baseball team; Bob Post, golfer on the freshman team; and Tom Gadsden member of Board of Director of Fraternity Purchasing Association. Mother Langdon has been working for the chapter and has also found time for volunteer work besides being President of the House Mothers Association.

Colonel Thomas Graham, Jr., who is ThD faculty advisor, will be initiated by the Alumni at the Spring Alumni meeting which will be held March 23rd. Colonel Graham, who is a UF graduate, is one of the main reasons for the success of the chapter in the last year.

FLORIDA (Continued)

Because of the success of last year's summer rush program, it will be continued again this coming summer. Last year's summer rush was successful due to the efforts of the actives and the alumni combined. This year brother Richard Prior will be handling the program and he should be contacted at 4100 Bayshore Dr., Dunedin, Florida. If any alumni have recommendations especially within the state, or if they would like to sponsor a rush party during the statewide tour at the end of the summer. Remember that the success of the chapter depends on the support of the alumni in the rush program.

Roger Straub, Zeta

James L. Hanig, Alpha

INDIANA UNIVERSITY

Success, measured by initiative, cooperation, and growth has been abundant at Iota Delta this year. Two trophies were added to our fast growing collection when our Homecoming Decoration was voted best among organized displays and best overall. The same weekend witnessed a Welcome Home Alumni Dinner followed by a Victory Dance Saturday night. The presence of many brothers, alumni and their guests made this one of our most successful weekends. Additional Chi Phi victories, thus far, have been attained by football, bowling, tennis, and ping-pong teams.

February 24th marked the initiation of fifteen new men into the brotherhood. An outstanding job this semester by rush Chairman Bill Montgomery has assured us of another successful second semester pledge class. Also brother Montgomery is working hard to insure a successful fall pledge class.

The approach of spring has the chapter hard at work for the Little 500 bicycle race, known as the "World's Greatest College Weekend." With a veteran team entered this year, we feel certain that this will be our finest showing. Our riders have been training hard and the spirit of the entire Brotherhood indicates a first place finish.

Of great importance to the chapter are the final steps in preparation for our new house. All indications point to the last week in April as the date for ground-breaking. The Brothers of Iota Delta have been working hard for it, and are looking forward to moving into our new house.

The present officers of the chapter are: Alpha—James L. Hanig, Highland

Park, Ill.; Beta—David Chesney, Houston, Texas; Delta—Richard T. Collings, Valparaiso; Epsilon—Jon G. Smith, South Bend; Zeta—S. K. Gwin, Clarksville; William S. Montgomery, Muncie, Rush Chairman; Pledge Trainer, Jerry W. Beaumont, Ellettsville, Social Chairman; John B. Miller, Cincinnati, Ohio, and Athletic Chairman, Gene H. Johnson, Mulberry, Ind.

Dennis McCarter, Alpha

UNIVERSITY OF OREGON

Winter term started early for several of the men from Tau Delta as they returned to school early, to work on finishing our combination party chapter room. The design was planned and executed by our architecture students and the entire membership is appreciative of their efforts. The entire membership contributed some time and effort to this project. The room is paneled in walnut, with a false ceiling and subdued lighting. The project was a further addition to the comforts of our fine house, although there is still some further work to be done.

We duly inaugurated the party room on the day of completion when we held our traditional "Rum Runner's Ball," February 2, 1963. The membership decorated cleverly and in keeping with the theme, a live band entertained and over 35 couples were in attendance. Weekly exchanges held with the sororities were a further highlight of our social calendar.

Tau Delta was proud to initiate nine new members during winter term. These men worked hard during their pledge-ship and we are certain that the initiation of these quality men ensures the continued achievement and progress of the chapter. Initiation of these men brought our active chapter roll to a solid 28 and we are still growing.

Officers were elected late in the fall term and took office winter term. They are as follows: Dennis McCarter, Alpha; David Staat, Beta; James Gardiner, Gamma; Leslie Clarke, Delta; Gary Rhodes, Zeta; Mark Jones, Epsilon, and Steve Hammond, Rush Chairman.

We look forward to continued success and growth under these officers.

Gary Rhodes, Zeta

Gilbert E. Sobie, Alpha

UNIVERSITY OF NEBRASKA

The Chi Phi colony at the University of Nebraska numbers 12, and is still grow-

ing. Our men have been rushed through contacts from smokers, in December and February. Brother Carl Gladfelter attended the two held in February. Colonizer Gil Sobie, TD '62 arrived on campus in January and has been working steadily since then. Ralph Aldrich, Phi '61, a graduate student, has been a most valuable source of inspiration and assistance to the colony.

It is important to point out that we would not even be a colony today if it were not for a very fine group of alumni. Those who have been working with us include Victor Smith '36, Earl Frederiksen '29, Howard Agee '35 and Victor Graham '19 of Omaha. Lincoln alumni include Dr. Fred Akin '28, James Crabill '33, Dr. Ray Pool '07, Charles Hinds '26, and Trevor G. Smith, Phi '57.

Temporary appointed officers include Gerald Hoff, Beta; Daryl Travnicek, Gamma; Val Policky, Delta; Gary Fricke, Epsilon, and William (Bill) Wood, Zeta. Joe Newman and Gary Icenogle have volunteered for rush chairman and social chairman, respectfully.

Our problems now are organization and unity—the things that you're in contact with every day, but sometimes not aware of because they are planned ahead and have a base of being done before. Rush is our main concern. It will go even slower now, until next fall, when we will have a formal rush week. After that will come the programs of scholarship, social and athletic, all planned by members of the colony. Scholastically our average at present puts us (unofficially) among the top 5 of 25 fraternities. Socially the system at Nebraska includes house parties, house dances, and other functions with sororities. There is also a strong intramural program on campus sponsored by the U's athletic department.

Our greatest aid is that we have housing on campus and will be living together next fall. The house does need a general clean up, minor repairs, interior painting, and some new furnishings.

The alumni meeting for 1963 is set for 5:00 p.m., May 18, Hotel Cornhusker in Lincoln. Dr. Fred Akin is in charge, his address is 1011 Sharp Building, Lincoln. The committee is sending out an announcement.

The officers and men of Alpha Theta Chi Colony would appreciate any recommendations of men who are entering the University of Nebraska next fall. Send them to: 1345 R Street, Lincoln, Nebraska.

Bill Wood, Zeta

WASHINGTON, D.C. CHI PHI CLUB

The Washington, D. C. Chi Phi Club holds regular monthly meetings every second Thursday of the month. All out-of-town Chi Phis are cordially invited to join us.

Time and Place: 12:30 P.M., Willard Room Veranda, Willard Hotel.

For additional information call:

President: M. Robert Deo, AT '29, NAtional 8-2316

Vice-President: William A. Kern, O '55, WOrth 4-4696

Sect'y-Treasurer: Anthony Morris, A-A '59, JAcKson 5-8888

MEMORIAL FUND TO HONOR GAMMA ALUMNUS

A memorial fund in memory of C. Baxter Jones, Jr., '40 has been created to aid law students at Emory with loans and scholarships.

Brother Jones, prominent Atlanta lawyer and civic leader, died with his wife in the tragic crash of the Atlanta Art Assn. Charter Flight in Paris last year.

A commitment of \$5,000 to the fund has been made by the law firm of Sutherland, Asbill and Brennan, of which Brother Jones was a partner.

He was a graduate of Emory's College of Arts and Sciences and School of Law. He was named Atlanta's "Outstanding Young Man of the Year" in 1951, ran

for Congress in the Democratic Primary in 1952 and received more popular votes but was defeated under the county unit system. Baxter served as Grand Eta from August 1957-1961.

1963 GRADUATES TAKE HONORS

JERRY LEE FRANKS, Tau '63, of Russellville, Alabama, has been awarded a Woodrow Wilson Fellowship for graduate study in the academic year 1963-64. Each Fellowship covers tuition and fees for the first year at the graduate's school of choice, plus a stipend of \$1,500. In making the announcement the Foundation states: "The winners—the largest number we have selected in any one year thus far—were chosen as 'good bets' for college teaching. We hope they will follow that career, yet we do not hold them to such a firm commitment. We ask only that they give college teaching serious consideration."

Jerry was the 1962 winner of the Sparks Memorial medal.

* * *

DONALD D. BODE, JR., ThD '63, was recently nominated to Phi Beta Kappa at the University of Florida. Bode has won the Sparks Memorial medal twice, and has served as Alpha of the chapter. At the present time his plans call for doing graduate work in physics at the University of Utah.

Alumni News Briefs

Wharton Mitchell, Gamma '38, of Bronxville, N. Y. has been elected Vice President of the Hanover Insurance Group with overall supervision of Hanover's Fire underwriting operations. Brother Mitchell is President of the New York Emory Alumni Association.

† † †

Dr. Albert F. Gaal, Jr., Zeta '52, Irvington, N. J., recently received a Service Award Plaque for his work with the Irvington Community Welfare Council.

† † †

William C. Hartman, Jr., Eta '37, Athens, Ga., representative of the National Life Insurance Company of Vermont, was the principal speaker before the educational conference of the firm's 1963 President's Club in Hollywood, Florida. An all-Southeastern Conference fullback at the University of Georgia in the mid-30s, he is active in University alumni affairs and is prominent also in Athens community life.

† † †

Elbert E. Kibebe, I '30, retired from the U.S. Army August 1, 1962 with reserve grade of Lieutenant Colonel after 20 years of active duty. He and Mrs. Kiebele will reside at 5315 Primrose Ave., Indianapolis 20, Indiana, after April 1963.

† † †

Harold T. Bellis, BD '26, received a trip to the National Life Insurance Company of Vermont's President's Club meeting in Hollywood, Florida for his outstanding record in client service and sales. He resides in Seattle.

† † †

Dr. Jack M. Spurlock, ThD '52, 3306 Trentwood Blvd., Orlando, Florida, was appointed Director of the Aerospace Physics Laboratories of The Martin Co., Orlando, Florida, January, 1963.

† † †

J. Robert Keyes, GD'30, ED'33, 1646 Steidl Rd., Bend, Oregon, President C/K. Inc. Logging firm reports that Chi Phi in the state of Oregon is gaining very rapidly.

ALPHA THETA CHI COLONY OF CHI PHI AT THE UNIVERSITY OF NEBRASKA

Standing (left to right): Bruce F. Menke, Val J. Policky, Daryl Travnicek, Gary R. Icenogle, Gregory R. Bell, Bill R. Wood, Gary J. Fricke, Joe R. Newman. Seated (left to right): Sam M. Samuelson, Allen L. Toews, Ralph A. Aldrich (Phi '61), Gilbert E. Sobie (TD '62), Gerald T. Hoff, Gene T. Oglesby.

Installation of New Grand Alpha

THE GRAND ALPHA-ELECT, C. Moreland Thomas, will be installed by the Council as Grand Alpha on July 16, 5:30 p.m. at the Piedmont Driving Club in Atlanta, Georgia. Following the installation, the Atlanta Chi Phi Alumni Association will honor Brother Thomas and the retiring Grand Alpha, John E. Oliver, with a reception. The Council and the Atlanta Chi Phi Alumni Association invite all brothers to attend.

LET'S TALK IT OVER

(Continued from inside front cover)

sult of many alumni switching their dues gift to the Trust rather than to the Fraternity. Contributions to the Educational Trust have steadily increased over the last five years to an all time high.

Last year we pledged 780 men and initiated 559. Through April 22nd, 407 initiations have been reported and 677 men pledged. It would appear that we are going to fall short of last year's figures. Over the last five years initiations have averaged 510 men per year.

Two chapters are presently constructing new chapter homes: Iota Delta—University of Indiana, and Eta Delta—University of Southern California. Loans from the Chi Phi Educational Trust have assisted both projects.

The Council met in September in Cincinnati and February in Atlanta, and plans to meet on July 16th in Atlanta. The Grand Alpha will be installed on the same date. At both meetings chapter Council Representatives and Council members-at-large from areas adjacent to the meetings were present.

Most of the chapter homes are in excellent shape. Mu—Stevens Institute, has a long range program for renovating the building and redecorating the interior. Alpha—University of Virginia, has returned to a position of strength and has made a number of improvements to their

house. Epsilon—Hampden-Sydney College, has a three year renovation and improvement program under way. Plans call for redoing the front of the house this summer.

With but two exceptions, all chapters are in excellent financial shape. The two chapters with financial problems are working their way out and are being assisted by their alumni organizations.

Quite a few comments were received on the subjects discussed in the "Chi Phi Forum" of the February issue. A succinct analysis by former Grand Gamma F. W. Krebs, Xi '12, virtually covers the thinking of those who expressed themselves. He writes: "National Headquarters Bldg.—NO. How could such a project be financed? Membership Directory—YES, if enough advance sales can be procured to assure no loss. Placement Service—YES, if present office force and Chakett can be the tool. The tendency is toward too heavy a load for undergraduates to carry on the national operation."

The following letter from James W. Bell, ED '42 presents an interesting thought on the placement service concept:

"RE: Forum on Undergraduate Placement

ment
Dear Brother Gladfelter: The following thoughts are offered from a back-

ground of 15 years as a college placement officer and a year as an independent personnel consultant.

With the postwar growth in activity and stature of the local college placement office and the recent publication of the CPC ANNUAL (plus commercial publications like CAREER), I doubt if an additional media would be of any real value to the Undergraduate. However, there may be a service to be rendered to the Alumnus through the Fraternity and the Chakett.

I know that individuals, like myself, are always interested in every bit of information in an individual's background that will assist us in our total evaluation. If I knew that an individual was Chi Phi, I would be very interested as I would know that he had been exposed to the type of training association that I appreciate and feel to be of value. The problem is to know about the individual's affiliation as very few experienced men mention their fraternity in their resumes unless they are active in national units.

Perhaps there are other Chi Phis around the country who are in Personnel, operate placement and/or consulting services, or who are placement officers at colleges and universities who would be interested in cooperating in an informal program.

This might be simply a listing, once a year, in the Chakett, of these individuals with their affiliation, their fields of professional interest and the geographical area that they serve, such as:

Name

J. O. Ott
B & B Bldg.
Detroit, Mich.

Field

Automotive and Mechanical

Region

Mid-west

Perhaps the above is too much like regular advertising . . . But it was just some thoughts generated by the Forum.

Most sincerely,
James W. Bell, ED '42"

I hope the Council will consider a placement service program at its next meeting. Interestingly, no comments were made by undergraduate members. Does this mean they do not see any value in such a project?

The Council and the Chi Phi Club of Atlanta sincerely hope that if you are in or near Atlanta on July 16th, that you will attend the installation of the Grand Alpha at the Piedmont Driving Club, Atlanta, at 5:30 P.M. A brief reception will follow.

NOW'S THE TIME . . . To Recommend Candidates for Membership

With chapters and colonies at thirty-five schools you probably know a young man who plans to matriculate at one of the schools listed below.

Send the name of the candidate and other information on the recommendation form to either the Office of Council,

Room 550, 3330 Peachtree Road, N.E., Atlanta 26, Georgia, or to the chapter. Between June 1st and August 31st send all recommendations to the Council office and they will be forwarded to the appropriate rushing chairman at his summer address.
