report which indicated that there is an immediate need for 500 more chapters on campuses across the country.

The report also indicates that undergraduate membership in fraternities over the past five years has increased from 1,578,870 to over 2,500,000.

"The question of survival is still a relevant one, however," according to Nebraska's Hallgren. "Many chapters have not yet grasped the changing role of fraternity; many lack mature leadership, many lack a purpose."

Richard Fletcher, executive secretary of Sigma Nu Fraternity, commented that fraternities will survive, the same as any human institution, if it is "useful, purposeful and alert."

Fletcher continued, "We started as Fraternities, took on hotel and cafe functions, went into the club business in a big way, and are still in the club business primarily . . . with only casual concern for hotel and cafe and little or no emphasis upon fraternity, our original business."

"Now the institutions are doing the hotel, cafe and club business for the masses better than we can, leaving us only the fraternity business, a field in which—happily—we have no competition."

"We'll survive," he concluded, "if we're useful; we'll flourish if we're purposeful and will insure our future if we're alert. Our future in the sixties, as at any other time, will depend on whether or not we are in fact what we say we are."

LET'S TALK IT OVER . . .

EDITOR'S NOTE: In place of my usual column "Let's Talk It Over" I am featuring a story prepared by Donald L. Ferguson, a journalist student at the University of Nebraska. Don served as president of the Nebraska IFC in 1961-62 and is a member of Phi Gamma Delta.

By DONALD L. FERGUSON

THE COLLEGE FRATERNITY could be compared with the dinosaur. The dinosaur had history, tradition, and strength, but failed to adapt to the changing environment.

The fraternity, too, has its history, tradition and strength. But many educators have asked, will it be able to adapt for survival, or will it, too, become a historical footnote?

What type of adaptation will be necessary?

Can, or is, the fraternity system taking steps to insure its survival and live up to its principles?

Or, is the fraternity a dying institution?

Frank M. Hallgren, Dean of Men at the University of Nebraska, stated that, "If the fraternity system is to survive it will need to demonstrate that it is a positive educational influence in the college community."

Hallgren noted that to remove the problems of poor scholarship and poor citizenship "is not enough." This, he said, only indicates that the fraternity is not a negative influence.

"To demonstrate a positive contribution, the fraternity system must become a leader in the solution of social problems and not a defender of the status quo; a leader in cultural and intellectual development and not a debunker of the creative and imaginative intellect."

"I think the days of keg, combo, and collection of couples approach to social life of the fraternity is largely gone," indicated Earl W. Clifford, Dean of Men at Syracuse University, "and that in a very significant way, a prime characteristic, a principle dimension of fraternity experience that has evolved is not modern at all, but a return to the literary-scholastic origin of those organizations."

Clifford, when interviewed at the November meeting of the National Interfraternity Conference (NIC) in Pittsburgh, noted that the first college fraternity was Phi Beta Kappa, now a scholastic honorary.

Hallgren stated that while "Brotherhood" means a sincere feeling of friendship, a close-

Inspiring Address by a Lehigh Alumnus at a Chi Phi Zone Meeting, Dec. 8, 1962

'Be Sure You're Right; Then, Go Ahead'

By E. H. GOTT

*Executive Vice President-Production
United States Steel Corporation*

Four weeks ago, during a brief stay here on the Lehigh campus, I noticed that some of our Psi Chapter brothers were being quite friendly—more than even a brother might expect on a visit to a Chi Phi house.

My first thought, of course, was to recall a bit of advice that an associate of mine often hands out. Remember, he says, that women have curves—but men have angles.

Well, they did have an angle of sorts. They asked if I could return again this weekend for this special Chi Phi zone meeting. It goes without saying that their efforts to influence my decision were completely unnecessary. Four of the most wonderful years of my life were spent here at Lehigh, and, in particular, at Psi.

I not only appreciate the invitation to be here with you this evening—but I am also very pleased and flattered to have the opportunity to meet and talk with so many who are giving leadership to Chi Phi, and to your guests.

The day after I returned to Pittsburgh from my last visit to Lehigh and to Psi, an interesting article appeared in our local Pittsburgh Press. It was a report on a talk to a group of university presidents by one of Pittsburgh's educators.

It was coincidence, of course, but he had some comments in his talk about fraternities. He said it is time to prepare—and I quote—"a decent, respectable burial for the traditional American college fraternity . . . time has run out for the national fraternity system. They have

(Continued on next page)

Edwin H. Gott, Executive Vice President-Productions, United States Steel Corporation, Psi '29, was born in Pittsburgh, attended Peabody High School, of the same city, and graduated from Lehigh University with a B.S. degree.

After seven years of employment in the operating department of the Koppers-Philadelphia Coke Company, he entered the employ of United States Steel as an industrial Engineer at the Ohio Works. He was transferred to the Clairton Works in 1939 and to Gary Works, Indiana, in 1941. In 1949 he was made assistant general superintendent of South Works, Chicago. In 1951 Brother Gott was appointed general superintendent of the Youngstown District operations of United States Steel and, after a series of promotions, became administrative vice president-central operations (steel and coal) May 11, 1959 and assumed his present post November 11, 1959.

Brother Gott and his wife, Mary Louise, have two daughters and a son. One daughter, a Bryn Mawr graduate, is now married, and the other daughter is a student at Penn State. His son attends Lehigh University and seems to have his father's administrative ability. He is the current Alpha of Psi of Chi Phi.

served an historical purpose and served it well. But we've given up banjo clubs and minstrels. Now it's time to face courageously the task of replacing the alumni-dominated fraternal system."

Well, I knew you fellows were in America's educational doghouse. But I didn't know you were about to be completely dispossessed. Of course, I'm not overlooking the fact that this educator used the phrase "the alumni-sponsored fraternal system."

As an active member of Briarfield Association, this includes people like me. So in case you have been wondering why a steelman from Pittsburgh should consent to talk to you about fraternity matters and problems, here is part of your answer. We stand equally accused—and I'm not certain that any of us is guilty.

Perhaps I should say one thing more. In the steel industry and almost every other business these days, there is very little time for extracurricular study. I make no claim, therefore, to being fully aware of all the facts as they relate either to the side favoring fraternities or the one that is opposed. My views are strictly those of an observer—but a very interested and concerned observer.

There is one thing, of course, that all college and fraternity alumni know today. The American fraternity is once again under very severe attack. The quotation mentioned a moment ago is typical, perhaps, of some of the things being said about fraternities. Yet, actually, it is not a new situation.

It is a pretty good bet, for example, that there was little enthusiasm among the faculty and administration of the College of William and Mary in 1776—when Phi Beta Kappa was founded there as a secret society.

A half century later, when the Kappa Alpha society was formed at Union College up in Schenectady, it met with considerable opposition. Chi Phi dates its beginnings from 1824, and in this country Chi Phi was organized at Princeton. Our own fraternity history shows that the opposition of the Princeton faculty was so great, when this society was reorganized in the 1850's, that it was forced to disband—and the last active members burned its records.

At various times, fraternities have been completely banned from many colleges and universities. Back around the turn of this century, at least three states passed legislation prohibiting the existence of fraternities at their state institutions of learning. About the same time, there were several rather famous court cases—testing whether certain schools could make prospective students pledge

to disassociate themselves from any previous fraternity membership.

In fact, I doubt that there has ever been a time—from 1776 until the present day—when the college fraternity had *not* been a target for attack. And I think it is important to keep in mind that despite all of this—and no doubt because of it, as well—the fraternity system has continued to exist and has continued to grow.

Now, if we are honest with ourselves, we must admit that much of the controversy that has surrounded fraternities has not been totally without reason. During the last century, for example, fraternities considered themselves almost completely apart from the college. They had a fierce independence—and this was the source of many of their problems.

During the so-called Roaring Twenties, some of the loudest "roars" came from the fraternity houses on the American college campus—proving, perhaps, that the actions of youth are often just a reflection of adult attitudes.

Today, as in the period before America entered World War II, fraternity antics are a good source of newspaper copy. Psychologists explain the current crop of campus capers as a natural reaction among a generation of young people forced to live in the shadow of war.

But the fact remains that the American public—and many college administrators—have never been in a mood to accept a reason for the actions of undergraduate fraternity men. And this attitude certainly exists today.

Why? What has brought on all the new anti-fraternity sentiment? You know the answer, perhaps as well as I do. With dramatic suddenness in late 1957 and early 1958, the world crossed over into the Space Age.

The idea of man-made objects orbiting around our earth was startling. But, its impact on America was mild when compared with the shock we received at not being the first to make the crossing.

With equal suddenness, therefore, we literally launched our nation into an age of self-criticism. In typical American fashion, we went "all out"—and there were some of us who wondered if our self-appointed appraisers were ever going to find something *good* about America.

At the same time, and again with suddenness and dramatic impact, the American people were brought face to face with the reality of our race against communism. Here was proof that the communist world was dead serious in its desire to conquer the free world. Here was evidence that they intended to do

it as much by technological progress as by military might.

Like the voter who is always asking his Congressman, "What have you done for me lately?", America turned the full force of its critical gaze on our educational system.

The development and production of rockets and satellites and space-age weapons requires tremendous technical skill—skill that can only be acquired on the college campus. The typical American citizen believes, and rightly so, that his future rests in the hands of today's university graduate and student.

With this in mind, then, it is understandable why public opinion reacts unfavorably to fraternity hijinks. Don't misunderstand me. Having participated in a few on this campus in my own student days, I would be the last to campaign against youthful efforts to enjoy life.

There's a world of advice, however, in a comment said to have been made by a Chinese delegate to the United Nations. He was asked by a reporter to name the most unusual thing he had found in America. He smiled and replied, "I guess the oddest thing is the peculiar slant to your peoples' eyes."

Most things in life are this way. It all depends on how we see them. And the American public sees campus fun these days in a completely different light than some do.

These are times of serious scientific effort, and great national and international challenge. Front-page stories about a fraternity having set a new record for the number of people that can ride in a sports car—or be packed into a hollow tree—rub the American citizen the wrong way.

They make it all the more difficult for him to see that the college social fraternity has a definite part to play in our nation's struggle for survival in a world of turmoil and change.

The fraternity's loss of public support has not been the only reaction, of course. Another has been the trend toward placing fraternities and sororities under regulations and standards set up by college authorities.

With education in the national spotlight, it has never been more important for a university to put its best foot forward. It must continually demonstrate that it is performing the job of educating young Americans—and doing it efficiently and effectively. If it does not do this for the sake of public opinion, it must certainly think about it in connection with its fund-raising efforts.

There is not an institution of higher learning, therefore, that can afford to

have its image damaged by newspaper reports that play up the negative aspects of campus life. In most schools, fraternities and sororities are the heart of this life.

So here is a very significant responsibility that every fraternity shares with those who administer our colleges and universities. And, if my observations are correct, it is one of the biggest tasks facing our national fraternities today.

It has often been said, and truthfully, that fraternity members provide leadership among the student body that is out of all proportion to their numbers. This is only natural. Fraternities are obviously attractive to the out-going person—the so-called “idea man” who likes to do things and be a part of things.

This is a tremendous benefit that fraternities have—and it is also an equally great responsibility. Such a reservoir of leadership talent should not be wasted—nor should it be permitted to be used in frivolous or non-productive ways.

One of my favorite golf pros often says that he can make a passable golfer out of any novice who has never held a club in his hands. What he dreads is “unteaching” an old duffer who has spent years perfecting his faults.

The same line of reasoning applies in training young people to play the often-difficult game of life. And it applies to the responsibility that fraternities have in channeling the leadership potential of its undergraduate members into constructive activities.

Just about every fraternity on the American campus can name outstanding examples of how it has been using this leadership. In our own, there is the Chi Phi Educational Trust, designed to promote scholarship on the campus, and to assist deserving students. There is all the work done by local chapters toward helping exchange students—giving Christmas parties for underprivileged youngsters—and similar examples.

But, it is also true that the women's sororities may well have a better record in this direction. I am thinking of such things as their work with the blind and mentally-retarded children—endowing hospital beds—maintaining summer camps for the underprivileged—establishing and maintaining libraries—giving both financial and physical support to all types of medical, social and cultural activities.

Helping college and other communities to solve local problems—providing manpower, if not financial assistance, to give civic projects a boost—offers a very good way to regain public confidence. I know you are not overlooking it.

There is something more to be gained, however. With imagination, with a little concentrated thought, I am certain that every local chapter of every college fraternity could come up with a dozen good ideas on how to provide leadership to raise scholarship levels, and give both campus and classroom experience new meaning for every current and future student.

This is what America is looking for. It is what the public and college administrators expect fraternities to be doing. There is not a greater challenge you could accept. You could not find a better way to give new purpose and direction to the fraternity's role in American education.

Now, I have been talking almost exclusively about the fraternity. What of the other side of the coin—the attitude of the college? If I may speak merely as an observer, I often wonder whether every college administration has provided its fraternities with all of the leadership and sympathetic direction that could have been given.

I know a sincere effort to do so has been evident here at Lehigh. But what about colleges in general? It is an easy matter to make speeches against the fraternity system, and say that the only solution is to destroy that system.

But, it seems to me that when an aspect of education has survived through more than a century—and done so against great odds, I might add—it must be considered to have some value, even by its detractors. In industry, when there is a need for a change in production methods, it is only under the most adverse conditions that we abandon a whole plant, and start again some place else. Instead, we keep what is of value, and integrate the new with the old.

You don't cure an illness by shooting the patient. And, we don't seek to abolish free enterprise just because an occasional company may get into legal hot water. If there are recognizable faults in the fraternity system, then the wise course would appear to be correcting those faults—but not abolishing the system.

I am sure that this is the course that will be followed. College administrators have done an outstanding job of providing America with the well-educated and well-adjusted young people who must constantly be joining business and the professions.

Given cooperation from fraternity leadership, and from responsible alumni groups, there is every reason to believe that the dual college-fraternity responsibility to the student and the nation will be carried out.

Beyond this, of course, is the undeniable fact that it must be carried out. It is strange, but true, that the Space Age that has created a difficult situation for the social fraternity, has also multiplied its value to both the student, and the college, and the nation.

There is an advertisement running currently in a number of the popular magazines. Perhaps you have seen it. The illustration—a drawing by Norman Rockwell, as I recall—shows three men gathered around a table. The headline reads: “What would America do without men like these?” The copy in the ad points out that they are America's merchants, professional people, and businessmen who “together can do anything—except say ‘No.’” They serve on committees. They raise funds for hospitals, churches, United Funds.

The America we know was, figuratively speaking, hand-made by men such as these. And while the ad does not say so, you and I know that such men today are most often college trained—and fraternity experienced.

They got their knowledge out of textbooks—under the guidance of good professors. They acquired their basic experience in leadership and organization, most likely, in a college fraternity.

The truth is that America would cease to be the nation that it is without these men, who can do anything—except say “no.” And it follows that these individuals could not do without the colleges and universities and fraternities that helped to make them what they are.

Let me put it another way. As a member of business, I can tell you that the period ahead is shaping up as one of the most challenging our nation has ever faced. My own industry, steel, is going through what is actually a technological revolution. I won't elaborate on the technical details of such modern steelmaking wizardry as multiple vacuum casting, oxygen steelmaking, continuous casting, and consumable electrode melting. The names alone should give you an idea of what I mean.

And this is only the beginning. There is still much to be done in developing new steels, of fantastic strengths and properties—and the tools and equipment to make them and use them.

This challenge to steel comes from a similar technological upheaval in almost every other section of American industry. That challenge, in turn, stems not alone from the rapid advance of science and engineering, but also from such economic developments as the European Common Market—and the whole broad surge of human progress.

Be Sure You're Right

(Continued from page 3)

To meet these challenges, we are going to need the most capable employees we can get in industry. They will have to be men who can quickly and successfully translate theory into actual practice. Even more important, there will have to be strong leadership—good management.

It is going to take teamwork. I am not talking about the much-discussed "organization men." I mean real, genuine teamwork—where there is independent thought, but cooperative effort.

Research, if I may mention one example, has graduated far beyond the single metallurgist, or other scientist working by himself in some remote laboratory. Our research efforts today are team efforts—well-directed and with plenty of opportunity for creative talent to express itself. The same applies, of course, to production and all other phases of business.

So, the essential requirements for both employees and managers include a sound education and a record of scholarship, naturally. But, they also consist of an ability to work with other people—and that special talent which enables a man to take a job, organize it, and then get it done in the shortest possible time.

When you visualize college graduates with all of these traits, I think it becomes obvious that the university and the fraternity both have a part to play.

Let me emphasize that I am not saying that only fraternity men are potential leaders, or that only in a fraternity can a student acquire these non-scholastic lessons. On every campus, there are a host of student activities which can be used for this purpose. Many students find them more than adequate for their needs.

But, no one has yet devised a better system than the fraternity, and the sorority, for reaching large segments of the student population, and helping each of these young people:

- to gain a sense of responsibility;
- to pattern his conduct to the desires and standards of those around him;
- to discover the rules of competing fairly for positions of leadership and respect;
- to learn that any group, whether it is a fraternity, a company, or a community, is simply the total reflection of the attitudes and actions of its individual members.

If educators are sincere, as I know they are, in their desire to create suc-

cessful citizens and responsible individuals, as well as competent scholars, then they will not overlook or dismiss the advantages of fraternity living.

If you men of Chi Phi are sincere, as I also know you are, in your desire to further the fraternity system and its value, then you must not overlook any opportunity to broaden your service to the student and the university.

Early in the last century, when fraternities were rare and opportunities for a college education scarce, there was a young fellow making quite a name for himself as a leader in the pioneer and Indian scout profession.

They called him Davy Crockett, and he was one of the best in his field. Davy had a motto—which, incidentally, became the motto for the War of 1812. It went like this: "Be sure you're right; then, go ahead."

The Space Age in which you young people will live out your lives is a brand new "territory." There is a lot of scout-

ing to be done—a lot of leadership to be exercised—to determine the best ways to survive and succeed in this new Age. There are reputations to be made by those who do the job well.

For you brothers of Chi Phi, and your contemporaries in other fraternities, I recommend this old motto of Davy Crockett's. Whether you are working on the problems of the college fraternity, or those you may encounter in your personal lives, "Be sure you're right; then, go ahead." And I would add: "Keep going."

I am sure you will find the answers to the problems facing you. I have no doubt, either, that high among those giving leadership to a resurgence of fraternity strength and new purpose in the years ahead will be your names—and those of other members of Chi Phi.

Thank you very much, and the best of luck to all of you.

WILLIAM A. PARKER, RECEIVES AWARD

William A. Parker, Ome '19 (right) President of Beck & Gregg Company, Atlanta, receiving the 1963 award of Merit of the Hardware Merchants' & Manufacturers' Association in Philadelphia on January 24, 1963, from Wm. George Steltz, Jr., (left) President of Supplee-Biddle-Steltz Company, Philadelphia, Pennsylvania and Chairman of the Jury of Award.

Beck & Gregg is one of the southeast's largest hardware wholesalers and became so under the presidency of Brother Parker. In addition to his industry achievements, Bill has made many contributions to the welfare and growth of Atlanta and the southeast. Another member of the family, Bill's son, William A. Parker, Jr., Gamma '50, is Vice President of Beck & Gregg.

E. L. Barringer K'25, Managing Editor of Hardware Age, sent the photograph of the presentation to the Chakett with the following notation:

"It is good to know that the hardware industry is rather well represented in the fraternity in addition to Brother Slaymaker (Omi '19), the two Parkers, William C. Dearstyne (Th '07), of Albany Hardware and Iron Co., Albany, New York is also a member of the fraternity. And in addition to myself (K'25), here at Hardware Age our Market Promotion

WILLIAM A. PARKER, Atlanta Hardware Wholesaler Receiving 1963 Award of Merit

Manager, N. M. Cartmell (Omi '48), was a member of the former Yale chapter. That adds up to six Chi Phi's in the hardware business that I know of and of course that could be one of the reasons that hardware is such a fine industry."

Are you A Card-Carrying Alumnus?

The CHI PHI Fraternity Alumni Recognition Card — 1963

has contributed to the Chi Phi alumni sustaining fund.

WM. W. JEKELL
Grand Delta

Dear Brothers:

Neither the Editor nor I feel that repeated reminders and requests for alumni dues should be carried in the Chakett. To this end it can be said that for the last two years no such suggestion or request has been emphasized.

With the increase in the postal rates I am abandoning my position and using the Chakett to remind those Brothers who have not sent their 1963 dues of their *privilege*. I emphasize because I have long felt it a privilege to be a Chi Phi and to annually contribute to the support of the Fraternity's program.

There are many reasons why you should support your Fraternity. Alumni dues make the Chakett possible. The expansion program, which saw the addition of chapters at the University of Oregon and Rhode Island last year and the establishment of a Colony at the University of Nebraska this year. The new Zone Meeting program in which the chapter leaders are given inspiration and counsel. There are many more, as you well know from your own experience and from reading the Chakett.

The success of the year's budget depends upon adequate revenues from alumni dues. The cost of operation continues to rise and the Council is constantly providing more service to the chapters. On the other hand, alumni dues remain at \$5.00, the amount established by the Council in 1948.

Upon receipt of your dues, you will receive your alumni recognition card and also a brief resume of last year's activities. I ask for your continued support and hope that you will continue to send the Council your suggestions for the betterment of the Fraternity. If you mislaid the form sent by the Council, attach your check to the form below and mail.

Fraternally yours,

JOHN E. OLIVER,
Grand Alpha

Annual Voluntary alumni dues were set at \$5.00 by the Council in 1948. Many alumni prefer to give more.

The Chi Phi Forum

Art by Joe McKibben

Should Chi Phi Have a National Headquarters Building?

A NUMBER of national fraternities have memorial headquarters buildings which house the general office of the fraternity and generally devote a considerable amount of space to the library and archives of the fraternity. The archives contain historical items of interest relating to both the national evolution of the fraternity, as well as to individual chapters. Among those fraternities owning their own headquarters are Beta Theta Pi, Sigma Alpha Epsilon, Phi Kappa Tau, Sigma Chi, Phi Delta Theta, Sigma Nu, Lambda Chi Alpha, Chi Psi, Phi Gamma Delta and Delta Tau Delta. Fraternities that recently announced plans to build or buy memorial headquarters are Sigma Pi, Theta Xi, and Kappa Alpha Order.

It is interesting to note that all of the above fraternities are substantially larger than Chi Phi, with the exception of Sigma Pi and Chi Psi. Sigma Nu's headquarters are located at Lexington, Ky., adjacent to Virginia Military Institute, where it was founded. Kappa Alpha Order has bought property at Lexington,

Virginia, where it plans to relocate within the next several years. Kappa Alpha was founded at Washington & Lee College, Lexington. The three members of the Miami Triad, Phi Delta Theta, Beta Theta Pi and Phi Kappa Tau are all located at Miami University, Oxford, Ohio, the site of their founding chapter. Sigma Alpha Epsilon and Sigma Chi are located at Evanston, Illinois, which location bears no significance, as far as their founding is concerned. Phi Gamma Delta is headquartered in a beautifully maintained, old, four story converted brownstone home in Washington, D. C.

Theta Xi plans to build a modern but functional home for its office in St. Louis. Sigma Pi was recently donated a fine old residence in Vincennes, Indiana, which it plans to convert to a Memorial Headquarters. The S.A.E. headquarters, in Evanston, houses an outstanding fraternity library and is also the site of the LeFevre Memorial Chapel.

The Chi Phi archives contain many historically significant papers, letters,

bound publications and assorted records that cannot be displayed in its present location. Many jeweled badges and other insignia lie unseen in the safe. No other fraternity can boast of a richer history and tradition. Should this fact be put on display for our members to see and enjoy?

Among the interesting questions that come to mind in conjunction with a headquarters are: 1—Where should it be located? 2—Should the location have historical significance? 3—What would it cost? 4—How would it be financed? and 5—What sort of a structure should it be?

This is a subject that has been discussed informally among Chi Phis for many years. No study has ever been made of the situation and no Council has ever tackled the problem seriously. Should a commission be established to study the matter? Your thoughts and comments would be appreciated. The mail may run to volumes but we will attempt to reproduce excerpts, at least, from the letters, in the April CHAKETT.

Should the Council Offer an Undergraduate Placement Service?

SHOULD THE Council offer a placement service? A service whereby those alumni having job opportunities could list the openings and graduating seniors and graduate students could list their qualifications.

Many alumni might feel this an area in which the fraternal tie has no place. Some might reason that the Council has no right to use fraternity funds for such an activity. The fact that most colleges and universities provide excellent placement service and most major employers send recruiters to the college campus may be argument enough for forgetting the whole thing.

Several fraternities have active placement bureaus. Alpha Tau Omega offers such a service and reports it is very well received by alumni employers and student members. ATO publishes a coded directory of students interested in positions. The directory lists the academic qualifications, work experience and per-

sonal factors of each candidate. The book is made available to interested employers about March 1st each year.

One Chi Phi personnel manager made this comment recently:

"I'm glad to provide information regarding our products and my thoughts on placement activities by the Fraternity . . . I really hadn't thought of anything as extensive as a placement bureau, since such an activity might necessarily become burdensome and expensive to the fraternity. I had contemplated some means of reaching students to alert them to opportunities which exist.

Perhaps a Chakett issue preceding graduation could contain a supplement or directory of brothers who can aid in placement. Another possibility would be to list seniors and their job interests. In either case, the only expense the fraternity would bear would be the increased printing which could be subsidized by those using the supplement.

My motives in such a venture would be dual. Selfishly, I would like to have contact with graduates of Chi Phi to aid our search for good employees. My experience as a member and Alpha at Kappa convinced me that the graduates are well adjusted with a social and educational balance which is difficult to find.

Secondly, I feel we have an opportunity to offer. Our relatively small size allows an engineer to gain an identity of his own which is difficult to obtain in large organizations. Our salaries and benefits compare favorably with other industries, and we have exceptional security and stability of employment to offer.

I hope my comments will be of interest to you." Fraternally yours, R. W. Lobel, K' 52, KYKLE PRODUCTS PLANT, LINE MATERIAL INDUSTRIES, McGRAW-EDISON COMPANY, Milwaukee, Wisc.

Should Chi Phi undertake such a program?

Should the Council Publish a Membership Directory?

EVERY MONTH the Council office receives a letter or two asking when the Council plans to publish a membership roster. In recent years the Council has considered the subject but has shown little enthusiasm for the project.

The last directory was published by the Council in 1941 and contained the names of 15,678 living and deceased members. It was divided into three sections: Geographic, Chapter and Alphabetical. It sold for \$2.00 a copy and approximately one thousand copies were sold.

Preliminary investigation of the cost of producing a similar directory sometime during the next year indicates that it would have to sell in the neighborhood of five dollars a copy. To cover all costs, the Council would have to sell a minimum of two thousand copies.

At the present time, the alumni mailing list contains approximately 19,932 names of which 300 are lost. During the last year we had slightly over 2,000 address changes, which would indicate that a directory would have an approximate error of about 10% on the day it is published. By the end of two years the error would approximate twenty to twenty-five percent. Our own analysis of member

movement would indicate, however, that most of the changes come among the recent graduates, particularly during the first ten years out of school.

Phi Gamma Delta recently published a directory after a lapse of many years. Sigma Chi has one about to come off the printing press. Both directories are selling for six dollars or more. Phi Gamma

and Sigma Chi had sufficient paid orders in advance of printing to insure that the project would be nearly self-liquidating.

The Editor would appreciate an expression of opinion on the merits of publishing a directory and, if space permits, some of the letters will be reproduced in the April CHAKETT, in sort of an open forum.

New Grand Zeta

Joe Rice Dockery

XI '28

THE NEWEST member of the Council is a farmer, a wine taster, an ex-King, a naval officer, pilot and yachtman. Joe Rice Dockery, Xi '28, is the owner and operator of Dockery Farms, Cleveland, Miss. The 8,500 acre Delta land farms, located in Mississippi and Arkansas produces among other things, rice, cotton and livestock. Joe directs the entire operation but finds time to pursue his many talents and activities.

Recently, Joe had an unusual honor bestowed upon him when he was elevated to grand officer in the Confreirie des Chevaliers due Tastevin. The highest level one can reach in the very exclusive international wine tasting group. He and his wife, Keith, were in fine company at the two elaborate parties given at the magnificent chateau which the international order of the Chevaliers owns in the Burgundy area of France, near Nuits St. Georges.

"Promoted" with Joe Rice, and seated with Keith and him, were the famous playwright-actor Peter Ustinov and the noted French playwright Marcel Achard, a member of the Royal French Academy.

"I've NEVER seen anything like it." Brother Dockery commented. "There were about 500 people for the most elaborate dinners you can imagine, with

six or eight different kinds of wine and perfect service."

Those who were promoted to grand officer were "knighted" . . . with wine stocks, rather than the customary swords . . . in a very impressive ceremony. The wives were given honorary titles of chevalier.

In 1961 Joe was King of the Cotton Carnival. The Cotton Carnival is an annual celebration in Memphis and the King reigns for one year. The King's background in cotton is certainly all that can be desired. As the operator of large cotton acreage his position in the cotton capital of Memphis is prominent. Joe is a member of both the New York and New Orleans Cotton Exchange. In addition he is President of the Mississippi Rice Growers Association and is a director of the American Rice Growers Association.

Joe admits that his first and greatest love is really yachting. He recently purchased a 42 foot twin diesel boat, named the "Viajero" and plans to use it both in Florida and Gulf waters. Several years ago he owned a larger boat but found that it involved too much time and care.

Mrs. Dockery is the former Louise Keith Somerville, granddaughter of former governor and U. S. Senator James B. Frazier. The Dockerys have three

daughters, Keith Douglas, a graduate of Sweet Briar, Kay a student at the University of Oklahoma and Mary Keith, a college freshman.

Joe attended both Mississippi State College and Cornell University, where he majored in Agriculture. He was initiated into Chi Phi at Cornell and has long been interested in the affairs of the Fraternity. He first attended Congress in 1956 at Old Point Comfort and has since attended Congress every year as a delegate for the Memphis Chi Phi Club. In 1959 he was appointed a Council Representative at Large and served as Alpha of the 1960 Congress in Atlanta. In November, Grand Alpha Oliver appointed him Grand Zeta to fill the vacancy created by the election of Brother C. Moreland Thomas to the office of Grand Alpha-elect. Brother Dockery follows in the footsteps of a long line of Cornell men who have actively served Chi Phi as national officers. Just prior to Congress, he was on a fishing trip with Cornell's beloved Fritz Krebs, Xi '12, and former Grand Gamma. At Congress I noticed him over in a corner with Al Hutchinson, Xi '09, former Grand Alpha, and a long time hunting and fishing companion of Fritz's, regaling him with the size of the catch and near catch.

William B. Saxbe, Iota '38 Named Attorney General of State of Ohio

By WM. W. JECKELL, Iota '34

IOTA has chosen William B. Saxbe, Attorney General of the State of Ohio, as the chapter's outstanding alumni member. In January, each Fraternity on the Ohio State campus honored one of their alumni with this designation. Bill Saxbe, 1940 OSU graduate, has had a varied and exciting career during his 46 plus years. In the November elections he was overwhelmingly reelected Attorney General, a position he previously held during 1957-1958. Bill was the main luncheon speaker at the September Congress in

Cincinnati and his inspiring talk to the assembled delegates and alumni was noteworthy.

Since early days of boyhood, Bill Saxbe has been doing things . . . tackling jobs that were hard and difficult, yet always turning in a top-notch performance. People all over Ohio have come to know Saxbe's ability, courage and resourcefulness. Many, many years ago I attended a picnic gathering of brothers and their wives and there was a general agreement at that time that Bill would someday be Governor of our fair state . . . And he will make a good one.

In politics, his courage and integrity have earned him the respect and admiration—from both sides of the political aisle—which go with demonstrated ability and acknowledged leadership. When I was in Columbus recently a staunch Democrat friend said to me, "I want you to know I voted for your friend Bill Saxbe." Bill is a hard-working Republican in case the story to date doesn't make that item clear.

Iota's top alumni was born in Mechanicsburg, Ohio in June 1916. He helped his father in the cattle business and as a 4-H Clubber he exhibited a prize steer at Buffalo and took fifth out of 250 entered. Saxbe is a crack shot and avid fisherman. Bill worked his way through Ohio State and as mentioned in my introductory remarks on Bill, at the Congress luncheon, he drove trucks, was a mule-skinner on a public works project, a runner for a New York brokerage firm, an ordinary seaman on three South American cruises, a garage mechanic, a lecturer for the State Conservation Department, and for a time operated his own timber business.

In 1940 Bill married Ardath Kleinhans of Toledo, known as Dolly to her friends—the marriage, a climax of a not-

too-smooth college romance. Bill, while campaign manager of a big campus political party, engineered the defeat of his wife-to-be as homecoming queen candidate of the opposition. Only two weeks after the wedding Saxbe received his call to active duty with the Ohio National Guard as a second lieutenant where he remained the next five years. He came out a major but in 1951 was recalled during the Korean crisis from which he emerged a lieutenant colonel. He is active today as a full colonel. Saxbe has served with the 107th Cavalry, 121st Fighter Group, 147th Infantry; 148th Infantry and 37th Division of the ONG.

The famous Iota member was elected to the Ohio House of Representatives prior to his obtaining his law degree at Ohio State in 1948, serving four terms from 1947 through 1954. In his third term, he was chosen majority floor leader and then was elected house speaker during the fourth term. He was one of the youngest speakers in the history of the state body. While house speaker, Saxbe suffered one of his few defeats when he failed to win the nomination to the U.S. Senate while not a supported candidate of the Republicans.

The Saxbe family boast three fine children, Bart, 21; Juli, 18; and Rocky, 16. Bart is now at Amherst but regretfully did not go Chi Phi. The Saxbe's live at the edge of the little town of Mechanicsburg in an old farmhouse, the original part built in 1820. It's named "Jubarock" after the first letters of the names of the Saxbe children. Bill, while at Ohio State, was a leader on the campus and Alpha of Iota. Bill would be very happy to have any Chi Phis traveling through Columbus visit him in his state offices. He has always been very proud of his fraternity affiliations and continues to give moral support to Iota regularly.

WILLIAM B. SAXBE, IOTA '38
Attorney General of Ohio

Col. Graham Named Adviser

Last year it became necessary for the University of Florida chapter, Theta Delta, to secure the services of a new adviser. At the time no Chi Phi appeared able to accept the responsibility. The Assistant Dean in charge of Fraternity Affairs, Bill Cross, suggested the name of Colonel Thomas A. Graham, Jr., to the chapter. Colonel Graham and the chapter hit it off rather well almost immediately and he was asked to serve as adviser.

Under Colonel Graham's guidance the chapter has had a very fine period of recovery. For a year or two Theta Delta had encountered a number of problems not the least of which was an insufficient number of men to properly conduct a chapter program. Other problems, of course, resulted principally in the financial area. This pattern has been reversed and the chapter took a fine pledge class this year. The Colonel has helped the chapter in many ways. A new spirit is evidence and the prospects for the future excellent.

Under the Constitution of the Fraternity if no Chi Phi is available a chapter can request permission to initiate their adviser into the Fraternity, if he is not a member of another fraternity. Recently the chapter made this request and permission has been given. Colonel Graham will be initiated in March.

Colonel Graham is the Professor of Military Science at the University of Florida and is a native of that state. Col. Graham's military career began when he was commissioned as a second lieutenant of Artillery upon graduation from the University of Florida in 1937. He entered active duty under the Thomason Act in 1938 and has been in the service since that date.

Col. Graham served with the 4th Infantry division in Europe during World War II. His postwar duties include a tour with Field Forces Board No. 1, Fort Bragg, N. C., followed by service with Headquarters U. S. Army Caribbean in Panama, and C.O. of the 4th FA Bn (Pack), Fort Carson, Colorado.

Following graduation from the Naval War College, Newport, R.I., in 1955, he served on the staff of the seaborne headquarters of the Commander Seventh Fleet in the Far East. Col. Graham was subsequently assigned to the Pentagon with the Office of the Deputy Chief of Staff for Military Operations. He departed Washington, D. C., to assume his present post.

Col. and Mrs. Graham have four children, the oldest of whom is a senior at the University of Florida.

Mid-Atlantic Zone Meeting Held at Psi and Rho Chapters

The meeting of the Mid-Atlantic Zone was held on December 8-9, 1962, at Psi and Rho Chapters. This was the first of its kind for the Chi Phi Fraternity. Alpha Delta, Delta, Mu, Psi, Rho, Xi and Zeta, were the participating chapters. The Alpha, Pledge Trainer, outstanding sophomore and chapter adviser, of the respective chapters, were the principal delegates.

The general schedule of events called for a meeting of the Alphas and advisers at 10 o'clock on the 8th at Psi Chapter, while at the same time, the pledge masters met to discuss pledge programming and training. During the afternoon the

Alphas met to discuss chapter organization and operation. Dean J. D. Leith, of Lehigh University, conducted a meeting on scholarship for all of the delegates during the course of the afternoon. His main point of discussion was to show the relationship between chapter organization plus academic motivation, and actual academic performance, over a span of years. A dinner on Saturday evening at Lehigh University Center was highlighted with an address by Brother Edwin H. Gott, Psi '29, and read by Brother John Conneen, Psi '30, in his absence. This address is reproduced in its entirety elsewhere in this issue.

The delegates met at Rho Chapter on Sunday morning to discuss chapter finances, rushing, and other miscellaneous problems. At the close of the meeting an excellent buffet luncheon was served by Rho Chapter.

It was the conclusion of the chapters in attendance that the Zone Meeting was successful. The delegates favored more and similar meetings and offered several recommendations to improve the content and program of future meetings.

Three Interesting Job Opportunities for Graduates

WE ARE happy to publish the following information in hope that it may prove to be of benefit to some of our Brothers:

The Line Material Industries has openings for graduate engineers preferably at the bachelor degree level. New engineers usually train in our test labs and then go into design or development work. We also have occasional openings in our Marketing field force for graduate electrical engineers. We feel the technical nature of our products demands technically trained sales people.

Line Material Industries employs about 3,000 and is a division of McGraw-Edison Company. Our products are principally for the electrical utilities and are engineered at three locations: Zanesville, Ohio—Distribution Transformers and Voltage Regulators. Kyle Products Plant, South Milwaukee—Oil-filled Switchgear (such as reclosers and sectionalizers) and electronic controls. Central Plant, South Milwaukee—Street Lighting, Airport Lighting, Capacitors, Fuse Cutouts, Lightning Arrestors, Pole Line Hardware, Fuse Links. In addition, our Franksville, Wisconsin high voltage and short circuit test facilities are among the most modern in the country.

Personal interviews can best be obtained by writing to: R. W. Loebel, Personnel Manager, Kyle Products Plant, 2700 Ninth Avenue, South Milwaukee, Wisconsin.

THE STEWART HOWE ALUMNI SERVICE is seeking candidates for training to become managers of new offices it is establishing at major universities and colleges throughout the United States.

The firm is widely identified for authoritative experience in college alumni relations and for its pioneering counsel and assistance to fraternity and sorority chapters and other organizations in the development of alumni participation, communications and support.

Established in 1930, it has local offices, presently in eastern and mid-west states and on the West Coast, whose services are engaged . . . on a continuous contractual basis . . . by most of the leading Greek-letter groups at 25 nearby universities and colleges. Due to the demand for its services at additional institutions,

and the necessity of providing such from nearby locations, the firm contemplates opening as many as 50 additional offices as rapidly as personnel may be prepared for their management.

Headquarters are located at 1585 Ridge Avenue, Evanston, Illinois. Applications should be directed to Stewart S. Howe at that address.

Attractive features of the many present openings include: A.) An early opportunity to qualify for a responsible position and attractive earnings; B.) Valuable training and diversified experience in all phases of public relations, fund raising and alumni work . . . C.) An attractive location in a college community; D.) A position that enables wide local acquaintances and leadership, and permits self-responsible status in the community; E.) Security for a lifetime career for managers who favorably identify themselves with the continuously-successful operations in behalf of permanent clients.

Candidates, ordinarily, must be male college graduates who have leadership experience in campus affairs and as members of a college fraternity. Preferably, they will be between the ages of 25 and 35, will be draft exempt or have completed military service requirements, and have had previous employment to have gained maturity and experience in business operations. They must have qualifications for public relations work, must be able to use the typewriter with reasonable speed, and must be facile in correspondence and journalistic composition.

INDIANA UNIVERSITY, BLOOMINGTON, INDIANA offers Graduate Internships in Student Personnel and Resident Assistantships.

Graduate Internships in student personnel administration and Resident Assistantships for graduate students in other academic areas are available at Indiana University. Graduate students holding these positions become a member of the Dean of Students staff, work as a member of a Residence Hall Center staff, and serve as an adviser to a living unit of sixty students. Of nine residence centers, one is a co-educational center for graduate students, the other eight house undergraduates.

Majors in student personnel working for a master's degree have the opportunity during the second year of their internship to serve as Assistant Head Counselors and to secure additional practical experience in specialized personnel areas, i.e., activities, testing, and counseling. Provisions can be made for a program of one year and two summers, but one should plan on two years. Positions carrying additional responsibilities are available to doctoral candidates with previous experience.

Positions provide room, board, and remission of basic tuition fees. Cash stipends are based upon responsibilities assumed. Total remuneration for master's degree candidates varies from \$1,200 to \$2,000, and for doctoral candidates from \$2,000 to \$6,000.

Applications should be filed as early as possible, and appointments will be made between April 1 and June 1. For further information and applications, write: Dr. Elizabeth A. Greenleaf, Director, Resident Halls Counseling and Activities, Maxwell Hall, Room 254.

Coming Events

NEW YORK CHI PHI CLUB

THE CHI PHI CLUB OF NEW YORK will hold its annual mixed Cocktail Party and Dinner at the Princeton University Club, 15 West 43rd St., NYC, on Wednesday, April 3, 1963. There will be a free bar from 6:30 to 7:30 P.M. and Sirloin of Beef Dinner at 7:30 P.M. \$20 per couple, \$10 for single reservations, including all gratuities. All Chi Phis welcome!

H. Y. Bassett Z'24
President, Calumet & Hecla, Inc.

A COMPANY WELL KNOWN to visitors to the Copper country of Michigan is Calumet & Hecla, Inc. This company has its roots in the copper mining area of the Upper Peninsula of Michigan and has produced copper in that district continuously since 1859, producing in all a total of more than 5 billion pounds. The president of Calumet & Hecla, Inc., H. Y. Bassett, Z'24, is a Pennsylvanian by birth and a graduate of Franklin & Marshall, where he was initiated by Zeta on September 13, 1920. Upon graduation he decided to study engineering at Lehigh, from which he graduated with an Engineer of Mines Degree.

The day he graduated from Lehigh he was married and then accepted a job as assistant assayer for American Smelting & Refining Company in San Luis, Polosi, Mexico. Following a spell in Texas as a surveyor for the Texas State Highway Commission he accepted a job in the metals field as a research metallurgist for Chase Brass & Copper. With only one interruption, he has remained in the field since. His ten years with Calumet & Hecla started in 1939 with the Wolverine Tube Company, which was later acquired by Calumet & Hecla. In an orderly succession, he became Vice President and then a director.

When the corporate office of the company was established in Chicago in 1953 he became Vice President of Operations for all divisions of the company. From that position he became Executive Vice President and then in 1957 President and Chief Executive Officer.

Brother Bassett says that "A mine starts going out of business the minute

H. Y. Bassett Z'24

Chi Phi Directs Calumet & Hecla

Copper mining—Calumet Division of Calumet & Hecla, Inc.

it starts producing. Ore deposits are not replaceable and even the best are mined out eventually. This has happened to many of the Calumet & Hecla mines and over the years it has become more difficult to find new deposits to replace those that become exhausted. However, the mining activity of the company continues, furnishing employment to about 1,400 people in an area where other employment is lacking. Of late years the mining division itself has diversified, much as the company has done. In addition to copper, the company's Calumet Division produces sizable quantities of copper chemicals for industry and agriculture. It also operates two foundries making products for its own use and for sale to others."

Calumet & Hecla, as a company, started to diversify in 1942 when it purchased the assets of Wolverine Tube Company located in Detroit, Michigan. This activity now known as the Wolverine Tube Division, operates three plants: a mill at Inkster, Michigan to make tubing from special metals and copper and copper alloy tube mills at Detroit, Michigan and Decatur, Alabama, producing large quantities of standard water tube, small sized light wall tube for industrial use and tubing expressly for heat transfer purposes.

Calumet & Hecla's domestic business in copper and copper alloy tubing and related products is complemented by two wholly owned Canadian subsidiaries, Calumet & Hecla of Canada Limited and Inifin Limited of London, Ontario which produce tubing, both plain and finned, and heat exchanger units for the Canadian market.

As a by-product of its mining activity, Calumet & Hecla, had acquired over the

COLUMBUS ALUMNI AND IOTA UNDERGRADUATES COMBINE FUNCTIONS

THE ALUMNI AND IOTA undergraduates are combining their Alumni Dinner Dance with the chapter's Spring Formal and the tentative date is set for Saturday, May 18th at the Columbus Athletic Club. This will be held in conjunction with the Wives and Mothers Club and awards will be presented to graduating seniors and outstanding pledges. 25-year membership pins will be awarded to eligible alumni. More information regarding this event can be obtained from:

Frank A. Fiori, Alpha, AX 9-0506

years large tracts of lands in Northern Michigan. Although these lands were purchased for their mineral possibilities, most of them contained stands of timber. In order to utilize these assets, in 1955 the company acquired the Goodman Lumber Company, now the Goodman Lumber Division. It operates two sawmills and a veneer plant, obtaining its saw logs from the 300,000 acres of timber lands owned by the company.

Calumet & Hecla's experience in mining led it into uranium mining. Its geologists discovered a good uranium ore body near Grants, New Mexico and its Uranium Division now produces about 400 tons of ore per day, equivalent to about 500,000 pounds of uranium oxide per year.

The company is the majority owner of Alabama Metallurgical Corporation of Selma, Alabama, which produces

magnesium metal by the Pidgeon process.

While Calumet & Hecla might have started going out of business the day it started mining ore, under Brother Bassett's direction it continues to acquire new corporate divisions and expand its overall metal operation business. The company's latest acquisition is the Flexinics Corporation, now operated as the Flexonics Division, which manufactures flexible metal tubing of various types and for many applications. It produces for aeronautical and space applications flexible ducting in refractory metals for high-speed planes and for space projectiles. For example, it has supplied the fuel and liquid oxygen ducting for the Saturn missiles. The Canadian counterpart of the Flexonics Division is Flexonics Corporation of Canada Limited, a wholly owned subsidiary located at Brampton, Ontario.

Editorial

A 'LIVING FRATERNITY'

The following excerpt from an editorial in the Phi News Letter by Frank H. Poole, Alpha, should give all of the undergraduate brothers something to think about:

Phi Is a "Living Fraternity"

In a conversation with Dean John Esty of Amherst last spring, he unequivocally commented to me that it was the general opinion of the administration and faculty that Chi Phi had taken the strongest group of pledges of any fraternity. With this comment, the brotherhood heartily concurred. And it is this type of comment that is becoming general opinion on the Amherst campus: Chi Phi is strong; Chi Phi is to be looked to for leadership.

Naturally, this attitude is not just a chance occurrence. It is due to an attitude from within the house, reflected in the pride and spirit of Phi's toward their brotherhood. And it has its roots in the feeling that fraternity is an experience which is lived. To belong to a house and be a member is simply not enough; this kind of half-hearted acceptance of a man towards his fraternity usually means disinterest and eventually stagnancy. At Phi we are "living fraternity," allowing the interplay of minds and vigor

of social life to run together and beyond the immediate towards a concern for Chi Phi's as men. We are constantly being challenged—by ourselves, by a diversity of opinions toward a diversity of issues, in the contact we are having with each other—and we are finding that to "live fraternity" is to live real situations. It is our hope that we are going to be able to continue contributing through our fraternity, in conjunction with the whole of Amherst College, towards the Amherst whole man.

One of the challenges which is facing Phi comes from the college body itself. The question is being asked, "Why Fraternity?" or "What does a fraternity have that a social dormitory does not have?" This is not a new question for us, because we have arrived at a position of strength through looking inside, at ourselves, and asking over and over again, "What should a fraternity be?" But the context is new, because now the whole college is asking a very similar question, with a wide diversity of answers being offered. We feel that we are ready with some answers which are more than adequate, and through a committee of Phi's assigned by the house to re-define and re-examine the situation as it develops, we are attempting to develop along with the way the question is asked.

Chapters

(A)-ALPHA (1859)—University of Virginia, 161 Rugby Rd., University, Va.
 Chapter Adviser—J. Campbell Clarke, Jr., A '50, 1107 Parker Pl., Charlottesville, Va.
 Council Representative—William R. Kitchin, A '49, Box 731, Rye, N. Y.
 Alpha—John P. Doherty.
 (B)-BETA (1873)—Massachusetts Institute of Technology, 32 Hereford St., Boston 15, Mass.
 Chapter Adviser—Francis B. Kittredge, B '21, 10 High St., Boston 10, Mass.
 Council Representative—Frederick B. Grant, B '39, Box 186, Wellesley Hills 81, Mass.
 Alpha—Neal J. Carron.
 (Γ)-GAMMA (1869)—Emory University, 8 Fraternity Row, Atlanta 22, Ga.
 Chapter Adviser—John R. Strother, Jr., Γ '57, 1420 Emory Rd., Atlanta, Ga., and W. Paul Westbrook, Jr., G '56, c/o The Bank of Georgia, Atlanta 3, Ga.
 Council Representative—William A. Haywood, Γ '00, 304 Healey Bldg., Atlanta 3, Ga. and

Charles E. Shepard, G '17, 739 W. Peachtree St., Atlanta, Ga.
 Alpha—R. Bruce Donnelly.
 (Δ)-DELTA (1867)—Rutgers University, 95 College Ave., New Brunswick, N. J.
 Chapter Adviser—Robert M. Frisch, A '50, 375 Gerry Rd., North Brunswick, N. J.
 Council Representative—Louis Wolfson, A '38, 257 Livingston Ave., New Brunswick, N. J.
 Alpha—Lee S. Sherman.
 (E)-EPSILON (1867)—Hampden-Sydney College, Chi Phi House, Hampden-Sydney, Va.
 Chapter Adviser—Prof. Robert T. Hubbard, E '35, Hampden-Sydney College, Hampden-Sydney, Va.
 Council Representative—John Bruce James, Jr., E '53, 5502 Toddsbury Rd., Richmond, Va.
 Alpha—Horace C. Lukens.
 (Z)-ZETA (1854)—Franklin & Marshall College, 603 Race Ave., Lancaster, Pa.
 Chapter Adviser—Foster G. Ulrich, Jr., Z '56; 107 Wellington Rd., Lancaster, Pa.
 Council Representative—Donald Mylin, Z '14, R. D. 1, Conestoga, Pa.
 Alpha—L. Bruce Althouse, Jr.
 (H)-ETA (1867)—University of Georgia, 290 S. Lumpkin St., Athens, Ga.
 Chapter Adviser—The Rev. A. Dawson Teague, Jr., G '52, Ome '52 H '52, 980 South Lumpkin St., Athens, Ga.
 Council Representative—John H. Clifton, H '53, 15 Peachtree St., Rm. 924, Atlanta 3, Ga.
 Alpha—William H. Anderson.
 (Θ)-THETA (1878)—Rensselaer Polytechnic Institute, Sage Ave. and 15th St., Troy, N. Y.
 Chapter Adviser—Henry E. Lindquist, Θ '39, 957 Spring Ave., Troy, N. Y.
 Council Representative—Frederick M. Tibbitts, Θ '29, Tri-City Produce Co., Inc., Railroad Ave. and James St., Albany 5, N. Y.
 Alpha—Fred Kieser, Jr.
 (I)-IOTA (1883)—Ohio State University, 2000 Indianola Ave., Columbus, Ohio.
 Chapter Adviser—Ray E. Jacobsen, I '57; 430 East 16th Ave., Columbus 1, Ohio.
 Council Representative—None.
 Alpha—Frank A. Fiori.
 (K)-KAPPA (1916)—University of Wisconsin, 200 Langdon St., Madison, Wis.
 Chapter Adviser—John W. Johnson, K '57, 1 North Pinckney St., Madison 1, Wis.
 Co-Chapter Adviser—George W. Crowhart, K '58, 10 S. Owen Dr., Madison 5, Wisc.
 Council Representative—Robert W. Ela, K '39, 8 Fuller Court, Madison 4, Wis.
 Alpha—John S. Clarke.
 (Λ)-LAMBDA (1875)—University of California, 2722 Durant, Berkeley, Calif.
 Chapter Adviser—Jordan G. Carlton, A '50, 6 So-telo Ave., Piedmont 11, Calif.
 Council Representative—Parker F. Wood, Jr., A '35, 320 Family Farm Dr., Woodside, Calif.
 Alpha—Kenneth G. Stenlund.
 (M)-MU (1883)—Stevens Institute of Technology, 801 Hudson St., Hoboken, N. J.
 Chapter Adviser—Charles S. Swenson, M '54, 2 Brookhaven Rd., Glen Ridge, N. J.
 Council Representative—Walter V. Knopp, M '44, 302 Sunset Blvd., Wyckoff, N. J.
 Alpha—Herbert Hall.
 (N)-NU (1892)—University of Texas, 2518 Leon St., Austin, Texas.
 Chapter Adviser—Phocion S. Park, Jr., B '41, N '42, 2501 Westover Road, Austin 3, Texas.
 Council Representative—Dr. Robert B. Morrison, N '33, 801 Capital National Bank Bldg., Austin, Texas.
 Alpha—John L. Carlson.
 (Ξ)-XI (1868)—Cornell University, 107 Edgemoor Lane, Ithaca, N. Y.
 Chapter Adviser—W. Barlow Ware, Ξ '47, c/o Day Hall, Cornell Univ., Ithaca, N. Y.
 Council Representative—A. H. Hutchinson, Ξ '09, 5701 S. Claremont Ave., Chicago 36, Ill.
 Alpha—Maurice W. Gerard.
 (Π)-PI (1952)—Northwestern University, 550 Lincoln St., Evanston, Ill.
 Chapter Adviser—Philip M. Guzzetta II '57, 3309 Thornberry Dr., Glenview, Ill.
 Council Representative—H. Frank Hartel, Σ '51, P '51, 1531 Evergreen Terrace, Glenview, Ill.
 Alpha—Robert R. D. Nickels.
 (Ρ)-RHO (1874)—Lafayette College, Vallamont, Easton, Pa.
 Chapter Adviser—Major Willie L. Pundt, 728 Brodhead St., Easton, Pa.
 Council Representative—R. T. Schaller, P '40, P. O. Box 29, Easton, Pa.
 Alpha—Peter W. Huelsenbeck.
 (Σ)-SIGMA (1912)—University of Illinois, 303 E. Chalmers St., Champaign, Ill.
 Chapter Adviser—Brian M. Berg, S '61; 409½ W. University Ave., Champaign, Ill.
 Council Representative—No'an N. Hodges, Σ '37, 625 E. Green St., Champaign, Ill.
 Alpha—John C. Webber.
 (Τ)-TAU (1920)—University of Alabama, Box 1265, University, Ala.
 Chapter Adviser—Maj. Harry E. Grafton, T '44, Air Science Instructor, Univ. of Alabama ROTC, University, Ala.
 Council Representative—Tom Russell, T '25, Alexander City, Ala.
 Alpha—Andrew J. Gentry, Jr.
 (Φ)-PHI (1873)—Amherst College, Amherst, Mass.
 Chapter Adviser—Prof. Elmo Giordanetti, Amherst College, Amherst, Mass.

Council Representative—Prof. Willard L. Thorp, Φ '20, Harkness Rd., Pelham, Mass.
 Alpha—Lewis A. Jacobson.
 (Χ)-CHI (1902)—Dartmouth College, Chi Phi House, 11 E. Wheelock St., Hanover, N. H.
 Chapter Adviser—Calvin E. Knights, X '51, Norwich, Vt.
 Council Representative—Harold S. Fuller, X '12, Main St., Hancock, N. H.
 Alpha—William W. Nolte, II.
 (Ψ)-PSI (1872)—Lehigh University, Sayre Park, Bethlehem, Pa.
 Chapter Adviser—John K. Conneen, Ψ '30, 701 E. Third St., Bethlehem, Pa.
 Council Representative—L. W. Mendenhall, Ψ '29, 1011 E. Rittenhouse St., Philadelphia, Pa.
 Alpha—Edwin H. Gott, Jr.
 (Ω)-OMEGA (1904)—Georgia Institute of Technology, 720 Fowler St., N.W., Atlanta, Ga.
 Chapter Adviser—Marshall J. Wellborn, Jr., Ome '54, 1916 Collard Dr., N.W., Atlanta 18, Ga.
 Council Representative—Charles M. Davis, Ω '55, 174 Peachtree Battle Ave., N.W., Atlanta, Ga.
 Alpha—Fred F. Rudder.
 (Α)-ALPHA-ALPHA (1924)—University of North Carolina (Re-established former Alpha Chapter, 1858-1868), 300 S. Columbia St., Chapel Hill, N. C.
 Chapter Adviser—Dr. Robert J. Senior, Z '49, Lennox Bldg., Chapel Hill, N. C.
 Council Representative—J. Maryon Saunders, A-A '25, West University Dr., Chapel Hill, N. C.
 Alpha—Donald F. Heenan.
 (Α-T)-ALPHA-TAU (1882)—University of Michigan, 1530 Washtenaw Ave., Ann Arbor, Mich.
 Chapter Adviser—None.
 Council Representative—George L. Sawyer, A-T '24; 6911 Alden Dr., Union Lake, Mich.
 Alpha—David S. Replogle.
 (Α-X)-ALPHA-CHI (1873)—Ohio Wesleyan University, 216 N. Franklin St., Delaware, Ohio.
 Chapter Adviser—Wyford D. Jones, A-X '34, 1600 Radnor Rd., Delaware, Ohio.
 Council Representative—Dr. M. S. Cherington, A-X '18, 18 W. Winter St., Delaware, Ohio.
 Alpha—Jeffrey L. Brown.
 (ΑΔ)-ALPHA DELTA (1924)—Penn State University, Box 797, State College, Pa.
 Chapter Adviser—Charles W. Stoddart, Jr., AA '31, 331 W. Fairmount Ave., State College, Pa.
 Co-Chapter Adviser—Prof. Jack H. Vincent, AA '35, Pennsylvania State Univ., Boucke Bldg., University Park, Pa.
 Council Representative—James A. Dunlap, AA '54, 504 Mt. Vernon Blvd., Hamburg, N. Y.
 Alpha—Karl K. White, III.
 (ΓΔ)-GAMMA DELTA (1928)—University of Minnesota, 315 19th Ave., S.E., Minneapolis, Minn.
 Chapter Adviser—Harold R. Gabrielson, ΓΔ '32, 5537 11th Ave., So., Minneapolis, Minn.
 Council Representative—Robert A. Lesch, ΓΔ '50, 3041 Park Ave., Minneapolis 7, Minn.
 Alpha—Richard H. Johnson.
 (ΕΔ)-EPSILON DELTA (1931)—Oregon State College, 2535 Taylor, Corvallis, Ore.
 Chapter Adviser—Emery V. Hilderbrandt, ΕΔ '50, Speech Dept., Oregon State College, Corvallis, Oregon.
 Council Representative—Felix F. Fors, E D '24; 557-A Ave., Oswego, Oregon.
 Alpha—David K. Richardson.
 (ZΔ)-ZETA DELTA (1956)—University of Connecticut, Storrs, Conn.
 Chapter Adviser—None.
 Council Representative—Anthony J. Dalessio, ZA '56, Φ '56, P. O. Box 757, Norwalk, Conn.
 Alpha—Richard Seely.
 (HΔ)-ETA DELTA (1934)—University of Southern California, 720 W. 28th St., Los Angeles 7, Calif.
 Chapter Advisers—William H. Hare, H D '60; 5243 Buffalo Ave., Sherman Oaks, Calif. and Ronald R. Anderson, HD '60, 4813 August St., Los Angeles 8, Calif.
 Council Representative—John D. McPherson, HΔ '50, 308 3rd St., Manhattan Beach, Calif.
 Alpha—Gilbert Garcetti.
 (ΘΔ)-THETA DELTA (1935)—University of Florida, 1225 S.W. Second Ave., Gainesville, Fla.
 Chapter Adviser—Col. Thomas A. Graham, Jr., Rt. 4, Box 717, Gainesville, Fla.
 Council Representative—Dr. Howard V. Weems, Jr., Γ '44, ΘΔ '48, 2100 N.E. 6th Terrace, Gainesville, Fla.
 Alpha—Richard M. Prior.
 (IΔ)-IOTA DELTA (1958)—Indiana University, 814 E. Third St., Bloomington, Ind.
 Chapter Adviser—Roy M. Mitchell, IΔ '59, Σ '59, Box 66, Newtown, Indiana.
 Council Representative—Robert E. Secor, K '35, IΔ '58, 6920 N. Park Ave., Indianapolis, Ind.
 Alpha—James L. Hanig.
 ΤAU DELTA (1962)—University of Oregon, 1057 Patterson St., Eugene, Ore.
 Chapter Adviser—Wilbur Weed, ΕΔ '21, 680 Chestnut, Eugene, Ore.
 Council Representative—Paul J. Ryan, ΕΔ '32, 28 W. 22nd St., Eugene, Ore.
 Alpha—Dennis P. McCarter.
 RHO IOTA KAPPA (1962)—University of Rhode Island, 61 Upper College Road, Kingston, R. I.
 Council Representative—Jim Shaw, PIK '23; 15 Cherry Lane, Wakefield, R. I.
 Alpha—Joseph Pallotta.
 CHI PHI COLONY—University of Nebraska, 1345 - R - Street, Lincoln, Nebraska.
 Alpha—Gilbert E. Sobie.

LET'S TALK IT OVER *(Continued from inside front cover)*

ness and concern for the other person's character and social development, it should also mean a concern for the intellectual enrichment of the rest of the fraternity membership.

Nearly all of the national college fraternities were founded, at least in part, to supplement and contribute to the intellectual development of the individual.

One fraternity, in its early years, required regular participation in chapter-room debates over current political, social and cultural topics.

Phi Gamma Delta, in its national history books, indicates that the members debated such topics as "Should a man be convicted of murder in the first degree on circumstantial evidence?" and, "Is the present war with Mexico a just war on the part of the United States?"

Another national fraternity, Chi Phi, was originally patterned after a literary society.

"At early meetings (1854-1900) members were called upon to prepare and deliver papers, essays, poetry, and reviews," noted Carl Gladfelder, Chi Phi executive secretary.

Another large national fraternity, Sigma Alpha Epsilon, according to executive secretary Rex Smith, had as one of its constitutional requirements that "each member of the fraternity chose a subject on which he had to write essays throughout his college course, for the literary meetings of the chapter."

Indicative of this return to scholastic and cultural stimulation and development is a program cited by Dean Clifford.

The residence halls at Syracuse were encouraged to bring lecturers, one-act plays, recitals, and other forms of cultural programs into the residence halls each week. This, he noted, was to supplement the original purpose of care, feeding and supervision (along with a small recreation program), making the residence halls into "residential educational centers."

He noted that this type of program soon caused the fraternities to sit back and take note. The fraternities were "forced" to add this type of program to keep pace with the competition.

"This is the type of program," noted Hallgren, "that more college fraternities should incorporate to live up to their principles."

He added that too many chapters look upon community service projects as a freshman activity held once or twice

each year with little or no concern for incorporating this phase of fraternity into a year-around program.

Chapters also invite faculty members to speak to them but often force members to listen or have as their only purpose "good public relations," said Hallgren.

Many Interfraternity Councils (IFC) across the country are taking steps to help their member fraternities to incorporate these activities into their program.

At the University of Tennessee, according to the Adviser to Fraternities, Joseph A. Cecil, the IFC took voluntary action to correct their scholastic record. Through legislation, the IFC levied a penalty on any fraternity failing to make a 2.0 or C average. For the first quarter, the chapter will lose social privileges. If there is a repeat the second quarter of failure, the chapter will lose social privileges. If there is a repeat the second quarter, they add the loss of intramurals. If the deficiency continues for a third quarter, the chapter is placed on full activities probation and is suspended from the campus if the record is not improved by the next quarter.

Initiation averages have also been raised on many campuses. In addition, IFCs have legislated requirements on pledging. At the University of Nebraska, the IFC recently voted that no man may be pledged or participate in rush the first semester unless he was graduated in the upper half of his high school class.

Many campuses, such as Syracuse, have also gone to a program of "Deferred Rush." Under this type of system, no fraternity may take a pledge class of new members until after the first semester. Most campuses have their pledging period of "rush week" just before the school year starts. Under the Syracuse program, only those students who have proved scholastically capable the first semester may be pledged.

There are still the "gimmick" approaches to raise scholarship in individual chapters and national fraternities — national trophies, bean and steak dinners, recognition certificates, reduced initiation rates, and many others — all in an effort to give more than lip service to the need for good scholarship. But the term "Scholarship," in the original sense, is much more than good grades, as noted by our knowledge of the early fraternity meetings.

Is there, then, a new trend to comply not only with aiding and encouraging bet-

ter classroom scholarship, but to give the student these extra benefits?

On many campuses, according to Alpha Tau Omega national executive secretary Stewart Daniels, it already appears that "our chapter houses are becoming more of a forum for an exchange of ideas."

"Libraries are being upgraded, grants are being made from national fraternity foundations to increase library facilities—all (with the purpose of) looking toward making the fraternity a more vital adjunct of the institution," he added.

Many chapters are starting to adopt parts of the Syracuse plan and are incorporating the idea of making the fraternity a second classroom.

"In addition to an astute awareness to the purpose for being in college—education—the fraternity should never lose track of its other obligations to the individual member," said John Nolon, former IFC president at the University of Nebraska.

What are these other obligations?

According to one national fraternity's pledge manual, the fraternity should aid in the development of good manners; teach the democratic process, instilling an understanding of the majority rule concept.

"We can teach you," stated the manual, "how to study, how to organize study; how to get maximum benefits from your professors; how to broaden your education. Do not think we can teach you how to avoid work; we can't open your head and pour it in."

A fraternity, the manual explained, is a business which is operated by the members. One chapter cited in the manual handles more than \$75,000 yearly, operates \$200,000 worth of property, buys food, supplies and furniture, has a house-mother and a staff.

In addition, the manual states, the fraternity should teach you to get along with people, how to dress cleanly, neatly, and presentably, and how to be a gracious winner and a good loser.

Many fraternity leaders, administrators, and undergraduate IFC officers indicated at the NIC meeting that the college fraternity can do these things for the individual. They also seemed to be of the general opinion that the fraternity is not a dying institution.

"If fraternities are dying, they are the healthiest corpses you ever saw," stated Joel Reynolds, a leader in the NIC.

To back up his statement, he referred to the recent NIC expansion committee

(Continued on back cover)
