# The Ron Frank Years

A Five Year Retrospective

## MESSAGE FROM THE EDUCATIONAL TRUST CHAIRMAN

On June 26, 2005, at our upcoming Congress in San Antonio, the baton of leadership will pass from Grand Alpha Ron Frank to Grand Alpha Elect Rich Lane, and a newly appointed Grand Council will begin a two-year term of office. As Chairman of the Educational Trust, this moment is indeed bittersweet.

I am always appreciative of the passion and creativity that inevitably accompanies leadership transition, but I will truly miss the close working relationship and genuine spirit of partnership that I have shared with both Grand Alpha Ron Frank and his Grand Council during the past five years.

I believe that when the Chronicles eventually document The Ron Frank Years, they will portray a very favorable and productive period for Chi Phi. Brother Frank brought the same skills, high energy, and strong work ethic to the office of Grand Alpha that characterized his earlier involvement with the Florida Alumni Association and his years as Dean of the College of Excellence.

It was obvious from Ron's first days in office that he was totally committed to a values-based brotherhood, and he made certain that traditional core values were integrated into every leadership program developed and supported by Chi Phi.

In the summer of 2000, when Brother Frank was elected to his first term as Grand Alpha, the Fraternity was recovering from a serious financial crisis. Several National Staff positions had been eliminated, morale

was arguably low and the Fraternity was in desperate need of a revitalization program.

That was five years ago. Today, I am proud to report that despite the many challenges, Chi Phi has emerged as a model for the future. Undeniably, members of the Grand Council and National Staff share in the credit for this remarkable turnaround, but I sincerely believe that we might not have achieved the same level of success, were it not for the influence of Ron Frank.

I would like to believe that many of these changes were bold and even, to some extent, cutting edge. A revised staffing model was developed creating staff positions to be shared and funded by both the Educational Trust and the Fraternity. A state of the art software program was installed providing a comprehensive program for tracking alumni data, and as fur-

ther measure to better serve our alumni members, a liaison position was created with the title of Director of Alumni Development. We now also boast a full time Director of Communications, and during the past several years we have received national recognition for the quality of our publications.

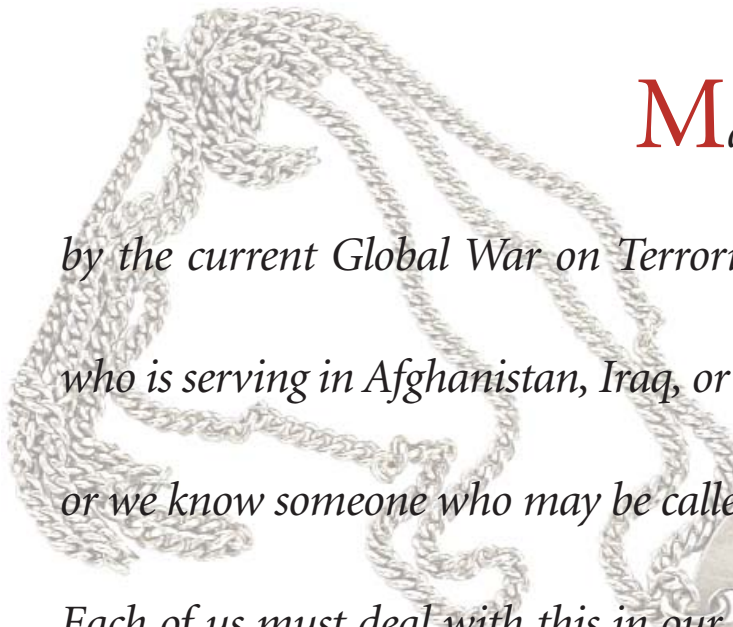

Many student interest groups seeking Greek affiliation are showing interest in Chi Phi because of the content of our publications and the information contained on our website.

Thanks to the outstanding expansion efforts of our National Staff we are experiencing unprecedented growth. This trend is reflected in a record high 65 chapters and colonies. Chapter visitations are once again a priority and are receiving full attention from our newly appointed Director of Undergraduate Services and recently created Field Representative.

Time and space will not permit a complete listing of the all the changes that have been implemented during this five-year period, but history will prove to be the ultimate judge of what has been accomplished. This brother, however, is confident that Chi Phi has moved to the next level and is well on the road to becoming the standard to which other fraternities will measure themselves.

I am grateful to Ron Frank and his outgoing Grand Council for leaving us a better Fraternity.

Dr. Jim Soderquist, Alpha 1967  
Chairman, Chi Phi Educational Trust

**M**any people are directly affected by the current Global War on Terrorism. Many of us know someone who is serving in Afghanistan, Iraq, or some other place far from home, or we know someone who may be called to active duty at any moment. Each of us must deal with this in our own way, praying each day that the ones we know and love come home safely.

**Captain Jesse Wentworth,  
Nu Delta 1998 in Kuwait**

# CHI PHI HEROES

ONE CHI PHI CHAPTER IN PARTICULAR has a very high number of both current actives and alumnus who are serving in the military. There are three men, all lieutenant colonels in the Marine Corps that are, or have recently returned from, serving in Afghanistan and Iraq.

Lieutenant Colonel Julian Dale Alford, Alpha Zeta 1986, is originally from Riverdale, Georgia. He joined the Chi Phi Chapter at the University of West Georgia his freshman year. During his sophomore year, he enlisted in the Marine Corps Reserves. Brother Alford was commissioned in December of 1987. His first duty was during Operation Just Cause in the Republic of Panama. He then served as a platoon commander in Operations Desert Shield and Desert Storm. He went on to serve in the Mediterranean, as well as Parris

Island, South Carolina before attending Amphibious Warfare School.

After completing Amphibious Warfare School, Lt. Col. Alford served in Liberia, Central Africa, and Guantanamo Bay, Cuba, as well as a time in Okinawa, Japan. In July of 2002, Brother Alford was deployed as an executive officer for Operation Iraqi Freedom. He was then deployed to Afghanistan for Operation Enduring Freedom in May 2004. In late summer of 2005, Lt. Col. Alford will again be deployed to Iraq as battalion commander of the 3rd

Battalion/6th Marine Regiment in Operation Iraqi Freedom.

Lt. Col. Alford's heroism and bravery during heavy combat operations in Iraq is well documented in Glenn Thomas' *God Saw Them Through*, a chronicle of the 2nd Battalion, 8th Marines' action in Iraq and the role of faith in the daily lives of the soldiers and their families. Thomas' account of Alford's actions during a battle that took place on the night of March 26, 2003 outside of Al-Nasiriyah, Iraq provides a detailed look at the Lt. Colonel's stoic bravery and character in the face of an enemy attack.

Lt. Colonel Alford was tasked with defending a "soft target" in the American supply line which included the logistical support for the Marines in the area. Alford quickly took action to move the logistical base into a better defensive, tactical position and had armored bulldozers construct defensive berms around their position. Alford's swift and thorough actions during the preparations for the base's defensive perimeter soon proved to be a large con-

## CHI PHI HEROES

**Below: Lt. Col. Alford - with Afghanistan General in 2004**

tributing factor to the success of both himself and his troops in the battle that unfolded on the night of the 26th.

Throughout the day on the 26th the Marine's had been firing devastating artillery barrages on Iraqi Fedayeen troop positions in the city of Al-Nisiriyyah. Alford and his Commanding Officers believed that the Iraqi troops were preparing to launch a major counter-offensive which would likely target Lt. Col. Alford's newly moved base. The Lt. Col. was in his main command post tent as night fell on the 26th when Fedayeen AK-47 fire began to cut through the walls of his tent. As one of Alford's staff officers, 1st Lt. Chad Ragan, recalls, the Lt. Col. remained entirely calm as bullets were piercing through the tent and proclaimed in his southern drawl "boys, grab your long guns and get out there and fight!"

After directing his troops to their defensive positions the Lt. Col. picked up an M-16 and began to return fire. Alford quickly realized that there was not a field radio anywhere near him, a vital piece of equipment during a battle in which troop movements and armored support must be coordinated from a central location. During armed combat Marines are instructed to avoid being anywhere near vehicles due to the fact that they are often the easiest objects for enemy combatants to target. Despite his knowledge of this fact, Lt. Col. Alford quickly ran to the nearest Humvee where he

found a radio which enabled him to coordinate with his troops as well as air and ground support. He remained out in the open in the Humvee, under heavy fire, directing his troops for the remainder of the battle. Two other Humvees were destroyed by enemy rocket propelled grenade fire that night, but the Lt. Col. miraculously came out of the battle unscathed.

While a total of thirty-one Marines had been wounded by the time the battle ended, there was not a single Marine casualty during the intense fire-fight. Lt. Col. Alford's actions in defending the base and his outstanding bravery in the Humvee were huge contributing factors to the zero casualty rate. He is truly an exemplary American, and Chi Phi hero.

Lieutenant Colonel Michael S. Paulk, Alpha Zeta 1987, originally enrolled at the University of West Georgia with the intent of transferring to the University of Georgia after his freshmen year. He stayed, however, because he "felt at home" attending UWG.

After deciding to stay, Brother Paulk joined Chi Phi in the spring of his freshmen year because many of his high school friends were brothers and because Chris Shuler, Alpha Zeta 1984, current Archives Coordinator, "made a positive impression on me," said Paulk.

Paulk explained: "The Chi Phi fraternity is a brotherhood with values, the Marine Corps is a brotherhood with values; therefore, being a member of Chi Phi 'prepped' me for my Marine Corps service. Furthermore, as I enlisted in the Marine Corps Reserves during my freshman year at UWG, I submit the Marine Corps 'prepped' me for my involvement in the Chi Phi fraternity. During my active brotherhood at UWG, I (along with Dale Alford, Mark Lockridge, Adam Frentheway, Eric Moon, Ben Bleicken, Lawrence Haywood, Bill Klouda, Lee Searcy, and others) had the privilege of being a Chi Phi brother and a Marine Corps brother-quite an honor and experience with my fellow brethren."

Similar to Lt. Col. Alford, Lt. Col. Paulk has served in many locations including Japan, the Philippines, Norway, Croatia, Lithuania, Romania, Kuwait, Iraq, and various locations in the United States. Lt. Col. Paulk recently returned from a seven-month deployment to Fallujah, Iraq, where he served as a Marine Air Ground Task Force Plans/Operations Officer.

Brother Paulk explained his most recent deployment as the most rewarding of his Marine Corps career. "I was part of several historic events: the "liberation" of the city of Fallujah, Iraq in November '04; the 'rebuilding/resettling' of Fallujah, Iraq (a first for the Marine Corps); and supporting the IECI (Independent Electoral Commission - Iraq) during January '05 elections throughout western Iraq - a Sunni dominated area - in which historic numbers came to register,

cast their ballot and exercise their new right to vote. With the media outlets being selective in their news, few people are aware of the great accomplishments soldiers, sailors, airmen, and Marines do everyday in Iraq."

Lt. Col. Paulk went on to explain that they were responsible for "rebuilding and re-supplying school houses so children can return to the classrooms; building and stocking medical clinics so people can be treated for disease and illness; designing water treatment plants, sewage pumping stations, and power plants to improve living conditions; training Iraqis how to operate these facilities; and recruiting qualified applicants for the Police Academies and the Iraqi Army in order to train an Iraqi organization capable of enforcing the rule of law - thereby allowing Iraqis to protect and serve Iraqis. The end-state is to 'work yourself out

of a job' by mentoring, educating, and training Iraqi citizens."

Lieutenant Colonel Mark Lee Lockridge, originally from Powder Springs, Georgia, decided on the University of West Georgia for rather economic reasons: close to home, in-state tuition, and an older brother who was already attending the school. He worked his way through college working for the United Parcel Service. Lt. Col. Lockridge joined the Marine Corps Reserves in 1982 having no idea he would make it a career. Unlike the other two men, Brother Lockridge did not join the Alpha Zeta Chapter until his senior year. He explained, "I was looking for a way to stay connected to friends and classmates. I was very unusual in that I didn't pledge and initiate until my senior year, mainly because of the aforementioned job at UPS and drills with the

U.S. Marine Corps. If I didn't work, I didn't go to school. I saved up enough money to pay for my senior year so I quit my job and decided to enjoy what other more fortunate folks had been enjoying all along. I knew Eric Moon, who was Alpha at the time, from the Marine Corps. He and other brothers, who were friends, suggested that I join the Brotherhood, and Eric agreed to be my Big Brother."

Brother Lockridge along with Brother Paulk was commissioned in Marietta, GA, in April 1987. Like Brothers Paulk and Alford, he too has been stationed all over the world. From locations throughout the United States to 26 different countries, Lt. Col. Lockridge has seen it all and is currently serving as the training resource officer at Headquarters, U.S. Marine Corps Forces,

Atlantic. Brother Lockridge was first stationed at Norfolk, VA in 2002, where he served as regional planner, and Deputy CJ-5 at Combined Forces Command - Afghanistan before returning to Norfolk. Lt. Col. Lockridge explained, "Our impact on the Afghan people is tremendous. They have realized the first free and fair elections in their history and continue to develop a stable government. For the naysayers on the War on Terrorism, I say we are better off taking the fight to them abroad than on our own homeland. We must maintain our vigilance."

When asked how Chi Phi prepared him for the Marine Corps, Brother Lockridge responded, "The camaraderie and professional organization is akin to that in the Marine Corps. Understanding that the per-

son on your left or right has your back is of supreme importance and that holds true in both the U.S. Marine Corps and the Chi Phi Fraternity."

During his duties, Lieutenant Colonel Lockridge experienced an airport adventure like none before. It was on June 3, 2004 in the Kabul International Airport. Brother Lockridge and two others were traveling to Islamabad, Pakistan, when they ran into some troubles with their tickets, passports and cash. Lt. Col. Lockridge explained, "For those of you who may not know, there are no ATMs, no electronic banking systems, no stores or restaurants in Afghanistan where you can use a credit card (except at the exchange on our bases). So, I thought it was kind of odd that the Kabul Airport would be able to take a credit card. But, they said

## CHI PHI HEROES

**Opposite page: Lieutenant Colonel Dale Alford, Alpha Zeta 1986, studying map in Afghanistan**

**Left: Lt. Col. Paulk celebrating New Year's Day 2005 outside Abu Graib Prison.**

that was the plan. I pondered it and then decided, 'Hey, after all, it is an international airport. They must be able to take a credit card for payment on a ticket.' How wrong I was... If I had thought about it a little more, I would have questioned the fact that our travel agent was in a SATO travel office in the Netherlands. I am sure she does not have a clue as to the real conditions at the airport in Kabul! But, at the time, I did not either, and we should have known better. We were under orders to travel immediately to Islamabad, but the two C-12s were hard down and more conspicuous American aircraft are not allowed in the airspace."

In an attempt to travel incognito, the three had left all of their gear including communications in the SUV that had brought them to the airport. When they realized that not only did they not have tickets, but simply confirmation numbers, and

that the Kabul International Airport had no ticket counter, they were suddenly stuck. By this point their ride was already gone and they did not have enough cash to buy the tickets even if they could find a travel agency in Kabul to print the tickets.

There was a Pakistani man in the airport trying to help Lt. Col. Lockridge and his traveling partners. He began by explaining that he has called a "facilitator" and the three should wait for him as he can help with the problem. When Brother Lockridge explained to the man that they did not have enough money he said, "I work at the American Embassy and you can pay me when you get back."

The facilitator arrived and the three handed over their passports while the Pakistani gentlemen gave the other man over \$600 of his own money in cash. While waiting for the facilitator to return, Lt. Col.

Lockridge learned that the Pakistani man is a business man who runs a shipping company responsible for bringing in all US military and embassy logistics into the country, and he is headed off to get married and have his honeymoon. The facilitator returned with the passports and tickets, only after tracking down the owner of the travel agency at his house because the office was closed. The next problem arose in that the three men entered the country on military transport, so their passports were not validated to leave in a non-military setting. With incognito now completely gone, one of the men, an Air Force Major, showed his identification badge. The security at the airport decided that the men were with NATO and cleared them to board the plane.

The men made it safely to Islamabad, and Lt. Col. Lockridge concluded his story saying, "We were three very happy and

**"I think it's important for everyone to know how thankful I am for the patriotism and support towards all soldiers, sailors, airmen, and Marines who are engaged in the Global War on Terrorism (GWOT). I cannot express in mere words the pride felt knowing fellow citizens are unwavering in their support - it is a tremendous morale booster."**

**— Lt. Col. Mike Paulk**

## CHI PHI HEROES

**Right: Lieutenant Colonel Michael Paulk, Alpha Zeta 1987, in 2004 near the city of Fallujah after decorating the wall with a Falcons sticker**

**Opposite page: Lt. Col. Lockridge with Afghanistan children**

thankful men. It is quite clear to me that God was watching over us and believe me I had asked for His help. He is faithful and true and watches over our every need. Before I even prayed to ask God to solve our problem, He was already working it. There is no doubt in my mind that God put that man in our path and moved him in his heart to have compassion on us. What person would give \$600 out of his pocket to complete strangers from another country that he happens to meet at the airport on his way out of the country?! And as for the facilitator, everyone should have one of those! And I know that God facilitated putting him on our case.”

When determining how to end this article, I thought of many different ways that I could go with Chi Phi values of commitment and responsibility, but I think that Lt. Col. Paulk said it best. “I think it’s important for everyone to know how thankful I am for the patriotism and support towards all soldiers, sailors, airmen, and Marines who are engaged in the Global War on Terrorism (GWOT). I cannot express in mere words the pride felt knowing fellow citizens are unwavering in their support - it is a tremendous morale booster. Finally, of all those who serve or have served, I must pay special tribute to my fellow brother (Chi Phi and U.S. Marine Corp) who gave his life saving mine during my Senior year at UWG. Adam Frentheway saved my life on a tragic September 24, 1986 night in Carrollton, Georgia. He received the Navy and Marine Corps Medal for his actions ... this award is given for acts of heroism not involving actual conflict with an opposing armed force. He is my hero.”

This is only a glimpse into the lives of these Chi Phi members and their part to end the war against terror. The Alpha Zeta Chapter has many more members that are actively serving or retired military. The following is a list of those men:

**U. S. MARINE CORPS -  
CURRENTLY ACTIVE OR  
RESERVE**

- Lt. Col. Dale Alford
- Lt. Col. Mark Lockridge
- Lt. Col. Mike Paulk
- Maj. Jay Vaughan
- Capt. Bryant Budde

IN THE MILITARY IN THE UNITED  
STATES AND AROUND THE WORLD. YOU  
ARE IN OUR THOUGHTS EVERY DAY  
AND WE HOPE FOR SAFE JOURNEYS  
AND RETURNS.**

# Today's College Student - Tomorrow's Chi Phi

MOST OF TODAY'S COLLEGE STUDENTS SEE A COLLEGE EDUCATION AS CRITICAL to their future quality of life and the key to a good job, financial security, and personal well-being. Most have definite career objectives, majoring in professional or pre-professional programs including business, engineering, pre-med or pre-law.

While they may have strong academic abilities and enjoy learning, both financial and family responsibilities motivate a utilitarian approach to their education.

Because the residential college experience is not as central to the lives of today's college students, they often seek a different type of relationship with the university, much as they would with any other service providers such as banks or filling stations.

Today's college students approach their education as a consumer seeking convenience, quality, relevance and low cost.

The mission of any Greek community is simple-to become the best Greek community in the nation. Each Chi Phi shares in this passion to become the best on his respective campus. In order to meet this goal, it is important that each chapter examine current chapter operations and see how they fit the needs of today's college student.

Fred Newton, a professor in the Department of Counseling and Educational Psychology at Kansas State University, spent two years researching the millennial student. Fred's research shows that students entering college at the beginning of this new century are a distinctive

generation. Labeled millennials, Internet gens, generation Y, and baby boomers II, they have been described as ambitious, precocious, stressed, indifferent, wayward, techno-nerds, politically conservative, and sexually active. These descriptions are only a portion of many qualities that make up the complex mosaic that is this generation.

Today's students have grown up in a world in revolution, where rapid changes have provided a new expansiveness in information, a multiplicity of potential life experiences, advancing technological sophistication, and pluralistic social models to emulate. This means that the products and services the Fraternity offers to today's students must meet their needs. It means that we must look at the simple business strategy of supply and demand.

In the past 30 years, the number of men who have joined fraternities has decreased by more than 30 percent. During these past 30 years, the rapid changing revolution has dramatically affected the attitudes, behaviors, needs and wants of students. What has not happened in the past 30 years is adjustment by our Fraternity to meet these rapidly changing needs. If we are to become the

best, we must look further into the trends of today's new student.

According to Dr. Newton's research, students entering college have had greater exposure to and more experimentation with "grown-up" activity than any previous generation. Today's freshmen did not wait to start college to get out from under the wings of adults and experiment with issues like sexuality, alcohol and drug use, spending money, or even different lifestyle options. A majority of our incoming freshmen are part of the "home alone" generation, having spent many hours in the hands of television, the Internet, peer groups, and alternative parent figures. One student described his transition to college as more of a "moving on" to meet new people and find different experiences rather than a new "freedom to party and play," which he felt had already taken place while he was in high school.

Students receive extensive and rapid exposure to a vast and ever-increasing level of information, which makes them the most informed generation to date. Although students do have more general knowledge, they come to our campuses with less experience in exercising the discipline and focus required to explore a subject in depth. Life management skills are frequently deficient. One of Dr. Newton's classes at Kansas State University carried out interviews with students on life skills like time management, financial budgeting, and long-term goal setting. They found that most students do not follow a systematic method for managing their resources of time, money, or even person-

al health. A colleague reminded me that it seems that “living by the seat of the pants” is a very typical stance characterizing today’s new student.

Social connection and intimacy are also taking on different patterns. Today’s students are less likely to pair off and more likely to participate in group activities, have brief intimate encounters, and experiment with several living options before settling down into an adult pattern. Our future freshmen will arrive on campus already having experimented with shared living spaces and talk about spontaneous intimacies such as “shacking up.”

Emotionally, students are experiencing increasingly high levels of stress and anxiety. What does this mean? Perhaps the pres-

sure to be successful on all fronts has students feeling the need to use college as a last escape before settling down. The demand to succeed has created greater incidence of stress-related disorders, including headaches, digestive problems, hypertension, and depression. Interestingly, the number of men experiencing eating disorders has grown dramatically in the past ten years with the explosion of what is known as the Adonis Complex—the need to have a body that could appear on the next issue of a men’s health magazine.

Dr. Newton has also found that students today are on the cutting edge of technological proficiency, and in most cases, are beyond their parents, teachers, and potential bosses. Any student born

after 1979 has grown up with computers in their schoolroom, sophisticated electronic games, the Internet as a research tool, and an overall comfort with technology. For Chi Phi, this means that access to technology in the chapter dwelling carries the same expectation as having sinks in the bathrooms and comfortable furniture in the living room. For fraternity leaders it means that instant messaging and email are the preferred way of communication instead of face-to-face contact. For potential members, it means that chapter websites must have the same look and feel as the video games that high school juniors and seniors played at home.

When it comes to graduating in four years, many students in Dr. Newton’s

**Delta Pi chapter members during a Ropes Course Activity.**

study indicated that they would take five years to obtain a degree because they have to pursue part-time employment during college. A large number of students indicated that work is necessary to meet the expenses of college and avoid accumulating heavy loan debts.

Students surveyed by their peers on how and where they spend money referred in their responses to “maintaining their lifestyle.” They included comments about the importance of having deluxe cable television, a wardrobe from Abercrombie and Fitch, driving expensive cars, saving up for weekend trips and luxury spring break trips, or needing the money for weekend parties. To meet these needs, work often gets first priority for time in the student’s life.

UCLA’s Higher Education Research Institute found that students are spending less time on homework, are more likely to skip class, and look for ways to get by with minimal effort than previous generations. Students are taking more breaks from college by studying abroad, leaving for a semester internship, or simply sitting out a term to work and make extra money. For fraternities this means that students will have less time to hold leadership positions and attend evening or weekend workshops, retreats and seminars. The trend in chapter leadership is that most of the fraternity and sorority executive officers are sophomores and juniors; rarely will one find a senior holding a leadership role.

Research also shows that students are ambitious in their career aspirations yet frequently have unrealistic expectations about what it takes to achieve their goals. The gap between ambition and components of successful achievement, which usually include both ability and effort, is often replaced by emphasis on a good appearance. For example, students frequently join organizations or volunteer for certain activities because they “look good” on a resume. Their commitment to these clubs or volunteer tasks is often superficial and frustrating to those students who are in leadership roles.

Finally, students are aware of campus and community regulations, rules, and

political correctness. The challenge to students seems to be to find a way around the rule, to create the right appearance by hiding unapproved behavior, and to live by a philosophy such as “cheating is OK if you do not get caught.” Those in positions of authority, such as a fraternity executive board member or advisor, find themselves lacking trust in their brothers due to an increasing number of incidents where

**Today’s students are less likely to pair off and more likely to participate in group activities, have brief intimate encounters, and experiment with several living options before settling down into an adult pattern.**

**Theta Zeta chapter brothers outside of chapter house at 1824 Chakett Rd.**

**Delta Zeta Chapter alumni, actives, parents, and friends at their annual Founder’s Day celebration**

rules have been broken or inappropriate behaviors are being hidden so they cannot be addressed.

Knowing all of this, how do we have an influence on the millennial student? Where does the role of a fraternity play into the life of the tomorrow’s student? First and foremost, we must recognize that the fraternity should still offer deliberate out-of-classroom opportunities for student personal awareness and exploration to take place. Students need to have skills to manage their daily life. Fraternities can provide those skills through their programs and services. Fraternities can provide opportunities for students to explore the meaning and purpose of their life through retreats, workshops, and seminars in the areas of leadership, peer-assisted team building, and service activity. The millennial student needs information about managing time, finances, relationships and stress effectively.

Dr. Newton’s research shows that today’s students are lacking in social skills and life skills, have increased emotional stress, and are comfortable with rapidly changing technology. Students view the traditional college experience—four years living in the same place of residence—as something of the past. The demand for co-ed housing on campuses has dramatically increased. Students would rather live with members of the opposite sex in residence halls or off-campus apartments than in single-sex environments. I’m not saying that fraternities should become co-ed, although I frequently see women walking out of fraternity houses early in the morning on my drive to work. However, fraternities can embrace this lifestyle shift by creating living and learning environments that students will embrace and view as the ideal place to live, study, and socialize.

So how do we get there? The handwriting is on the wall—supply and demand. The demand for a traditional fraternity experience has decreased on many campuses. The demand for a living and learning option where students feel free to explore all aspects of their lives has increased.

## *Chi Phi Brothers*

# *inspiring* & *enabling*

CHI PHI NATIONAL FRATERNITY OFFICIALLY VOTED AT THE 139TH CONGRESS TO ADOPT THE BOYS AND GIRLS CLUB OF AMERICA AS ITS NATIONAL PHILANTHROPY. Until then, its National Philanthropy was Big Brothers/Big Sisters of America. The reason for the change was actually quite simple: time restraints and long term commitment requirements.

Big Brothers/Big Sisters is an amazing program that allows individuals to mentor youth one-on-one in the area they live. The process, however, does require a lengthy screening process and an individual commitment of a set number of hours per month for a designated length of time. Boys and Girls Club of America requires volunteers to fill out simple forms, and the screening process is much less involved than Big Brothers/Big Sisters because Boys and Girls Club staff members are always present. Individuals who wish to volunteer can go to a club location during any regular club hours and volunteer in multiple ways, giving as much or little time as they feel comfortable. Chi Phi Fraternity began its partnership with Boys and Girls Club at the College of Excellence in the summer of 2003.

The Boys and Girls Club of America began its service to youth in 1860 as the

**Vincent Verteramo, Zeta Theta 2005 and others playing with the children at Boys and Girls Club of America**

Dashaway Club in Hartford, CT. This was followed by a slow growth until the birth of the Federated Boys' Clubs in Boston with 53 member clubs in 1906; the beginning of what we now call the Boys and Girls Clubs of America. The Boys' Clubs of America received its U.S. Congressional Charter the

same year of its 50th Anniversary of founding and quickly grew to 1,000 clubs and one million boys reached by 1972. In 1990, the club name was officially changed to the Boys and Girls Clubs of America and reached 2 million youth served and over 1,500 clubs just three short years later. The following year, the National Headquarters was relocated to Atlanta, Georgia with 3 million youth being served in 2,200 clubs by 1998.

Chi Phi Fraternity began as the Chi Phi Society in 1824 and merged the Northern and Southern orders to become Chi Phi Fraternity in 1874. Today we have over 60 Colonies and Chapters with some 2,000 undergraduate members actively participating in the organization. The fraternity also supports Alumni Associations and regional Meetup clubs in cities across the country. The ease of access of our members to the Boys and Girls Clubs help make it a natural fit.

Truth, Honor, and Personal Integrity are the founding principles of the Chi Phi Fraternity and our Mission is "To build better men through lifelong friendships, leadership opportunities, and character development." The mission of the Boys and Girls Clubs of America is "To inspire and enable all young people, especially those from disadvantaged circumstances, to realize their

full potential as productive, responsible, and caring citizens.”

Boys and Girls Clubs of America allow for diversification of programs through their five core program areas. These areas are: character and leadership development; education and career development; health and life skills; the arts; and sports, fitness and recreation. Amy Jo Hamrick, Director of Operations at the Boys and Girls Clubs of Rutherford County in Murfreesboro, TN, states that individuals can volunteer in any of these areas. She explains that individuals and groups tend to come to a club and help with certain activities. “One fraternity held a baseball clinic, another woman came and taught dance, while others have come and help with the computers at the club,” said Hamrick. She goes on to explain that the employees at a club will work with a group or individuals to find an activity enjoyed by both the children and the volunteers.

During the College of Excellence for the last two summers, participants traveled to a local area Boys and Girls Club and participated with children in a club field day. I am sure that each of the COE participants remembers this day and how much fun was had playing with the children. One of my memories from the summer of 2003 was of the little boy that did all the back flips. You would think none of us had ever seen a person do a flip before the way we were all standing around watching in amazement. Last summer, my best memories are from all the Chi Phis giving piggy back rides to, I think, all of the children at the club. Each of the COE participants seemed to have a great time playing with the boys and girls, and it took very little planning on our part.

The Boys and Girls Clubs have professional staff in place to assist a chapter or individuals in planning volunteering events. Most clubs also have methods of transporting the children to your campus for a field day or even a sporting event.

They can also provide the equipment and location if a group wants to host an activity at the club. “We’ve had people host dances, basketball tournaments, taught children to play pool, and just about anything else you can think of,” said Amy Jo Hamrick. The Boys and Girls Clubs are always looking for volunteers and are willing to work with an individual to find the area that works best for him or her. Almost every city has a club or there is one close to our chapters so volunteering is easy. It can be a one time event or a weekly commitment, whatever works best for you or your chapter.

Chi Phi has produced some amazing alumni from Walter Cronkite to George Ferris, while the Boys and Girls Clubs boast Denzel Washington and Vonzell Solomon. Imagine what the two groups could produce if we work together for service to our community.

William M. Byrd, Nu 1953:

# A BROTHER FOR THE AGES

By: Steven Wayne Hopkins, Nu 1999

ON APRIL 7, 2005, I CELEBRATED THE 10TH ANNIVERSARY OF MY INITIATION INTO THE NU CHAPTER OF CHI PHI. This occasion provided an opportunity for reflection. When I thought back over the previous decade, the memories came rushing back, and it occurred to me just how enjoyable and memorable my Chi Phi experience had been. In truth, I was not surprised to have had so many great memories, because I expected a great experience when I choose to join this brotherhood. What I never expected though, was to meet a brother quite like Bill Byrd.

As I reminisced about the ups and downs experienced by Chi Phi during the past decade, Bill Byrd was the one constant throughout that era. Our fraternity always knew that Brother Byrd was on our side. Whether it was assisting with rush, helping to send brothers to COE or Congress, or simply taking a brother to dinner, Bill Byrd was there for us in every way that a brother could be. As a decade's worth of pleasant memories came flooding back, I was surprised at just how many of these great memories involved Bill in some capacity. I also realized how truly fortunate I was to have joined an organization that claimed a man like Bill Byrd as a member. Sadly, less than three weeks after this reminiscence, on April 25, 2005, Brother Bill Byrd entered the Chapter Eternal.

It is hard to comprehend the magnitude

of the legacy Brother Byrd has left behind. It is nearly impossible to quantify the memory of a man who spent so much of his life immersed in selfless service to others. Former Alabama Crimson Tide Head Coach Gene Stallings is known for giving a moving speech about the true definition of a "meaningful life." In this speech, Coach Stallings says we often make the mistake after someone passes of looking at their headstone and focusing only on the years of birth and death. What truly matters, though, is the "dash" in between those years, for this dash represents each individual's time on Earth. It is what each of us does with this time that gives a life true meaning and worth. Brother Byrd's "dash" was so full of generosity, that mere words could never do it justice. As a measure of this omnipresent generosity, it would be far

easier to list the few brothers who have not benefited from Brother Byrd's kindness, than it would be to list the great number of brothers who have benefited. If a life is defined by the amount of assistance given to those in need, then Brother Byrd's life was the very definition of "meaningful."

Over the past decade, I had the true privilege to interact with Brother Byrd on a number of occasions, and I would like to share with you a few of these memorable experiences. I believe that these stories go a long way toward demonstrating what type of man Bill Byrd was and why he meant so much to so many.

When I began my first term as Alpha in March of 1996, Nu Chapter was down to a mere six brothers. Less than six years before, we had over 90 members. Needless to say, times were a bit rough. At a time when so many had seemingly written our chapter off, Brother Byrd was rejuvenated and as passionate as ever in extending the helping hand of brotherhood. Whether it was helping out with the landscaping, assisting brothers as they moved into the house, or simply picking up pizza for everyone after a hard day's work around the chapter house, Brother Byrd was always there. For young men in great need of a kind word, Brother Byrd's unshakable faith in our chapter's potential was crucial to Nu's eventual turnaround. Thanks in large part to this unwavering support, Nu was presented with the Thomas Gehring Award for "Most Improved Chapter" less than a year later at the 1997 COE. Our brothers were bouncing off the walls when

we first heard this good news. The greatest excitement however, laid in telling Brother Byrd of this accomplishment, for in so many ways, it was truly his award. Though his heart was with all who wore the Scarlet and Blue, Brother Byrd always had a special place in his heart for Nu. Upon hearing what his chapter had achieved, Brother Byrd got a bit misty-eyed, and in his familiar tone, simply said “mighty fine.”

My favorite personal memory of Brother Byrd occurred during the Spring Break week of 1998. My spring break plans had fallen through at the last minute, and I wound up staying at the Nu chapter house over the break. Out of boredom, I decided to try to repaint one of our upstairs rooms. Never much of a handy-

man, my efforts at first were less than successful. Brother Byrd showed up one day and saw what I was doing. Of all things, Bill asked me if I would mind if he helped out. As soon as I said “I’d appreciate the help,” Bill abruptly turned around and started heading out the door. Before I could ask where he was headed, he said “Well, I’ve got some painting supplies back at the house that might help. I figured I ought to go and get ‘em for you.” Bill lived over an hour away from the chapter house, but he didn’t hesitate to turn right back around to fetch some supplies that he thought would help me with my feeble painting efforts. Upon returning with his supplies later that day, he then asked if I would mind if he helped out with the painting too. Brother Byrd showed up at 9:00 a.m. each day that week, and over those next five days, that whole darn room got painted (and painted pretty well.) That was the quintessential Bill. No job was too small if he thought it would help his chapter or his fraternity. It is easy to remember Brother Byrd for all the grand things he has done for Chi Phi. To me though, it was the little things that truly made him one-of-a-kind.

I’d be remiss if I did not share one final story. I personally had the honor of traveling with Bill to numerous Chi Phi Congresses and a few COEs. I’ll always remember traveling with him, along with Brother Parke Presnell, to COE in 2000 at

the University of Miami in Ohio. Our plane arrived very late, and it was just the three of us at the Hertz car rental booth at the Cincinnati airport at 2:00 a.m. Bill rented a car to drive us to Oxford, but had accidentally left his drivers license and all other forms of ID back in Texas. It is hard enough to rent a car even when you have proper ID, but here we were, at 2:00 a.m. at the Hertz rental window, and all Bill had was his credit card. When Parke and I heard this, for some reason, we weren’t a bit worried. We simply sat down on the bench next to the check-out window, and knew that Bill would still convince the lady to rent him a car. Sure enough, less than 5 minutes later, the lady was all smiles as she turned the keys over to Bill (or who she assumed was “Bill” absent any form of ID). Though we couldn’t hear what he was saying, it must have been incredibly effective. Bill did not always say a lot, but what he did say spoke volumes.

Great men leave timeless legacies. Nineteen years from now, in 2024, as our fraternity celebrates its bicentennial, a future Chi Phi brother, who is yet unborn, will benefit from Brother Byrd’s generosity. This timeless testament to Bill Byrd’s compassion is far more important than any temporal glory, for as long as our fraternity exists, Chi Phi men will continue to be uplifted by Brother Byrd’s kindness. This is the most appropriate of lasting tributes for Brother Byrd, since nothing ever gave him greater joy than helping out a fellow brother.

We Chi Phis suffered an irreplaceable loss with Brother Bill Byrd’s passing. We will never see his likes again. I am simply thankful that so many had the wonderful opportunity to get to know him, and I pray that his limitless generosity and compassion will serve as examples for all Chi Phi brothers to follow in the years to come. Brother Byrd’s timeless legacy of service has enriched hundreds of lives, and in the future, it will certainly enrich hundreds more. There can be no better definition of a “meaningful life” than this.

# REGIONAL LEADERSHIP ALLIANCE UPDATE

**The freedom to do your own thing ends when you have obligations and responsibilities. If you want to fail yourself — you can — but you cannot do your own thing if you have responsibilities to team members.**

— Lou Holtz

The quote above by Lou Holtz served as the focus for the 2005 Regional Leadership Alliances (RLAs). The RLAs are a series of workshops designed to provide undergraduate leaders with guidance in the areas that their chapter or colony needs. Over a dozen seminars were facilitated by experienced Chi Phi alumni, staff members, and some of the best interfraternal facilitators around.

This spring, seven Regional Leadership Alliances were conducted across the nation. Each RLA was hosted by a chapter or colony responsible for providing a welcoming atmosphere for brothers and friends of Chi Phi throughout the weekend. On behalf of the National Office Staff, I am grateful for the following chapters and colonies that served as hosts for the 2005 RLAs:

- Beta Chapter at Massachusetts Institute of Technology
- Lambda Chapter at the University of California at Berkeley
- Nu Delta Chapter at the Florida State University
- UIW Colony at the University of the Incarnate Word in San Antonio, Texas
- Psi Delta Chapter at the University of North Carolina - Charlotte

- Pi Delta Colony at West Virginia University
- Kappa Chapter at the University of Wisconsin - Madison

The Spring 2005 RLA program brought several additions to the curriculum. First, an in-depth program designed exclusively for Chapter Alphas was presented throughout the day. Alphas were guided on a curriculum path called, "Leading With Integrity" in which they examined their personal leadership styles and the intrinsic and extrinsic values of their respective chapters.

Second, a case study activity was introduced to all of the participants in the afternoon. This in-basket exercise was designed to provide each chapter or colony with an opportunity to review, analyze, and address a scenario. Each scenario revolved around the Chi Phi Personal Safety Policy, and afforded the brothers the opportunity to test their decision-making skills as they answered the question posed in each case: "How do you respond?"

And finally, the RLAs introduced a high-energy, large group activity called "Jump Rope Run" in which the entire group had to solve problems while working as a team.

One of the most valuable aspects of the RLAs was the addition of experienced, higher-education professionals who served as faculty members. These men and women, affectionately known as "Friends of Chi Phi," spent a majority of the day facilitating the Chapter Alpha curricula, but also joined in the afternoon sessions, covering risk management and risk reduction, and the case study activity. Chi Phi Fraternity welcomed the following six professionals into the "Friends of Chi Phi" family:

- David Rogers, Sigma Phi Epsilon, Greek Advisor at MIT
- Kurtis Foriska, Delta Tau Delta, Greek Advisor at the Ohio State University
- Carolyn Whittier, Alpha Omicron Pi, Greek Advisor at Elon University
- Dr. Laura Osteen, Alpha Delta Pi, Director of the LEAD Center, the Florida State University
- Betty Jeanne Wolfe Taylor, Kappa Delta, Greek Advisor at the University of Texas-Austin
- Christopher Juhl, Phi Kappa Tau, Greek Advisor at Northern Illinois University

The Spring 2005 Regional Leadership Alliances had 244 Chi Phis in attendance. The feedback we received from each of the events was both positive and encouraging. Comments from our members about the RLAs include:

- "The sessions were extremely useful, especially since they called for input from every chapter."
- "I learned of many resources for improving our chapter's alumni relations."
- "The RLA was informative, educational, and interactive."
- "Our entire Chapter needs to attend an RLA. The information we learned in one day will help our chapter for an entire year!"

Plans are currently underway for the Spring 2006 Regional Leadership Alliances, including finding locations and developing new curricula. If your chapter or colony would like to host one of the Spring 2006 RLAs, contact Brian Tenclinger, Director of Undergraduate Services, at [Tenclinger@chiphil.org](mailto:Tenclinger@chiphil.org).

## The Shepherds in the Mountains... New Colonies at Shepherd University and Virginia Tech

**Newly pinned members of the Delta Phi Sigma Colony at Virginia Tech University**

April 2005 was a busy month for Chi Phi Fraternity as we welcomed two new colonies into the family. Colonized 21 days apart, these two groups sit just 239 miles from each other in the picturesque mountains of Virginia and West Virginia.

Shepherd University, in Shepherdstown, West Virginia welcomed a Chi Phi Colony on Saturday, April 2, at the conclusion of the Regional Leadership Alliance hosted at West Virginia University. Under the leadership of undergraduate Ron Walters, Shepherd Colony looks to be a dynamic group of men.

Shepherd is a coeducational, state-supported, four-year university with a curriculum bearing a strong emphasis in liberal arts. The university was established in 1871 and currently serves approximately 4,800 students. This size, however, does not prohibit it from offering small classes for a more personalized educational experience. With offerings in more than 75 fields, the average student-to-faculty ratio remains 19 to 1.

Just 239 miles up the road from Shepherdstown is Blacksburg, Virginia and Virginia Polytechnic & State

University. From 1992 to 1998, Virginia Tech was home to the Delta Phi Sigma Chapter of Chi Phi Fraternity. In 1998 the Chapter closed due to falling numbers, poor organization, and lack of an Alumni Association. The fraternity continued to operate but reverted back to its local identity, Delta Phi Sigma, until 2003, when one of the new Delta Phi Sigma Alumnus made contact with one of the original chartering members from 1994. The Chi Phi and Delta Phi Sigma Alumni used the past year or so to get to know each other and entered into many conversations to forecast a future return of Chi Phi Fraternity at Virginia Tech.

Many similarities were found between the spirit and character of the original founding fathers of Chi Phi at Virginia Tech and that of the current roster of 28 brothers of Delta Phi Sigma. Under the leadership of Chris Jennings ('96) and undergraduate Matthew Burger, the Delta Phi Sigma Colony of Chi Phi Fraternity was welcomed into the University community on Saturday, April 23, 2005. The colony will enjoy a renewed commitment by the National Office and financial and logistical support from the newly formed Delta Phi Sigma Alumni Association. The Chi Phi Alumni from Virginia Tech look forward to officially welcoming the colony and Delta Phi Sigma Alumni back to the Scarlet and Blue.

From a meager beginning in October of 1872, Virginia Polytechnic Institute and State University, popularly known as Virginia Tech, has evolved into a comprehensive university of national and international prominence. As Virginia's largest university with 25,600 students and one of the top 50 research institutions in the nation, it is an institution that firmly embraces a history of putting knowledge to work. That tradition is rooted in the motto, *Ut Prosim*: "That I May Serve," and the land-grant missions of instruction, research, and solving the problems of society through public service and outreach activities.

## The Long Road to Success

The history of the Chi Phi Fraternity at the University of Maryland requires much more than just a couple of paragraphs to adequately explain all that we have experienced. I wish only for other Chi Phi brothers, current and alumni, who read this, to better understand who we are, what we stand for, and from whence we came.

It is barely enough to say that over the course of time, 21 men, disgruntled, disillusioned, and disappointed by the state of affairs of the Greek system at the University of Maryland, came together in hopes of something more. These men, each uniquely diverse, found in one another a common bond: to be a partner in the creation of something more than the typical fraternity. In their search for a means to foster their brotherhood, they were about to be colonized as members of a national fraternity, when they realized that their relationship with the national fraternity suffered from a clash in ideologies. However, these men would not be denied their dream.

Eventually these 21 men, fondly recalled as the founding fathers, decided to bring in new blood and rushed seven men based solely on the foundation of brotherhood. In the first pledge process, the TUB class became one, persevered, and arose through the ashes as members of TUB. In October of 2003, Chi Phi was contacted on behalf of the brotherhood. The mutual interest led to a meeting, and on November 1, 2003, the members of TUB were offered membership into the Chi Phi Fraternity. Twenty-eight men were colonized on November 17, 2003.

As members of Chi Phi, the newly established fraternity looked to branch out. Over the course of the next three semesters (spring of 2004 through spring of 2005) 20 men were initiated as the Alpha, Beta, and Gamma classes. Each man brought with him a diverse set of

experiences and beliefs, but they all had brotherhood as a common bond. The Chi Phi National Fraternity, influenced by the progress we had made as well as by the work of George MacDonald, Mike Molinari, John Connell, and John Gianetti, saw enough promise to offer our colony the chance to be chartered. On April 16, 2005, 35 men were rewarded for all of their hard work, dedication, and perseverance. The rest, as they say, is history.

## Theta Theta Receives Charter

Working hard. It is something that we've all heard about throughout our lifetime. However, at some point we learn that hard work isn't something done alone: it's an effort that is done in bonds of unity with others. It took that kind of hard work to take a local fraternity-Chi Chi-and make it into something bigger and better. In August of 2003, 12 men, with an aspiration to become something stronger, contacted Chi Phi about bringing their group to campus. After a presentation and selection process, the group at Shorter became the Shorter College Colony of the Chi Phi Fraternity. In late October of 2003, the 12 men traveled to the Gamma Chapter at Emory University in Atlanta to become the first initiated members of the fraternity at Shorter.

After the "founding fathers" got things organized, they began rushing new members and gained a pledge class of 12 new men. These men were initiated at the Alpha Zeta Chapter at The State University of West Georgia doubling the colony's size to 24 members. From that point, the brothers of the Chi Phi Fraternity at Shorter College set a precedent for academics and involvement on campus. To date, every brother on the Chi Phi roster is involved in at least one other campus activity, and half of the brothers hold offices in their chosen organizations.

Recently, the group initiated eight new members at Gamma (Emory) who add to the incredible dynamics of the fraternity. Since their colonization, the men of Chi Phi at Shorter have volunteered with the Boys and Girls Club of Rome, Habitat for Humanity, the Dodge Tour de Georgia, and the Atlanta Steeplechase benefiting the Atlanta Speech School. Members of the group also mentor students at local elementary and middle schools. Service isn't the only thing in the minds of the brothers: scholarship is also very important. This year, the Chi Phis at Shorter created a B.A.S.E. program, (Brothers Acknowledging Scholastic Efforts). In this program, members who fall below a certain GPA have set study hours while those who do well and meet their desired GPA goal for the semester are rewarded.

After meeting the requirements to charter in February 2005, the group began working on a ceremony that would take place in May. On May 14, 2005, the men at Shorter College were chartered as the Theta Theta chapter of the Chi Phi Fraternity.

**Bottom: Picture from Eta Theta chartering banquet April 16, 2005**

**Below: Charting ceremony for men of Theta Theta Chapter at Shorter College, May 14, 2005**

# Psi Delta Chapter's 35th Reunion Weekend

April 8-10, 2005  
Charlotte, North Carolina

PSI DELTA CHAPTER FOUNDERS AND ALUMNI FROM ACROSS THE UNITED STATES CAME TOGETHER AT PSI DELTA'S CHAPTER HOUSE OVER THE APRIL 8-10 WEEKEND TO CELEBRATE THE 35 YEARS OF CHAPTER BROTHERHOOD. The weekend began on Friday morning with an Alumni Golf Tournament at the Old Sycamore Golf Course in Mint Hill. The tournament was captain's choice format and many alumni spent a beautiful Friday afternoon reuniting fraternal bonds and relaxing at the Golf Course.

Friday evening included a Welcome Barbeque that included over 100 Chi Phi's and guests enjoying the rekindling of friendships, the partaking of delicious food and the ambience of a wonderful chapter home. All 35 undergraduate Brothers were captivated and impressed by the camaraderie and friendship that remained strong amongst all alumni. What they witnessed impressed upon them the significance of forging strong bonds of brotherhood as an undergraduate, as well as the importance of our life-long oath.

The next afternoon, alumni gathered at the Chapter house to attend a campus tour as well as a Cocktail Party at the new Chancellor's House.

Saturday evening's Semi-Formal Reunion Dinner was the highlight of the weekend festivities. The banquet was held at the University Hilton and featured Ron Foster as the Master of Ceremonies. The event opened with Dr. Loy Witherspoon giving a prayer and was later presented with honorary membership into the Chi Phi Fraternity. A video compilation was shown of the past 35 years of Chapter history that included tributes to former Grand Alpha Dr. J. Darryl McCall and former Grand Eta Edward Wayson.

The University of North Carolina, Charlotte Chancellor Dr. James Woodward followed as the featured speaker and highlighted the planned growth of students to the University as well as a proposal for a new Greek Village on campus. The event concluded with Brother Michael Azarian, National Director distributing roses to the ladies and the presentation of 25 year pins to Brothers.

Brother Geoff Silverstein, Alumni Association President did a phenomenal job in the planning and preparation of the event. This memorable event was an amazing experience, and the Psi Delta Chapter looks forward to its next reunion.

Edward O. Wayson Jr., Psi Delta 1973, former Grand Eta, prominent Annapolis attorney, longtime lobbyist, and an active member of the Maryland Chamber of Commerce died this past December of heart failure. He was 54 years old. Wayson was a partner with the law firm of Cooter, Mangold, Tompert, & Wayson, LLC, and the managing member of Capitol Strategies LLC.

For over 25 years, Edward O. Wayson, Jr., represented over 400 companies and trade associations before the Maryland Legislature and Executive Branch on behalf of numerous interests. Ed had expertise in a myriad of client matters ranging from gaming, interest rates, insurance coverage, education, energy development, and telecommunication systems. Further, he had represented several distinguished companies in the State of Maryland on diverse interests and concerns wherein clients signify local political jurisdictions, top non-profit organizations, and multi-faceted corporations.

Since 1980, Ed had been the primary closing counsel for several major financial institutions, several political jurisdictions, and was qualified to close public and private bonds by the "American Bond Board Books".

Ed was an active member of the Anne Arundel Medical Center Foundation and helped raise funds for the hospital's expansion. Wayson was also a member of the board of the Anne Arundel County Bar Association from 1998 to 2002 and the Annapolis-Anne Arundel Chamber of Commerce from 1998 to 2001. He was also dedicated to supporting and raising funds for the Annapolis Boys and Girls Club, YMCA of Central Maryland, Archbishop Spalding High School and the Smithsonian Environmental Research Center on the Rhode River.

## Below is an excerpt of the words spoken at the funeral of Brother Ed Wayson by Ann Carver on December 7, 2004.

*"Edward O. Wayson - Ed - was indeed an exceptional man - bigger than life - not only in frame, but in his achievements in all walks of life. He was a genuine success.*

*Yet all of us who know Ed know that what truly made him so much bigger than life was something far greater than these external successes.*

*His true greatness was his greatness of heart and spirit.*

*The essential "Ed" was that magnificent heart that overflowed with never ending, unconditional love - for his dear, dear family members (whom he loved more than life itself), for his friends, for Chi Phi Fraternity family, his alma mater, his work, his play - for life itself.*

*It was Ed's free gift of love that made him the rock we could hold to when grief or disappointment or confusion swirled around us. And it was this same love that made him the great gentle bear with twinkling eyes we loved to romp and play with.*

*You knew Ed was always there for you - at the same time he allowed you the freedom to dance your own dance as he danced his.*

*There was a second quality that made Ed so much bigger than life. Ed was on a quest throughout his life - certainly ever since I've known him, and that goes back to 1969- 1970.*

*Ed was quietly and sincerely seeking to find the good.*

*Ed understood that the "nice" and the "good" are two very different things.*

*His vision of the good is quite compatible with the Eastern concept of the sacred in which gods dance as well as wield power and bless. Ed's vision embraces all of life.*

*Ed sought to affirm and strengthen the good in himself, in his relationships of all kinds, in his country's governing institutions, and in the lives of everyone.*

*Ed also understood that much of life is a game. It is play. As Shakespeare wrote, "All the world's a stage, and all the men and women merely players."*

*He recognized the games of life and reveled in the playing. However, Ed knew the difference between the surface games of life and the deep, essential good that gives life meaning.*

*He sought to understand and express that good all his life.*

*And, of course, he did. He expressed the good through his love and all his contributions.*

*And that is why he lives now and will live always - in our hearts and memories. And even beyond those of us who knew him, Ed will live on in the lives of all the people his life touched directly and indirectly.*

*I give thanks with all my heart that Ed was, is, and always will be one of the most important, and glorious, parts of my life - of all our lives.*

*We have been so blessed."*

# Q & A

With John Hembel

JOHN “MAD COW” HEMBEL, NU DELTA 1989 IS THE FASTEST SKIER IN NORTH AMERICA AND THE FIFTH FASTEST SKIER WORLDWIDE. He is also a proud Chi Phi Brother who is arguably one of the Chi Phi’s most successful athletes. Truly a natural, Brother Hembel has had only two days of formal ski instruction in his entire life, yet he has managed to develop an international reputation as one of the fastest skiers in the world.

Brother Hembel recently sat down with the Chi Phi Chakett to share a little bit about his skiing career, life in general, and his Chi Phi experience.

**Chakett:** Tell us a little bit about your skiing career.

**Hembel:** I began skiing when I was four. When I turned seven, my family decided to make Aspen home. This would change my life forever.

Unlike most of my friends, I wasn't involved in the local ski club. Instead I developed my skills exploring as much of the local terrain as I could get away with - some legal, some not so legal. I also found out early on, that I had a great affinity to be airborne, and would seek out every jump on the mountain. This still holds true today.

When I was about eight, my dad and I would tuck down a favorite hill and see how far we could get up the other side. Since he was quite a bit heavier, he had the momentum to make it much further than me, so I would have to ski faster to try to compete. I think I have him to thank for my career as a speed skier.

I got my first chance at a speed skiing race in 1996 in Snowmass, Colorado. With entirely borrowed equipment, I raced to 97 miles per hour, finishing second in what would be considered the "novice" class. I knew I had the skills to be competitive, so I vowed to return for the next race to try for 100 miles per hour. The more races I entered, the more I realized that to ski really fast, I would have to be in the unlimited division, which would require purchasing all of the speed specific equipment, as well as personally making some of the aerodynamic equipment. It took three seasons, but I finally entered my first big pro race in 1998. I did not qualify for the final, but my speed was ninth fastest overall (121 miles per hour in a 123 mile per hour race). All of the top guys congratulated me, and asked me to join them in Europe for "really fast speeds." In 1999, I made the decision to take them up on the offer, and joined the Speed Skiing Pro Tour for the first time.

**Chakett:** You grew up in Colorado, what influenced you to go to college in Florida?

**Hembel:** My family was employed in the

airline industry. Consequently, they were always on the go. I rarely saw either of my parents for more than a few days at a time, which led me to become very self sufficient at an early age. Eventually, they decided to move us to Atlanta to be closer to work, and so that our family could have more time together.

Although I desperately longed for the snow covered peaks of Colorado, I found myself checking out universities in the Southeast. Of all of the schools I visited, Florida State appealed to me more than any, and it was only about a four-hour drive from home. It just felt right. I was also quite young, graduating high school less than three months after my 17th birthday, which I'm sure, looking back, played somewhat of a role in my decision.

**Chakett:** What did you study at Florida State?

**Hembel:** I had originally decided on majoring in business. Being fairly creative and technical, I found interior design/architecture to be a challenging curriculum. My focus throughout my major was primarily architectural, and since FSU didn't actually offer a true architecture degree, I completed the interior design program with the intention of spending an additional year elsewhere and completing a graduate degree in architecture.

**Chakett:** How did living in the South cultivate a skiing career?

**Hembel:** I was really frustrated by not being in the mountains, so I turned to other sports. I excelled at soccer, and BMX racing. The fact that my parents encouraged me to try new things, even when I frequently came home wounded, only furthered my talents.

Since we were an airline family, we made it back to Colorado and Utah frequently for ski trips. I'd spend two to three weeks on skis each winter and spring. Although this doesn't sound like

enough time to cultivate a skiing career, I was very methodical in developing my skills. I would focus on one specific skill and master it each trip. This personal training technique, combined with many of the skills I learned in other sports, enabled me to become as good a skier as many of my friends who never left Colorado. When most of my Florida friends were heading to the beach, I was flying to the mountains!

**Chakett:** Tell us about your family now. Are you married? How does that affect your training and your career?

**Hembel:** Actually, I just got married in May. My wife, Shauna, is very understanding and supportive, and realizes that I have to pursue my dream(s), wherever that may take me. She was able to join me for 10 days in France this season, which I hope will become an annual trip for her. I am fortunate in that she enjoys joining me in the gym for my strength and aerobic training, and loves to spend summer days hiking in the mountains with me, and is always up for a new challenge.

**Chakett:** What are your most significant skiing accomplishments?

**Hembel:** I won my first race in late spring, 1999 in Whistler, British Columbia. I set my personal best speed during the final run of 2002 (153.01 miles per hour), and officially became the fifth fastest skier ever. This gave me the confidence to excel in 2003. Of the nine races during the 2003 season, I was on the podium (placing first, second, or third) eight times, five of which were at the top! I finished that season as Speed Skiing World Cup Champion, and as the fastest skier of the year.

I set an Austrian record in Goldeck, Austria in 2003, which I still hold. In 2004, I set the Swiss record in Verbier, Switzerland. It also still stands. Finally, I still hold the record for the fastest US skier ever at 153.01 miles per hour (246.24 kilometers per hour). I have my sights set on breaking the world record (currently 155 miles per hour).

**Chakett:** What is one of your most significant athletic defeats?

**Hembel:** This season in Verbier, Switzerland the final race run was called off due to variable winds. I was in the lead after all of the top skiers had run, but had to settle for my semifinal result of sixth. I had dominated there in 2004, winning every run, including the final. That's when I set the Swiss record at 201.83 kilometers per hour (125.4 miles per hour).

**Chakett:** What are some of your most fond memories of your days at Nu Delta Chapter?

**Hembel:** Wow! I have a lot of fond memories of my years at FSU, and most involve my experiences at Chi Phi. I looked at a few different fraternities during my orientation week in the summer of 1985. What stood out to me about Chi Phi was the personable nature of the Chi Phis that I met.

One of the memories that stands out most, is our tradition of singing "Piano Man" at midnight during any weekend party. Another was my ability to participate in a wide variety of sports through the Chapter's intramural teams. One of

the Brothers, John Turla, and I played intramural billiards, and won the all-campus championship in doubles two years in a row.

My "Big Brother," Charlie Dunham, was my most significant influence at FSU.

**Chakett:** What ski equipment do you use? Why?

**Hembel:** I am sponsored by Atomic Skis, Toko Ski Wax, and Marmut clothing, among others. The first race I won in 1998 was on Toko wax, but my race technician switched me to Swix in 1999 due to a local offer of sponsorship. It wasn't until 2003 when I switched back to Toko, that I started winning again. They are distributed by Climb High Inc., in New York, who also distributes Marmut clothing. They offered me a great sponsorship deal, which I readily accepted given the quality of their products. I have been with Toko for three seasons, and with Marmut for two. My other sponsors include Aspen Skiing Company, Ogio travel bags, John Brooks Fabrics Inc., Bergamo Fabrics, Sahco, Rubelli, and my biggest sponsor; Clear-Vu Window Tinting, which happens to be my company.

**Chakett:** What are your favorite North American resorts?

**Hembel:** My favorite would have to be my home resort of Aspen/Snowmass, with a big emphasis on Snowmass. Most people think of Snowmass as being a family resort, but it has some of the most amazing off piste terrain in the country, as well as perfectly groomed trails for the not so daring. And, the night life in Aspen is far superior to any other resort.

I'm also a big fan of Whistler, BC and of all the resorts around Salt Lake City. Whistler is a huge resort with widely varying terrain. All the Salt Lake resorts are fabulous, and differ in their own way. Plus Salt Lake resorts see over 500 inches of annual snowfall, which makes for some great powder days!

**Chakett:** What's your favorite Warren Miller movie?

**Hembel:** Although I see all of his movies when they are previewed in Aspen prior to the ski season, I don't own a single movie. All of the recent movies have had some incredible footage, and I love to watch them prior to hitting the slopes to get amped for the season. Many of my friends are in both Warren Miller's movies and Matchstick Production's movies, but I have yet to be seen in one ... My time will come!

**Chakett:** What is your most embarrassing ski moment? Ever fall off a lift?

**Hembel:** No, I never fell off a lift but as a child I did get stuck on one once. I was dangling 6' in the air calling for help. I would have to say that my most embarrassing ski moment came when I was in high school. It snowed at least 10 inches in Georgia, so I got out my gear and went to the nearest hill, which happened to be on a golf course. I skied down the hill and jumped the lip of a sand trap, spinning a helicopter (a 360 degree spin) in the process. Unfortunately I didn't make it and landed backwards, filling my pants with sand. My friends got a good laugh.

**Chakett:** Why are you called “The Mad Cow?”

**Hembel:** It’s all about the udders! No, seriously, during my first season competing in Europe, I was hanging out and practicing in Vars, France. I became friends with a local kid who happened to be a speed skier. He was trying to help me learn more French, and knowing that I had a phrase book, he asked me to try to put together a phrase or two from the book each night and try it out on him the next day. I agreed, and that night learned how to say “I think I have mad cow disease” (since it was an epidemic during 1998 and 99). The next day during practice, I yelled it to him, and gave out a big bellowing “MOOOOOOOO” and immediately sped down the course. I had a spectacular run, and continued the exclamation prior to each subsequent run. The French began calling me “La Vauche Folle” (The Mad Cow), and it stuck!

**Chakett:** What’s your fastest recorded time?

**Hembel:** My fastest speed is 246.24 kilometers per hour, which is about 153.01 miles per hour. The world record is currently 155 miles per hour, but I plan to beat that if given the opportunity.

**Chakett:** What was it like to break the 200 kilometers per hour barrier?

**Hembel:** For most speed skiers, 200 kilometers per hour (124.3 miles per hour) is their first major goal. Since I am a skier from the United States, for me it was 100 miles per hour, then 110, then 120, 130, and so on. Big, round numbers are sought after in most sports. Since the worldwide list of fastest skiers starts at 200 kilometers per hour, any skier who wants a name for themselves must make 200 kilometers per hour.

My first experience near the 200 mark was at Snowmass in 1999 when I skied 196 kilometers per hour. I then traveled to Vars, France, where we were training at

speeds over 210. I was happy to have skied that fast, but it didn’t seem challenging. I felt challenged for the first time when we began skiing over 220 kilometers per hour (136 miles per hour+), but I have since gotten used to these speeds. Anymore, I feel like races aren’t fast unless they are not over 225 kilometers per hour.

**Chakett:** As someone who is part of the 200 club, what was it like to witness Michael Milton’s entry into it as well?

**Hembel:** I was overjoyed that Michael achieved that goal this year. His ability is outstanding. He is as strong a skier as I have ever known, and the fact that he only has one leg, makes his accomplishments even more amazing. It’s not hard to see why Michael was voted the Laureus World Athlete of the Year with a Disability (2002).

**Chakett:** What do you do when you are not skiing?

**Hembel:** My residential and commercial window tinting business keeps me fairly busy throughout the year, but I definitely find time for additional activities. I volunteer for Mountain Rescue Aspen, which is an on call organization (24 hours a day, 7 days a week) dedicated to saving lives in the backcountry. I have been involved with MRA (Mountain Rescue Aspen) for four years.

In the summer months, I ride bulls in the local rodeo and go extreme four wheeling as much as possible. I also mountain bike and hike whenever possible. I try to use some of these activities as cross training for skiing, but I find myself in the gym three to five days per week regardless.

**Chakett:** What advice would you give to today’s Chi Phi Undergraduates?

**Hembel:** Find your passion for life, and pursue it!

# “Green Gate”

## Mu Chapter’s House and the Building Fundraising Campaign

MU CHAPTER, CURRENTLY THE 15TH OLDEST CHAPTER OF CHI PHI, WAS CHARTERED AT STEVENS INSTITUTE OF TECHNOLOGY, HOBOKEN, NEW JERSEY, IN 1883. Stevens, now a well known college of engineering and science, had only been in existence for 13 years when a small group of students petitioned for their charter. Growth was slow, and for the first few years the chapter struggled to find a suitable home.

### **A reproduction of a postcard from 1910 of Green Gate**

Much of the land around the current college was owned by the college founders. In 1889 the parcel now owned by the Mu Chapter was sold off by the Stevens family and subsequently changed hands a number of times. In 1900, the lot at 801 Hudson Street was purchased by Philip W. Roos. Roos was from Germany and began his architectural practice in 1893. He joined with Hugh Booraem to form Roos and Booraem. Their practice was successful, and they designed many notable residences.

In 1906, Roos designed and built his home at 801 Hudson Street, joining with others in the area to create an affluent, German-influenced neighborhood. The Roos family’s financial fortunes began to falter, however, and by 1913, he was selling off many of his property holdings, including 801 Hudson Street. In November 1914, that property was purchased by the Mu Alumni Association for \$22,600.

Roos reportedly spent \$60,000 building

the house on 801 Hudson Street. The architectural home exhibited classical styling and rich period detail. The living room and halls were trimmed with solid mahogany, the floors and trim of other rooms in oak. The dining room ceiling was oak beamed, with burnished leather between, and the fireplace mantels were made of imported marble. The exterior consisted of walls of white brick and a red tile roof. There were leaded glass windows, and the living room contained built-in bookcases with leaded glass panels. The house was quite unique in that it was built as “fireproof” construction, utilizing reinforced concrete, steel, and hollow tile.

Clearly the house was built to last. The demands on a structure multiply however, when used as a fraternity house. The house originally built by Roos (now known as “Green Gate” because of the former Stevens campus entrance gate, built of green serpentine rock, adjacent to the house) has been the Mu Chapter house for over 90 years.

The Mu Alumni Association (Association), as property owner, has worked diligently to maintain the house. During the past 20 years, the Association has been particularly proactive. Through prudent financial management, they have facilitated an ongoing building fund, established in the by-laws and designated specifically for major renovations and improvements. In the past ten years over \$200,000 has been spent on eight major projects, the largest and most recent being the installation of a fire protection system for \$135,000.

A fire sprinkler system was mandated by the State of New Jersey, but the Association decided to upgrade the entire system with new smoke detectors, pull stations, and state of the art controls. Originally, the project was to be done by the College (Stevens) in concert with their fire protection work in the six other campus fraternities owned by the college. The Association researched the entire situation and determined that they could purchase a better system for less cost by going out on their own, which they did.

Our fraternity is one of only two houses not owned by the college. We are determined to remain masters of our own domain. A \$60,000 low-interest loan from the State supplemented money from our building fund.

In order to ensure that the house is properly maintained, two studies were commissioned by the Association: an historical study of the house and property, and a comprehensive engineering analysis of the structure. The historical study was completed in 2000, and the engineering

study completed in 2002.

The historical study covers the architecture, history, and cultural significance of “Green Gate” and serves as a guide to future work, allowing us to preserve and restore important features, while being able to renovate and upgrade other less significant features without sacrificing the building’s historic integrity. Our “Green Gate” is located within the Stevens Historic District, which has been found eligible for the National Register of Historic Places. The Association has not sought historic designations because of the potential limitations that brings.

The engineering report by AEP Associates, Inc., provides specific recommendations and cost estimates for needed repairs and improvements. The proposed work is broken down into three priority levels, covering three time frames: Level ‘A’ is work that should be completed within two years; level ‘B’ is work that should be completed within five years; and level ‘C’ is work that should be completed within ten years. Level ‘A’ totals \$168,000, level ‘B’ \$391,000, and level ‘C’ \$619,000.

Funding for all building improvements to date has come primarily from our regular alumni dues and the rent paid by actives. These funds are not adequate for the major work that is now needed, so we have initiated a Building Fund-Raising Campaign with a goal of \$800,000. The campaign was officially introduced at the Mu Alumni Ball on November 3, 2004.

A Building Fund Raising Campaign Committee (Committee) has been formed to oversee the effort. The Committee reports to the Mu Alumni Association Executive Council-the policy and decision making body of the Association, which will continue to make all final decisions on building fund expenditures. The Committee is sub-divided into a number of sub-committees and headed by two co-chairs. The Committee will very likely be supported by a professional fund-raising consultant. Proposals from two consultants are under review.

The Committee has developed a Plan and Procedures Manual, which has been reviewed and approved by the Association Executive Council. The Manual details the

purpose and organization of the Committee and sets forth procedures for budgeting, correspondence, expense reimbursement, solicitations, donations, recognition, disbursements, and reporting. Donations may include immediate cash payment, pledges for payment over a period of years, or bequests.

The Chapter has about 600 living alumni, and each year we receive dues from about 100 of these. In order to meet the campaign goal it is clear that we need to reconnect our alumni and motivate them to contribute to the building fund. The first step is to provide complete and accurate information about the campaign. So far, in addition to the Plan and Procedures Manual, we have developed a very engaging Power Point slide show, a display board, a CD for mailing, and a special section of the alumni web site. A brochure for mailing is being developed. The second step is to get this information to the alumni. The cam-

paign has already been highlighted at four events held by the association, and we have published articles in the alumni newsletter.

The key to the campaign is personal contact. This will be done primarily through recruitment of class reps to personally contact their classmates. We have also divided the alumni into geographic regions. Regional coordinators will be asked to personally invite alumni to regional events where the slide show and other information will be presented.

While the campaign has just begun, we have already received some significant contributions. We are confident that the financial goal will be met. But a second and equally important goal is to reconnect the alumni with the house and with each other-rekindling the spirit of brotherhood-and that is the fun part of this campaign.

Learn more about the campaign and keep up to date with our progress at [www.mualumni.org](http://www.mualumni.org).

# Alumni Notes

Received by the National Office  
November 16, 2004 - May 31, 2005

## Send Us Your Cards and Letters!

Recently married? New job? Relocation? New additions to your family?

We'll help you stay in touch with your Brothers by printing an update of your news in the next Chakett!

Your Brothers want to hear from you!! Just drop a note to the Chi Phi national office, send us an email, or visit our website at [www.chiphi.org](http://www.chiphi.org). We'll take care of the rest!

**P.S. Photographs, of course, are always welcome! Please be sure to include caption(s).**

### ALPHA CHAPTER

*University of Virginia*

**Mr. Gregory D. Fleming**, *Alpha 1995*, was married to Shannon McManus in Blowing Rock, NC on December 4, 2004. He is now an attorney for BB&T of Virginia, handling commercial real estate and asset based lending matters.

**Mr. Jared S. O'Connell**, *Alpha 2002*, is working for J.P. Morgan in Australia.

### BETA CHAPTER

*Massachusetts Institute of Technology*

**Mr. Dennis E. Cook**, *Beta 1962*, is preparing for his 7/1/05-6/30/06 term as District Goremán of Rotary District 5010, which includes Alaska, Yukon Territory and all of Russia east of the Ural Mountains. The district is Rotary's largest, covering 11 time zones. Visiting the 70+ clubs, 35 in Russia, is a challenge.

### EPSILON CHAPTER

*Hampden-Sydney College*

**Mr. Christopher P. Stuart**, *Epsilon 1987*, just returned from an extended deployment in support of Operation Iraqi Freedom/ Operation Enduring Freedom as Damage Control Assistant in USS ESSEX (LHD 2).

### ETA CHAPTER

*University of Georgia*

**Judge Jesse G. Bowles**, *Eta 1946*, retired from the practice of law in 2002 after 56 years. He also served as a Justice on the Georgia Supreme Court from 1977-1981.

**Mr. James H. Davis Jr.**, *Eta 1999*, is working in sales in Atlanta, GA. Just got engaged a month ago to a Vols-family is divided now.

**Judge Albert M. Pickett**, *Eta 1963*, will retire from active service as Superior Court Judge December 31, 2004, to serve thereafter as Senior Judge, after 25 years of active service.

**Mr. Senour H. Reed**, *Eta 1979*, married Camille Williams of Pensacola in 1999. Great memories of times spent at the Chi Phi house at UGA. All the best to the order!

### THETA CHAPTER

*Rensselaer Polytechnic Institute*

**Mr. Peter W. Sachs**, *Theta 1986*, is living near the beach in Maine. One wife - three kids- or is it the other way around? Coaching sports and waiting for all this snow to melt! To all Theta Alumni: Baruba!!

### IOTA CHAPTER

*Ohio State University*

**Mr. Steven J. Allread**, *Iota 1997*, just moved back to the Columbus area to try my hand at Institutional Fixed Income Sales after having been a trader in Chicago for the last 7 years.

**Mr. Christopher T. Beutel**, *Iota 1992*, is currently a Vice President with Wachovia Securities in Jacksonville, FL. Wife Krista, son Tyler and Christopher in January celebrated the birth of their first daughter, Katherine.

**Mr. John D. Collier**, *Iota 1986*, was engaged on November 20, 2004, with a spring 2005 wedding planned with Leenadra Heaton and her 3 children, Tim, Tyler and Brynna.

**Mr. Howard F. Ott**, *Iota 1946*, just completed 10 years with his own company Hott Associates with 80 employees.

**Mr. Michael R. Waickman**, *Iota 1997*, and his wife are celebrating their 7th anniversary in September 2005. They have also become licensed for foster parenting. Michael is still very active with his chapter, serving as Alumni Association President for the last 4 years.

**Mr. Michael R. Waickman**, *Iota 1997*, and wife, Lisa, became parents. April 1st they were blessed with Kevin and Alexis. They are foster parents for the Franklin County Children Services. Kevin and Alexis will turn 3 and 2 in July.

**KAPPA CHAPTER**  
*University of Wisconsin*

**Mr. Beau J. McCullough**, *Kappa 2003*, and his wife, Miquela are the proud new parents of twin boys, Anthony and J.J. They recently relocated to Beloit, WI, where he is working as a middle school guidance counselor.

**LAMBDA CHAPTER**  
*University of California, Berkeley*

**Mr. Matthew E. Cardiel**, *Lambda 1992*, has a 6 year old son and is currently deployed in Afghanistan as part of a Military Intelligence Unit out of Hawaii.

**Mr. James R. Moore**, *Lambda 1933*, has become a great grandfather for the ninth time.

**Mr. Michael N. Santos**, *Lambda 1978*, and his wife Cappi and daughter Francesca moved to San Francisco this summer and are enjoying the convenience of city living. Francesca is a freshman at St. Ignatius High School and dad is still slaving away in the hedge fund business.

**MU CHAPTER**  
*Stevens Institute of Technology*

**Mr. Robert Budell**, *Mu 1944*, regrets not being able to attend the Mu Alumni event in Williamsburg, VA, last May.

**NU CHAPTER**  
*University of Texas*

**Mr. F. Irby Cobb**, *Nu 1934, Xi 1933*, died November 19, 2004.

**XI CHAPTER**  
*Cornell University*

**Mr. Neil H. Harris**, *Xi 1977*, graduated from Wharton School of the University of Pennsylvania with an executive MBA, May 2005.

**Mr. Jonathan M. Pearlstein**, *Xi 1995*, and his wife, Michele, now have a 1-year old daughter named Isabella. Recently appointed leader with American Express Financial Advisors.

**RHO CHAPTER**  
*Lafayette College*

**Mr. Michael A. Altmeier**, *Rho 2004*, is working in a Philadelphia Animal Hospital as a technician and applying to vet schools.

**SIGMA CHAPTER**  
*University of Illinois*

**Mr. Jeffrey D. Corso**, *Sigma 1986, Iota Delta 1986*, joined Swanson Martin & Bell's Chicago office as a litigation partner. Jeff and his wife, Kerri, are also enjoying time with their 2 children, Max Nathaniel (2) and Emerson Grace (1).

**TAU CHAPTER**  
*University of Alabama*

**Mr. Charles G. Capps**, *Tau 1981*, recently moved to Montgomery to become the Deputy Director of Curriculum for AF Officer Training School,

AFROTC, and AFJROTC. Twenty years in the Air Force. Roll Tide to all my Chi Phi brothers.

**Mr. Ace W. Kinney**, *Tau 1977*, after 12 years out of education, is back teaching high school and coaching football and baseball, and having the time of his life. Son, Jacob, is in college now, and daughter, Morgan, is in high school and turning 16.

**PSI CHAPTER**  
*Lehigh University*

**Mr. Alan A. Abels**, *Psi 1974*, elected Briarfield (Psi Alumni Corporation) at the recent spring meeting. In January he became the Chief Financial Officer of Wilson Logistics, Inc.

**Mr. Scott W. Stebbins**, *Psi 1977*, has recently relocated to Bethlehem, PA.

**OMEGA CHAPTER**  
*Georgia Institute of Technology*

**Mr. Mark N. Meriaux**, *Omega 1991*, and Stacy are pleased to announce the birth of our daughter, Sarah Elizabeth Meriaux on October 20, 2004.

**ALPHA-TAU CHAPTER**  
*University of Michigan*

**Mr. Millard B. Hahn**, *Alpha-Tau 1933*, just reached 94 years of age.

**Mr. Steven W. Hays**, *Alpha-Tau 1987*, and his wife, Carrie, proudly announce the birth of their son, Robert Wesley Hays, on December 20, 2003.

**ALPHA-CHI CHAPTER**  
*Ohio Wesleyan University*

**Mr. Terence W. Holusha**, *Alpha-Chi 1999*, is engaged to a wonderful young lady by the name of Cati McCrae. He has also just

received a promotion to a sales researcher at CDS Digital Media in Tereboro, New Jersey.

**Mr. Dana A. Jackson**, *Alpha-Chi 1969*, retired from teaching Special Education in Boston for 30 years, but continues doing volunteer and part-time work at the Dana-Farber Cancer Institute.

**Mr. Erinn P. Nicley**, *Alpha-Chi 1995*, has joined the US Foreign Service and currently working at the State Department headquarters in Washington, DC. His wife, Shala, is finishing the last year of her PH.D. program in Evolutionary Biology at Clemson University, SC.

**ALPHA DELTA CHAPTER**  
*Pennsylvania State University*

**Mr. Corey L. Laprade**, *Alpha Delta 2001*, has a new wife, Sonya, a new home, a new job with Legg Mason and a daughter on the way.

**EPSILON DELTA CHAPTER**  
*Oregon State University*

**Mr. Elden M. King**, *Epsilon Delta 1951*, says, Epsilon Delta needs to get the 50's members together again!!

**Mr. Danford A. Moore**, *Epsilon Delta 1962*, has 2nd grandson, Dawson Jarrett Moore, born February 25, 2004. Daughter married, 5 grandchildren. Family is in Port Orchard, WA, Spokane, WA, & Corvallis, OR. He still bicycles, swims, square dances and vegetable gardens. Still song leader of Port Orchard Rotary Club. He and Frances have been married nearly 42 years and travel now & then. Promoted to Senior Engineer last year.

**Mr. Jonathan M. Sandlin**, *Epsilon Delta 1998*, and his wife, Megan, had their first child, Hunter James Sandli, born May 22, 2004.

**ZETA DELTA CHAPTER**  
*University of Connecticut*

**Mr. Kenneth T. Bradley**, *Zeta Delta 1986*, and Wendy Bradley live in Brookfield, CT, with their children Geoffrey, Katie, and Joey. Ken is President of Eschenbach Optik of America, a North American distributor of magnifying vision aids for the visually impaired.

**Mr. William F. Hapeman**, *Zeta Delta 1989*, and Chalotte will be married in June 2005.

**Mr. Scott A. Miller**, *Zeta Delta 1988*, and his wife, Karen, welcomed new daughter, Marissa Sylvia, on March 30, 2005. She joins brother, David, born September 1, 2003. After 8 years at IBM, Scott has been in computer consulting since 1997 and has been consulting at IBM since February 2002.

**ETA DELTA CHAPTER**  
*University of Southern California*

**Mr. John D. DeFrance**, *Eta Delta 1992*, and Jane W. Kim are thrilled to announce the birth of their daughter, Fiona Young, born November 24, 2004, and weighed 6 lbs., 11 oz.

**Mr. Said Djabbari**, *Eta Delta 1980*, has been married for 16 years to Azita. One son Cyrus now 10 years old.

**Mr. Douglas A. Rothschild, Esq.**, *Eta Delta 1992*, has recently joined the Law Offices of Michael A.K. Dan, located in Los Angeles. Previously, Doug was with the Santa Monica law firm of Paul & Janofsky.

**THETA DELTA CHAPTER**  
*University of Florida*

**Mr. Bret A. Bosker**, *Theta Delta 1994*, and Mari have a new addition to the family, Drew Alan Bosker, who arrived May 2004. Mari is still working at the United Way and Bret is

still practicing family law at Peltier and Associates in Houston, TX.

**Mr. David A. Hersh**, *Theta Delta 1996*, has been married almost 3 years to Tamara, who he met at UF. They have a 10 month old daughter named, Lindsay.

**Mr. Todd D. Klimson**, *Theta Delta 1992*, is the current COO of and Founder of won etate planning firm and attending Law School in 2005.

**Mr. James W. Marsden**, *Theta Delta 1983*, expecting first baby in December. Currently working at Kaiser Permanente in So Cal., and just finished rebuilding our home this year.

**Lt. Cdr. Bradley N. Mason**, *Theta Delta 1982*, has been retired from the Navy for 2 years. Survived Hurricane Ivan with minimal damage. Teaching flight simulators for Lockheed Martin.

**Mr. O. J. McGill**, *Theta Delta 1950*, and wife, Margaret, will be celebrating their 50th wedding anniversary on April 19, 2005.

**IOTA DELTA CHAPTER**  
*Indiana University*

**Mr. Marvin R. Richards**, *Iota Delta 1991*, recently moved back home to Indianapolis from Phoenix. Still active in real estate development, with a new international arts project developing a 200,000 sq foot retail project that will highlight arts and crafts from all over the world.

**RHO IOTA KAPPA CHAPTER**  
*University of Rhode Island*

**Mr. Paul A. Chassey**, *Rho Iota Kappa 1965*, has retired after 35 years with Transamerica Life Co. and now living in the high desert- Apple Valley CA.

**Mr. David M. Mard**, *Rho Iota Kappa 1991*, is enjoying life in Southern CA. Married with 2 daughters, 1 1/2 and 3 1/2. Best wishes to PIK and all of Chi Phi.

**ALPHA THETA CHI CHAPTER**  
*University of Nebraska*

**Mr. David R. Bloomquist**, *Alpha Theta Chi 1999*, and his wife Amy announce the birth of their first child, Garren David Albrecht Bloomquist. Born February 17, 2005 in Lincoln, NE.

**Mr. Robert P. Ellis**, *Alpha Theta Chi 1988*, is living in Omaha with wife Sheila, daughter, Kendall (9), & son, Blake (6). Enjoying coaching the kids in soccer and basketball.

**Mr. James P. Hammond**, *Alpha Theta Chi 1998*, was engaged in April and in May graduated with a Master of Business Administration from Creighton University.

**Mr. Mark J. Zmarzly**, *Alpha Theta Chi 1998*, will be graduating with a Master of Arts degree (English) on May 7, 2005, and has accepted a job as an editor with Haberfeld Associates in Lincoln, NE.

**LAMBDA DELTA CHAPTER**  
*University of Arizona*

**Mr. Jeffrey E. Petrovic**, *Lambda Delta 1994*, just moved from Houston to Denver, CO. Jeff is the new Director of the Light The Night Walk benefiting the Leufemia & Lymphoma Society in Colorado. He is also a weekend air personality at MIX 100-KIMN, Denver.

**MU DELTA CHAPTER**  
*Auburn University*

**Mr. Donald W. McDaniel**, *Mu Delta 1992*, and wife Niccole welcomed their first child, Bailey Niccole, to the world January 11,

2005. Don is the President of a full line vending and snackfood distribution business. Niccole is a school nurse for the Albertville City school system. WAR EAGLE!!!

**Mr. Kevin B. McNeill**, *Mu Delta 1996*, has a new daughter, Ana Grace, born July 5, 2003.

**Mr. Bryan D. Schreiber**, *Mu Delta 1992, Iota 1994*, is still living north of Atlanta in Alpharetta, GA. He and Heather have been married almost 6 years and two amazing children. Their daughter, Virginia Grace, turned three in March 2005 and they have a future Chi Phi, Beckett Locke, born April 7, 2005. To all his brothers serving the US in the Middle East and elsewhere...stay safe and thank you for your service!

**NU DELTA CHAPTER**  
*Florida State University*

**Mr. David L. Burrows**, *Nu Delta 1997*, graduated in December 2004, with my Ph.D. in Biomedical Science with a concentration in Pharmacology/Toxicology from East Tennessee State University. His wife, Kimberly, also graduated with her MBA in Healthcare Management.

**Mr. John P. Cronin Jr.**, *Nu Delta 1974*, deceased-Date unknown.

**Mr. John R. Hembel**, *Nu Delta 1989*, lives just outside of Aspen, Colorado, and is living his dream. He is Owner/operator of Clear-Vu Window Tinting and still finds time to be one of the top rated skiers in the world. He is Speed Skiing's 2003 World Champion, and holds the US record at 153.01 mph!! John will be competing to break the world record (155mph) this April in Les Arcs, France. Check out: [www.madcowracing.com](http://www.madcowracing.com) for more info.

**Mr. Orlando J. Perez**, *Nu Delta 2004*, since graduating from Florida State, has moved to New York City and is working in advertising. Life is good and keeping him very busy.

**Mr. Michael S. Rittberg**, *Nu Delta 1990*, just married Tami Levy on August 28. Currently employed as VP Promotion for Warner Brothers Records.

**Capt. Jesse R. Wentworth II**, *Nu Delta 2002*, is back in the Middle East.

**SIGMA DELTA CHAPTER**  
*University of California, Davis*

(Georgia residents add \$1.50 tax.)  
Softbound edition \$15  
(Georgia residents add \$0.90 tax.)**

Purchases can be made  
by sending a check to the Chi Phi Educational Trust  
or calling 404.231.1824 to place your order.

# Chapter Eternal

AS REPORTED TO THE NATIONAL OFFICE FROM NOVEMBER 16, 2004 - MAY 31, 2005

**ALPHA CHAPTER** *University of Virginia*

Mr. Harry H. Scott, Alpha 1952, Eta Delta 1952,  
died September 17, 2004.

Mr. Horace D. Worman, Alpha 1950, died March 28, 2005.

**BETA CHAPTER** *Massachusetts Institute of Technology*

Mr. Malcolm T. McCants, Beta 1940, died May 14, 2004.

Mr. Christian L. Rust, Beta 1949, died February 8, 2005.

**GAMMA CHAPTER** *Emory University*

Dr. Gerald T. Bunn, Gamma 1960, Eta 1960, date unknown.

Dr. Hugh Crawford, Gamma 1938, died March 1, 2000.

Dr. William M. Lester, Gamma 1941, died June 7, 2004.

Mr. E. Chappell White, Gamma 1940,  
died November 2, 2004.

Dr. John G. Youmans, Gamma 1942, died March 1, 2004.

**DELTA CHAPTER** *Rutgers University*

Mr. William L. Annett, Delta 1940, died November 2, 2004.

Mr. Frank E. Pennington, Delta 1937,  
died September 7, 2004.

**EPSILON CHAPTER** *Hampden-Sydney College*

Dr. Robert E. Mitchell Jr., Epsilon 1940,  
died January 15, 2004.

Dr. Douglas Venable, Epsilon 1942, died January 7, 2005.

**ZETA CHAPTER** *Franklin & Marshall College*

Mr. John F. Jefferson, Zeta 1954, died September 1, 2004.

Mr. Henry H. Stewart Jr., Zeta 1959, died May 26, 1999.

**ETA CHAPTER** *University of Georgia*

Mr. Julian S. Daley, Eta 1950, died May 2005.

Mr. R. Clyde Williams, Eta 1956, died January 4, 2005.

**THETA CHAPTER** *Rensselaer Polytechnic Institute*

Mr. Hugh A. Williams, Theta 1944, died September 25, 2002.

**IOTA CHAPTER** *Ohio State University*

Mr. Clyde C. Beery, Iota 1932, died December 13, 2004.

Mr. Don Duffy, Iota 1939, died no date given.

Dr. Robert E. Johnston, Iota 1948, died February 12, 2005.

Mr. William L. Snyder, Iota 1949, died September 13, 2004.

**KAPPA CHAPTER** *University of Wisconsin*

Mr. Gordon P. Anderson, Kappa 1962,  
died February 17, 2004.

Mr. John E. Bentley Jr., Kappa 1944, date unknown.

Mr. Alvin C. Gillett, Kappa 1936, date unknown.

Mr. Lew F. Porter, Kappa 1940, died April 2, 2004.

**LAMBDA CHAPTER** *University of California, Berkeley*

Mr. Joseph P. Bingham, Lambda 1956,  
died February 4, 2005.

Mr. Kenneth G. Gilliland, Lambda 1950,  
died December 31, 2004 at the age of 80 years old.

Mr. Donald C. McNear, Lambda 1953,  
died September 6, 2004.

Mr. George W. Nickel Jr., Lambda 1938,  
died August 3, 2004.

**MU CHAPTER** *Stevens Institute of Technology*

Dr. William H. McLean, Mu 1931, died October 29, 2003.

**NU CHAPTER** *University of Texas*

Mr. Laurence S. Bosworth Jr., Nu 1949,  
died November 26, 2004.

Mr. William M. Byrd, Nu 1953, died April 25, 2005.

Mr. William R. Keeble Jr., Nu 1944, died December 2004.

Mr. Lawrence H. Kriegel, Nu 1938, date unknown.

Mr. Patrick H. Power, Nu 1952, date unknown.

**XI CHAPTER** *Cornell University*

Mr. Percy H. Ballantine, Xi 1937, died February 11, 2002.

Dr. Hugh N. Bennett, Xi 1943, date unknown.

**OMICRON CHAPTER** *Yale University*

Mr. Henry A. Mattoon Jr., Omicron 1935, died March 2004.

Mr. John G. Welles, Omicron 1946, died December 2002.

**PI CHAPTER** *Northwestern University*

Mr. Robert E. Akins, Pi 1969, died November 3, 2004.

**SIGMA CHAPTER** *University of Illinois*

Mr. Morgan W. Richards, Sigma 1940, died August 3, 2004.

Mr. Robert J. Simon, Sigma 1939, date unknown.

Mr. James A. Smith, Sigma 1943, date unknown.

Mr. Richard C. Williams, Sigma 1957, Pi 1958,  
date unknown.

**PHI CHAPTER** *Amherst College*

Mr. Milton N. Lanning, Phi 1941, date unknown.

Mr. Harry A. Thomas, Phi 1951, died October 22, 2004.

**CHI CHAPTER** *Dartmouth College*

Mr. Charles F. Belcher, Chi 1938, died 1994.

**PSI CHAPTER** *Lehigh University*

Mr. Daniel Callahan, Psi 2001, died January 30, 2005.

**OMEGA CHAPTER** *Georgia Institute of Technology*

Mr. Henry C. Buttery Jr., Omega 1945,  
died December 5, 2004.

Mr. Braxton B. Comer IV, Omega 1960,  
died August 18, 2004.

Mr. A. Sidney Eberhart Jr., Omega 1947, date unknown.

Mr. Desiax R. Marsden, Omega 1949,  
died December 8, 2004.

Mr. Robert O. Seitz Jr., Omega 1968, died November 24,  
2004, of Lymphoma.

Mr. Dan P. Shepherd, Omega 1950, died June 16, 2004, at  
home, after a courageous struggle with cancer.

**ALPHA-ALPHA CHAPTER**

*University of North Carolina, Chapel Hill*

Mr. Robert W. Dixon, Alpha-Alpha 1959, died April 27, 2002.

**ALPHA-MU CHAPTER** *Duke University*

Mr. Gerald L. Griffin, Alpha-Mu 1940, died March 22, 2004.

**ALPHA-PI CHAPTER** *Vanderbilt University*

Mr. Davis A. Clark, Alpha-Pi 1933, died March 1, 2005 at the  
age of 93. He is survived by his wife of 64 years, Frances,  
a son, Bill Clark and a daughter Ann Clark Gay. He had 5  
grandchildren and 4 great grandchildren.

**ALPHA-TAU CHAPTER** *University of Michigan*

Mr. Robert Windsor, Alpha-Tau 1940, died May 2, 2003.

**ALPHA-CHI CHAPTER** *Ohio Wesleyan University*

Mr. Roland A. Catalano, Alpha-Chi 1962,  
died March 7, 2004.

**ALPHA DELTA CHAPTER** *Pennsylvania State University*

Mr. Robert C. Bokum, Alpha Delta 1931,  
died December 11, 2004.  
Mr. J. Willard King, Alpha Delta 1932, died 2001.

**BETA DELTA CHAPTER** *University of Washington*

Mr. Duane L. Crosier, Beta Delta 1951,  
died August 29, 2004.

**GAMMA DELTA CHAPTER** *University of Minnesota*

Mr. Charles V. Randall, Gamma Delta 1952,  
died March 31, 2003.

**EPSILON DELTA CHAPTER** *Oregon State University*

Mr. Harold P. Bondeson, Epsilon Delta 1934,  
died March 21, 2001.  
Mr. Donald W. Carroll, Epsilon Delta 1950, date unknown.  
Mr. Robert L. Clarke, Epsilon Delta 1958,  
died April 7, 2004.

**THETA DELTA CHAPTER** *University of Florida*

Mr. Kevin J. Cherry, Theta Delta 1975, died February 2005.

**RHO IOTA KAPPA CHAPTER** *University of Rhode Island*

Mr. Jeffrey A. Whitehead, Rho Iota Kappa 2004, died in a  
motorcycle accident on his way to visit a fraternity  
brother on October 23, 2004.

**MU DELTA CHAPTER** *Auburn University*

Mr. Edsel E. Murry, Mu Delta 1969, Tau 1969,  
date unknown.

**NU DELTA CHAPTER** *Florida State University*

Mr. Gary T. Ring, Nu Delta 1979, died January 11, 2005.

**XI DELTA CHAPTER** *Florida Institute of Technology*

Mr. Mark J. Schwartz, Xi Delta 1973, died May 10, 1999.

**SIGMA DELTA CHAPTER** *University of California, Davis*

Mr. John H. Burke, Sigma Delta 1991, date unknown.  
Mr. Larry E. Lasater, Sigma Delta 1993,  
died April 24, 2005.

**PSI DELTA CHAPTER** *University of North Carolina, Charlotte*

Mr. Edward O. Wayson, Psi Delta 1973,  
died December, 2004

**GAMMA ZETA CHAPTER** *University of North Carolina,  
Wilmington*

Mr. Eric L. Laughinghouse, Gamma Zeta 2004,  
died December 22, 2004.

**SHEPHERD COLONY**, *Shepherd College*

Mr. Dane M. Baldoni, Shepherd 2008, died May 29,  
2005 in a camping accident.

# CHAPTER ROSTER

## Essential to a Gentleman's Wardrobe

### THE CHI PHI CUSTOM TIE.

The finest in silk neckwear for the discriminating Chi Phi gentleman.  
Your choice of red, blue, or gold with a pattern of subtle stripes and the Chi Phi crest.

Make a fashion statement while wearing a sign of brotherhood!

Affordably priced @ \$25.00 per tie (Georgia residents add \$1.50 tax.)

Can't decide on a color? Buy in triplicate for \$70.00 (Georgia residents add \$4.20 tax.)

**Purchases can be made by sending a check to the Chi Phi National Office  
or calling 404.231.1824 with your credit card.**

**Spouses and friends, please note that ties are great gift buys for those special occasions!**

*The Men of 1824 is a giving program reserved exclusively for undergraduates and young alumni and promises to foster greater alumni support now and in the future. By making a gift of \$20 or more to the Chi Phi Educational Trust, undergraduate members can join the ranks of Chi Phi's most loyal members and help the Trust provide important support to the Fraternity.*

# *the men of* **1824**

*IF CHI PHI IS NOT JUST FOR FOUR YEARS, BUT FOREVER...  
WHY NOT START TODAY?*

## BE RECOGNIZED AS A DONOR:

- **Individual** - Those who join will be listed in an article in the Chi Phi Chakett and will receive the donor's only magazine True Blue.
- **Chapters/Colonies** - Each year, the Trust will recognize each chapter who achieves 100%, 75%, and 50% participation of their membership.

IF YOU WISH TO BECOME A MEMBER OF THE MEN OF 1824, PLEASE USE  
THE PROVIDED ENVELOPE AND MAKE A NOTE ON YOUR PAYMENT FOR MEN OF 1824.
