the men of 1824 Chi Phi

Class of 2012 is Largest Yet

Under the leadership of Men of 1824 Advisory Council Co-Chairmen Patrick Moriarty, Tau Zeta 2013, and Marcus Powers, Theta Delta 2009, the Men of 1824 Class of 2012 is the largest in Chi Phi history and has raised \$6,215 to support educational programs and scholarships. The Men of 1824 is a special group of undergraduate Brothers and recent Alumni (five years or less since graduation) who share a long-term vision and commitment to Chi Phi by making a financial commitment of \$25 or more to support the overall educational initiatives of the Fraternity. **This year all Men of 1824 gifts made before April 2, 2012, counted towards a Chapter's March Mania Challenge participation and dollar goals.**

“I joined the Men of 1824 because of the experiences and the scholarship that I received from the Educational Trust, and the need to give back to Chi Phi. I requested that my donation support the Epsilon Delta Chapter Excellence Fund in hopes that it can one day support another Brother within my Chapter. If we can start giving back as undergraduate students, then we can help to work our way to strengthening our Brothers and what the Fraternity can do in the future.” - explained Men of 1824 member Tim Chen, Epsilon Delta 2012.

THE CHAKETT GOES DIGITAL

Welcome to the first all-electronic edition of the *Chakett*.

Since 1868, Chi Phi has published a magazine to inform, entertain and connect our members. In the beginning, it was a collection of reports submitted by individual Chapters. Over time, we have produced our publication as a journal, magazine and newspaper. This edition will be entirely digital.

How will the concept be received? We are not certain, but this is an experiment.

Publishing, printing and mailing a 48-page magazine twice a year to 43,000 living alumni costs the Fraternity and Educational Trust more than \$50,000 annually. Most of our inter-fraternal brothers in competitor national fraternities have either abolished their magazines completely or adjusted their distribution policies. They restrict distribution to donors and key volunteers.

We believe this policy is extremely short-sighted. Chi Phi is not for four years, but forever. You deserve information about what is regularly occurring in your Fraternity. The leadership of the Fraternity is committed now, perhaps more than ever, to increase transparency and provide as much information as possible to our Brothers around the world.

That said, it's an expensive undertaking. It is one of the reasons we have undertaken the *Changing Lives Campaign* which has now raised \$6.6 million toward our \$10 million goal. You can learn more about our progress inside and at www.chiphicampaign.com. Creating academic success for our members, building better men, supporting our Chapters and preserving our History and Heritage are the four pillars of this campaign. The *Chakett* falls under the history category.

Fraternally,

J.W. Marriott -
Buckhead in Atlanta, GA

DATES:

June 21 - 24, 2012

ATTIRE:

Congressional sessions, banquets,
and activities are business attire
(coat and tie) events.

In an effort to match the record number of attendees of last year's Congress in Orlando, students, alumni and guests will travel to Atlanta, Georgia to conduct Fraternity business, recognize outstanding students and alumni, and have some fun from June 21 - 24, 2012.

During the four-day event, official Congressional delegates debate policy, enact legislation and set the 2012 - 2013 Chi Phi budget. The annual convention also provides an opportunity to recognize the 2011 - 2012 undergraduate and Chapter award winners. The Fraternity will recognize and honor the 2012 Walter Leland Cronkite Jr. Chi Phi Congressional Award winner during the closing, black tie optional banquet on Saturday evening. A variety of educational sessions and special programs are also scheduled.

Alumni, students and friends can learn more and register for Congress by visiting www.chiphi.org/congress.

**EAST LAKE GOLF CLUB
ATLANTA, GEORGIA**

The Second Annual Watts Gunn Memorial Golf Tournament, hosted by the Chi Phi Club of Atlanta will be held Thursday, June 21, 2012, at East Lake Golf Club. Established in 1904, East Lake is the oldest golf course in Atlanta. In addition to serving as host to the PGA Tour Championship, The Ryder Cup and a variety of other tournaments; East Lake was the home course of Watts Gunn and Bobby Jones. Today golfers have the opportunity to retrace Watts Gunn's footsteps on a world-class par-72 course that stretches over 7,300 yards.

The Tournament raises funds to support the College of Excellence and other Chi Phi leadership development programs and honors Watts Gunn, Omega 1928, known as "The Southern Hurricane." Gunn made golfing history in 1925 in the U.S. Amateur, setting the world record for international championship golf by winning 15 straight holes in the first round of the 36-hole match. In that tournament, he went against friend and rival Bobby Jones, marking the only time two players from the same city ever met for the U.S. Amateur crown. In 1926 and 1928, he played on the Walker Cup teams with Bobby Jones, defeating the British team both years. He played many benefit tournaments, including several exhibitions with Bobby Jones in 1927 and 1928. He won the Georgia State Amateur title in 1927 and 1928, and he has been inducted into the Georgia Tech Athletic Hall of Fame, Georgia Sports Hall of Fame, Georgia Golf Hall of Fame and Southern Golf Association Hall of Fame. Fans can visit the Watts Gunn room at East Lake Golf Club to view his many trophies and awards.

The Inaugural Alphas Academy

This year has proven that a 187 year old organization can still have firsts. One of those firsts was the inaugural Alphas Academy held in Atlanta, Georgia this January where half of all Chi Phi's Chapters and Colonies were represented.

“Alphas Academy has been a wish list program of the Fraternity for over a decade that has finally come to fruition. We believe that preparing our Chapter Alphas to meet the demands of the position is one of the most important things we can do to insure the health and longevity of our Chapters and Colonies”

Grand Alpha, Dr. James Soderquist, Alpha 1967.

Facilitator Tom Healy, from CampuSpeak, mediates the alumni panel.

Chris Shuler, Trust Chairman, delivers opening comments to the Alphas Academy Banquet.

The program was designed to provide both operational position specific tools and leadership development skills to our highest ranking Chapter officers. It was designed to help participants be able to better:

1. Identify the difference between leading and managing and the essential role each plays within their position.
2. Identify and discuss the behaviors involved in being a leader.
3. Identify the leadership behaviors they naturally utilize and those behaviors they could better employ when leading their Chapter.
4. Develop a stronger understanding of their role as Alpha and the operational expectations of the position.
5. Understand the liability and risk associated with being a Chapter Alpha and how to best mitigate such risk.
6. Identify common leadership challenges and how to address them.
7. Have a broader understanding of the Fraternity and the vast alumni network it possesses.
8. Distinguish between the National Fraternity and the Educational Trust and be able to explain the roles each plays.
9. Develop and enact a personal leadership plan to help direct their time as Chapter Alpha.

The curriculum was rooted in James Kouzes and Barry Pozner's leadership theory, which states that there are five behavior categories that successful leaders employ: Modeling the Way, Inspiring a Shared Vision, Challenging the Process, Enabling Others to Act, and Encouraging the Heart. While using this leadership theory as a basis, the program helped Alphas understand the real-life applicability and challenges they will face as a Chapter Alpha. These concepts were communicated during an Alumni Panel, featuring five successful Atlanta area Chi Phi Alumni who discussed how they use the concepts in their careers. A highlight of the program was an evening reception and formal dinner, hosted by Trust Chairman Chris Shuler, Alpha Zeta 1984 featuring United States Marine Corp. Colonel Dale Alford, Alpha Zeta 1986, as the keynote speaker stated, "You need to be a man of exemplary character. Do what's right. Lead with integrity, and lead with honor. It's not easy all the time... Your actions reflect your words – professionally, personally, and spiritually. Your organization will reflect your attitude as the Alpha." The weekend culminated in each Alpha developing a leadership plan for his time in office.

The impact was not lost on the participants, with 100% of the Alphas attending stating that they would recommend the program to future Alphas. "This program was excellent. It helped prepare me to lead my Chapter and motivate my Brothers," stated Keeley Maher, Lambda 2014. While Chris Hibbard, Lambda Theta 2013 and second semester Alpha characterized the program as "life-changing".

Deanne Walters, Director of Undergraduate Services states, "I'm excited to see the long-term impact of this program on the Fraternity but more importantly on the success of our Chapters and Colonies on a local level."

Dr. James Soderquist, Grand Alpha, delivers a speech to start the first day of programming.

Chapter Alphas Kyle Hall, Kappa 2014, and Mario Lento, Xi Delta 2012, at the inaugural Alphas Academy.

Chris Shuler, Trust Chairman, speaks about the Chi Phi Changing Lives Capital Campaign.

Keeley Maher, Lambda 2014; William Correll, Epsilon 2013; Jonathan Perout, Field Executive; David Ebner, Field Executive; and Andrew Kerrigan, Tau Zeta 2013, at the Alphas Academy Banquet.

Chapter Alphas Andrew Lutz, Eastern Illinois University Colony 2012; Chris Hibbard, Lambda Theta 2013; Andrew Kerrigan, Tau Zeta 2013; and James Bishop, Delta Zeta 2013.

Chi Phi Greek Life Museum

by David Ebner

This December 24th Chi Phi Fraternity will be celebrating our 188th anniversary. The world was a very different place in 1824. Chi Phi was founded in a time when the United States had only seen five Presidents, and in the same year the first technical school in the English-speaking world was created in Troy, New York (which today houses the Theta Chapter at Rensselaer Polytechnic Institute). Since this time the world has seen many new creations like the countries of Germany, Italy and Canada; the typewriter, computers, and the light bulb to name a very few.

The Fraternity has a rich history comprised of war heroes, social revolutions and great deeds not forgotten. The Chi Phi Greek Life Museum in the William M. Byrd Chi Phi National Headquarters Building is filled with badges and jewelry once worn by men of the three founding orders, photographs of the twelve apostles of Upsilon and portraits of Chi Phi brothers dressed as Union and Confederate Officers. The Museum also houses historical documents from each Chi Phi Chapter and Chaketts dating back to the late 19th century. These items currently wait steadfastly for a time in which their splendor can be readily enjoyed.

The physical records and archives of the Fraternity have resided in many locations over the years. The original home of the archives along with the National Headquarters was in Lancaster, Pennsylvania. Mainly located in the Zeta Chapter house basement, overseen by Dr. Theodore Appel, Zeta 1889. The National Headquarters moved to Atlanta in 1937, but the archives remained in Lancaster under Appel's son's supervision, Dr. James Appel, Zeta 1928. In 1938 the Grand Council voted to purchase a safe in order to store valuables and Fraternity jewelry. This safe was in use for over fifty years. In 1946, the transfer of the remainder of the archives was made from Lancaster to Atlanta.

Unfortunately many photos, documents and items of memorabilia were damaged heavily by a flood in Lancaster and were unable to be saved. Due to the fact that the staff rarely used the archives and the high cost of keeping them at the headquarters, the items were housed in a storage unit in the basement of an Atlanta building not far from the office. They remained in dark silence there until the early 1980's. The Archives were eventually joined with the headquarters when a more permanent structure was purchased in Lilburn, Georgia just a few miles north of Atlanta in 1998. Finally the records moved with the Headquarters to its current location of 1160 Satellite Boulevard in Suwanee, Georgia in 2007.

GIFTS TO THE MUSEUM

Looking for Contributions: Monetary & Memorabilia

Do you have old photographs, scrapbooks, rush brochures, minute books, correspondence with your university, jewelry, badges or other interesting Chi Phi artifacts? If so we hope you'll consider donating these materials to the Museum. We're especially interested in material related to the local fraternities that eventually became part of the Chi Phi family.

We're always accepting monetary contributions to support the development and maintenance of the Museum. Alumni and friends can make a multi-year pledge or one-time gift by cash, check, credit card, appreciated stock or a variety of planned giving methods to be paid after their death. Individuals can learn more and make their pledge at www.chiphicampaign.com/donate or by contacting:

The National Fraternity and Educational Trust have set a priority to preserve our long heritage and to do so in a manner that matches its significance. The Museum will have public access so that all interested parties can enjoy Chi Phi's heritage. Displays will also house items of historical significance to the entire Fraternity and Sorority movement. Individuals will be encouraged to conduct scholarly research in the museum and they will be able to use the space for other educational purposes. It will be a venue in which both members and non-members can learn and marvel at the influence the Fraternity world has had on America's culture and society. It will also boast the prominence of Chi Phi as one of the nation's greatest fraternal organizations.

The specific types of items the Fraternity would like to catalogue and display in the Chi Phi Greek Life Museum are:

- **The history, music and memorabilia of Chi Phi and other fraternities and sororities.** Examples of this are membership cards that are stored in the Museum. These cards number in the tens of thousands and catalogue every member from 1824 until 1997 when the office switched to digital records. Among these are cards of membership for Robert Baird, Dr. John MacLean and John MacLean Jr. to name a few.
- **The writings, books and accomplishments of members of fraternities and sororities.** This would include writings from alumni like Walter Leland Cronkite Jr.
- **Items focusing on the history of Chi Phi** in the context of Greek letter societies and higher education and their role in American social history; and
- **Other items of significance to the role of college fraternities and sororities**, including the connection between Chi Phi and the Sigma Phi Epsilon Fraternity.

Rows of Chapter files line the Museum.

Chris Hibbard, Lambda Theta 2013; Clark Kjolraug, Omega 2012; and Jonathan Perout, Field Executive, examine historic banquet photos.

To answer the financial needs of the Museum the Chi Phi Educational Trust is working to raise \$500,000 through the *Changing Lives Capital Campaign*. Chi Phi's overall goal is to raise \$10 million to ensure a vibrant future for the organization. The Campaign has shown success so far in raising over \$6.6 million after less than 12 months in the public phase. To date donors have committed \$91,100 to the Museum.

These funds will be utilized to complete the following:

- Renovate the Museum space and install proper environmental controls
- Purchase needed preservation equipment
- Catalogue historic items and develop a comprehensive preservation plan
- Digitize and place historic material online
- Provide ongoing support for material preservation and management needs

Chi Phi Greek Life Museum

< continued from page 13

In December 2009 the Fraternity hired a fine arts exhibit specialist to analyze the feasibility of the project. In turn the specialist submitted a report with his recommendations on the specifications in which the Chi Phi Greek Life Museum should be constructed. Among these guidelines were restrictions on the environment of the room itself. The temperature, humidity and lighting in the Museum must be carefully controlled. In addition, the Museum needs a fire safety system that will not damage items while extinguishing a fire. Displays for key artifacts must also be built to precise detail. Displays should include sensors that indicate when the enclosed items are approaching harmful environmental levels. Display cases that hold material deemed to be extremely sensitive need to be illuminated at low light in order to prevent damage. Fragile materials such as photos and fabric should be rotated to only be on display for a maximum of three months a year.

In order to make the Museum accessible to all members, over a century and a half of documents need to be scanned and a large number of items to be photographed in order to add them to a digital archive. The task of cataloguing all of these items has been estimated to take approximately three years by a professionally certified archivist. The end result will be one of the largest, on-line Greek databases where all members of Fraternities and Sororities can conduct research. The database will be a key factor in the completion of the next installment of the Chi Phi Chronicles.

Senour Reed, Eta 1979, currently serving as Grand Epsilon, had the following to say about the significance of this project —

“The Greek Life Museum will further reveal that all Chi Phi’s have a proud tradition and brotherhood they belong to. Having this archive, a living link to Fraternity and Chi Phi life will provide an engaging view of how fraternities were formed and how they function today. All museums provide amazing value to their greater communities; our hope is that the Chi Phi Greek Life Museum will do the same and with alumni support this will be a reality for all.”

2007 College of Excellence

College of Excellence Returns

Chi Phi's summer leadership program, **College of Excellence** (COE), is returning for the first time since 2007. Chi Phi is partnering with the North-American Interfraternity Conference (NIC) to make this year's COE a Chi Phi only Undergraduate Interfraternity Institute (UIFI) Session. The experience will mirror that of a UIFI session, but participants will all be Chi Phi Brothers from across the country. Space is limited to 80 participants, but all Chapters are expected to send at least one member to COE. Remaining spots will be awarded based on priority of Colonies, Chapter size and interest level. The deadline to register for COE is June 10, 2012.

Those interested can learn more or register for COE by visiting www.chiphi.org and clicking on the "Events" tab and following the link to "College of Excellence".

LOCATION:

Emory University, Atlanta, GA

COST:

Registration fees are paid through a scholarship from the Chi Phi Educational Trust. The only cost for participants is travel to and from Atlanta.

DATES: July 25-29, 2012

The Lambda Chapter Alumni celebrated the re-birth of the Lambda Chapter in grand fashion at their annual banquet, held at the historic City Club in San Francisco on Friday, February 3rd. Over 140 Alumni and Actives enjoyed the evening of fine dining, specially selected wine and song. Highlights included a video introduction of the 22 actives and the provisional members who signify Lambda's triumphant return to the Cal campus, and the introduction of the re-start committee and the new alumni board members. Special recognition was given to Stuart Jones (past president) and Robin Praeger (retiring treasurer), who have combined for more than 40 years of service on the alumni board. Artifacts from the Chapter were also displayed and were much appreciated by the sellout and highly-energetic crowd. Lambda alumni are encouraged to always remember the 3Fs - First Friday in February. Mark your calendars now for Friday, February 1, 2013.

This is a special year for the Psi Chapter of Chi Phi, as it celebrated its 140th Anniversary in February. The Psi Chapter was founded at Lehigh University on February 22, 1872 by George C. Haldeman.

Active brothers and alumni alike reunited to commemorate this remarkable date in the Chapter's history at the elegant Hotel Bethlehem on February 25, 2012. Guests were welcomed with cocktails and hors d'oeuvres, which provided a fantastic opportunity to reconnect with fellow brothers. Attendance spanned many decades with some brothers returning to Lehigh from as early as the 1940s. The evening featured speeches by Grand Alpha, Dr. James Soderquist, Briarfield President, Jay Crosby, and Psi's Alpha, Patrick Lee. Kip Morse, Coordinator of Alumni Services presented several awards for outstanding alumni service as well as a plaque which will hang proudly in Psi's Chapter house for years to come. Thank you to all who attended, and here's to another 140 years!

The Chapter was most recently recognized by the Interfraternity Council at Georgia Tech for their participation in the annual St. Baldrick's fundraiser for children's cancer research. The men of Chi Phi raised \$6,801.00 for the St. Baldrick's Foundation.

In solidarity with each other and those suffering from childhood cancers, more than 200 Fraternity men shaved their heads at the event in midtown Atlanta on Thursday, March 8. The IFC men collectively raised \$67,631 for St. Baldrick's Foundation and childhood cancer research, more than half the \$120,000 total raised from their efforts and those of other local businesses.

The St. Baldrick's Foundation is a volunteer-driven charity committed to funding the most promising research to find cures for childhood cancers and give survivors long and healthy lives.

Originally colonized in 2008, the Colony made great strides and met all of the criteria in order to enter the roll of Chi Phi Chapters. The Chartering Ceremony was held in the Hunter Conference Center on the SUU Campus. Guests included members of the Chi Phi Grand Council, Chi Phi National Staff, active members of the newly chartered Chapter as well as family and friends. **Grand Alpha, Jim Soderquist, Alpha 1967**, congratulated the men on their successes and challenged them to continue their hard work in the future. The Xi Theta men were then presented with their new Charter.

THE CHI PHI Accreditation Program

Relevance in Higher Education

ΧΦ

Seal

of

Accreditation

The Fall 2011 semester was a long awaited period for Chi Phis around the country. For the past five years the Fraternity has been working diligently on a program that will undoubtedly improve the health of both individual Chapters and Chi Phi nationally.

The Accreditation Program was developed with three goals in mind:

1. Improve and maintain the health of our Chapters by ensuring a consistent level of operations and programming within each Chapter and Colony.
2. Reward high performing Chapters while indentifying and providing low performing Chapters with concrete methods for improvement.
3. Guide the Fraternity in offering more targeted and data identified local and national resources.

7 Chapters didn't submit surveys

- 5 | Accredited with Distinction
- 7 | Accredited
- 12 | Within the Cusp of Accreditation
- 24 | Not Accredited

Grand Alpha, Dr. James Soderquist, Alpha 1967, put it best when he stated, "This is the program that will ensure and maintain Chi Phi's relevance, not only within the Fraternity world but with our higher education partners. It will help guarantee we are not merely maintaining the status quo but are striving to achieve our goal of being a great Fraternity."

Fall 2011 marked the program's full implementation. The program will begin awarding incentives according to the status attained by each Chapter and Colony (i.e. "Accredited" or "Accredited with Distinction"). Accredited with Distinction, the programs most elite status is awarded to the top 10% of submitting Chapters and Colonies. No sanctions will be imposed for groups failing to achieve the accreditation standard for just one semester, however a progressive series of "Developmental Mandates" will be imposed on groups failing to achieve accredited status. The first such mandate goes into effect after a group has failed to meet accredited status two consecutive semesters, and it requires Chapters/Colonies to outline a plan for how they will meet accreditation standards during the third semester.

On December 9th, 2011 Chapters from all corners of the country submitted their self-assessment surveys and supporting documentation to the Accreditation Committee. The Committee then went through the process of grading each report individually and produced individual findings in late January 2012. In this initial submission five Chapters and Colonies scored high enough to be Accredited with Distinction, seven additional Chapters and Colonies reached Accredited status and 36 Chapters and Colonies were Not Accredited. The remaining groups did not submit a complete Accreditation report and were subsequently Not Accredited. Approximately one-third of the "Not Accredited" Chapters and Colonies were identified by the Committee as being on the cusp of being accredited and with diligence and good management of the process, should see positive change in their accreditation status during the second submission process.

Fall 2011

THE CHI PHI

Accreditation Program

Although these results may seem daunting at first glance, they are consistent with the expectations of the Accreditation Committee and in-line with the initial implementation of similar programs reviewed by the Committee. Accreditation Co-Chairman Stephen Dominy reflects, “In the initial planning and discussions regarding Chi Phi’s Accreditation Program, several International Headquarters and campus professionals instructed us of the ‘eye-opener’ to come in the first few years. As such, we found that the early data aligns with the outcomes and glitches that arose with other similar accreditation programs. The Accreditation Committee is confident that we have created an evolving program that will enhance the fraternal experience while ensuring accountability and integrity.”

The initial submission also furnished the Fraternity with information on a national scale which identifies areas of strength as well as areas for improvement. The operational areas scored the highest are (1) proactive risk management; (2) asset stewardship; and (3) leadership advancement.

While the Chi Phi Fraternity continues to aid in the efforts of leadership development and risk management, this information requires us to consider how we can provide additional information, education, and resources in the areas of (1) total member education; (2) recruitment and retention; and (3) heritage and traditions in order to aid our Chapters improvements in these areas. The valuable information provided by the Accreditation Program now arms us with the knowledge we need to assist our Chapters’ continued growth and to inform the National Fraternity’s support of those efforts. As more Chapters understand the Program and how to integrate it into operations, the National Fraternity will benefit from stronger, healthier Chapters in addition to the ability to ensure we, as a Fraternity, are providing an exceptional membership experience.

Since the results were reported to the Chapters and Colonies in early February the National Office has fielded dozens of phone calls and e-mails from groups looking for assistance in improving their results in the Spring. “I believe that I have received at least one call or e-mail every day over the last couple of months from the groups I work with. I’ve been able to have a lot of great conversations with Chapter and Colony officers about why these standards are important and how they will improve their group’s health and vitality,” commented David Ebner, Delta Zeta 2008, Field Executive.

The Committee and National Office have noted some commonality among the groups that have scored high on the survey (see *fig 1.1*, page 26). Nearly all high-scoring groups have a single person responsible for submitting and collecting their accreditation data, some have gone as far as creating a new chairmanship and committee to head up their efforts. It is also evident that the groups that use the survey as a template for operations throughout the semester score increasingly higher.

The National Office and the Accreditation Committee anticipate an increase in the average score for the Spring 2012 submission as groups better understand the process of collecting the needed information. Increased scores will also indicate that Chapters and Colonies are growing stronger and more operationally sound, which is of course, the fundamental reason for the program. The Spring submission was due on May 1st. The 2011-2012 data will be used to guide the efforts of the Fraternity's educational programs, resources, and support to better address the weaknesses and complement the strengths of Chi Phi in the year to come.

Changing Lives Campaign Raises \$6.6 Million;

Passes Unrestricted Giving Goal

Less than one year after the public launch of the \$10 Million Changing Lives Campaign, the effort has raised more than \$6.6 million to enhance and endow Chi Phi's academic, educational, leadership development, Chapter-specific and historic programs.

In fact, of the sub-priorities within the overall campaign, Chi Phi has successfully raised 164% of its \$1.5 million goal for unrestricted purposes to be used where the need is greatest.

“Unrestricted gifts are often the hardest to raise,” commented Educational Trust Chairman and National Campaign Co-Chairman **Christopher J. Shuler, Alpha Zeta 1984**. “The fact that we’ve already surpassed our unrestricted goal this quickly is extraordinary and a strong testament to the belief so many Brothers have in providing for the long-term future of our organization without placing restrictions on their gift.”

CHANGING LIVES

THE \$10 MILLION CAMPAIGN FOR CHI PHI

Unrestricted giving is not the only area receiving strong support from Alumni, Actives, parents and friends. Of those donors choosing to restrict all or a portion of their gift, a number are expressing preferences for their Chapter Excellence Fund (CEF). A little more than 82% of the \$2.1 million goal for Chapter Excellence Funds is already committed.

Alpha, Alpha Delta, Alpha Theta Chi, Alpha Zeta, Alpha-Tau, Eta, Gamma, Iota, Theta Delta and Xi Delta have all raised more than \$25,000 for their respective Chapter Excellence Funds. In fact, Theta Delta leads the way having raised \$765,423.50 for its CEF to meet its long-term scholastic and educational needs. These Chapters and others will have especially strong futures thanks to the sizeable commitments donors are pledging to their individual CEFs.

“Our goal is to help Chapters build war chests to fund the educational aspects of their Chapter house projects and other educational programs that are important to them,” said Shuler. “We are so thrilled so many Alumni have embraced this opportunity to make tax-deductible gifts for the support of their Chapter.”

Ways to Give

Donors can support and change the lives of Chi Phi students and Chapters using a variety of outright, pledged and planned giving methods. Some of the more popular giving methods are outlined below. Chi Phi volunteers and staff are available to hold a confidential consultation to discuss these options in more detail.

CASH: Gifts made by cash, credit card, money order and check provide donors with a charitable deduction and provide immediate support to Chi Phi.

STOCK: Contributing appreciated stock allows donors to avoid paying capital gains on the increase in the stock's value. Donors also typically receive a tax deduction for the full fair market value of the stock on the date of the gift.

PLEDGES: Many donors may choose to make their gift over a period of time, up to five years. Donors can determine whether they want to make their gift on an annual, semi-annual, quarterly or monthly basis using cash, check, a credit card or stock.

CORPORATE MATCHING: Many companies will match or multiply a donation made to the Chi Phi Educational Trust through their matching gift program. As a result, donors can double or triple their gift to the cause they support by simply completing their company's matching gift form.

BEQUEST: Donors establish a bequest by adding basic language to their Last Will and Testament or trust documents naming the Chi Phi Educational Trust as a beneficiary of a specific amount or percentage of their estate.

RETIREMENT PLAN: Name the Educational Trust as the beneficiary of all or a portion of your IRA, pension, 401(k) or other retirement plan.

LIFE INSURANCE: If you own a life insurance policy that you no longer need, you can name the Chi Phi Educational Trust as the owner and beneficiary of the policy. If the policy has a cash value, you can take a charitable deduction approximately equal to its cash value. If you still pay annual premiums, you can deduct the premium payment each year.

CHARITABLE REMAINDER TRUST: When you create a charitable remainder trust, you give money, securities or other assets to a trust you create that will then pay you an income for life (or for a period of years). If you wish, the trust also can pay income to other beneficiaries of your choice. At the death of the final beneficiary, the remaining balance goes to the Chi Phi Educational Trust.

ESTATE GIVING

is an Attractive Option for Many

To many Alumni, it is important to know the causes important to them will thrive and prosper long after their own death. Likewise, life's pressures and the uncertainty created by the current economic climate often prohibit generous Alumni and friends from fully supporting Chi Phi or their Chapter to the extent they might like. Planned or deferred giving provides a convenient mechanism to solve both situations.

Giving through a bequest, charitable trust or beneficiary designation on a life insurance policy or retirement account provides an opportunity for Alumni to defer making a significant gift until after their death or the death of a loved one. Creating a charitable trust or gift annuity often provides income to a donor and his spouse for a period of time, a charitable gift deduction and an endowment that lasts forever. Often, these deferred gifts become game-changers due to the tremendous positive impact they make on an institution like Chi Phi.

The MacLean Legacy Society recognizes those generous Alumni and friends who have projected their love and support for Chi Phi and its mission beyond the horizon of their own mortality by making a deferred or estate gift of \$10,000 and higher.

As of March 1, 2012, the thirty-eight members of the MacLean Legacy Society are:

Chi Phi Goliard Program

by Jonathan Perout, Xi Delta 2010

Scholarly Goliard, Clark Kjolraug, serves as the current Grand Iota.

Chi Phi's Goliard Program is the Ritual education program designed to encourage a detailed learning of the heritage and History of our Fraternity. Those that decide to go through the Program will advance through several stages or "Chambers" and eventually become a "Goliard". Through their training, Goliards will become the experts on the History, ceremonies and traditions of Chi Phi. They are called upon to assist other Brothers and Chapters throughout the country when advice, help or guidance is requested or needed.

In order to become a First Chamber Goliard, all that has to be completed is the Enrollment Form. Once the form is completed and sent to the Chi Phi National Office, the name of the Brother enrolling is added to the list of Candidates. The Brother must then participate in each of the Chi Phi Rituals. Participation in each Ritual is documented on the Ritual Completion Certificate which is then mailed or faxed to the Chi Phi National Office. At that time the candidate pays his \$50 enrollment fee. Upon entering the Third Chamber of the Program, the Candidate must complete a Goliard Ritual Exam. This consists of questions about the Rituals, Traditions, and History of the Chi Phi Fraternity. The exam is administered by another Goliard, and after the exam is passed, Goliard

Candidates are expected to recite, in its entirety, the Grand Lecture and Introduction to the Grand Lecture. The recitation must not include the use of any notes or key referring to the Unwritten parts of the Lecture. Once this step is completed, the Brother is then bestowed with the title of Goliard and has the option to advance his training.

The Fifth and Sixth Chambers can be completed by Goliards to continue their pursuit of becoming a Scholarly Goliard. The Fifth Chamber is a Goliard Project that benefits the History and Heritage of the Chi Phi Fraternity. All projects are approved, in advance, by the Grand Zeta or Heritage or Traditions Counselor. The final step is the completion of the Sixth Chamber in which the Candidate must lead a 45-60 minute educational session on the Traditions and History of the Fraternity.

Although the Brother is a Goliard after completing the Fourth Chamber, once the Candidate has completed all Six Chambers, he becomes a Scholarly Goliard. This allows him to be called on by the Fraternity and its Chapters to perform Ritual education and offer his expertise in matters of Chi Phi Traditions.

“Being able to help other Chapters and participate in initiating new Brothers into our Fraternity made going through the Goliard Program worth it.”

- Clark Kjourlaug

I had a chance to sit down and talk with Goliard Clark Kjourlaug, Omega 2012, about his experience. Brother Kjourlaug completed all Six Chambers of the Goliard Program and is now considered a Scholarly Goliard.

Perout: Why did you decide to become a Scholarly Goliard?

Kjourlaug: Since joining the Fraternity during my freshman year of college, I always had an interest in its History and the wonderful traditions. Our rich History sets us apart from other fraternities, so I wanted to learn more about it. I saw a presentation given during Congress a couple of years ago and learned about the Goliard Program. That’s when I decided to learn more about the History of the Fraternity and its important influence.

Perout: How time consuming was it to learn the material?

Kjourlaug: There is a lot of information that needs to be learned in order to become a Goliard. However, a lot of the information can be learned by participating in the Fraternity’s Rituals and by learning the History. Most of the historical aspects, such as important dates and people, were taught to me as a New Member in my Chapter, and I imagine this is a similar practice in many of our Chapters. There are details that are more obscure that Goliards need to learn and do take some time to research and discover. The most time consuming part of the steps in becoming a Goliard are experiencing first hand all of the Fraternity’s Rituals. The time of year in which each Chapter performs our Rituals varies and this is a determining factor in how quickly that step can be completed.

Perout: How difficult did the process seem?

Kjourlaug: I always had a great amount of interest in our Heritage and Traditions, so it did not seem very difficult. Attending Congress is an easy way to witness certain Rituals that Brothers may not regularly see in their Chapters. Completing the first steps in becoming a Goliard on a literal level is not a difficult process. A lot of time is spent studying the History and Unwritten Law. The difficult part is taking the final steps in becoming a Scholarly Goliard. To become a Scholarly Goliard, one must complete a research project and give a presentation that demonstrates a deep and detailed understanding of our Fraternity’s History and Ritual.

Perout: What have you done since you’ve become a Goliard that you otherwise would not have been able to do?

Kjourlaug: I had the opportunity to travel to many locations and participate in the initiations of several new Colonies and Chapters. I travelled to our Colony at Wisconsin-La Crosse and with a team, helped to initiate the first group of New Members into that Colony. I have participated in the initiations of many Chapters in the Southeast. I have also been a resource for several Chapters that had questions regarding the Ritual and History. I gave a Ritual presentation at the Northeast Regional Leadership Alliance in March, which I would not have had the opportunity to do if I did not take the time to go through the Goliard Program. Being able to help other Chapters and participate in initiating new Brothers into our Fraternity made going through the Goliard Program worth it.

Perout: How important do you think it is for our members to become Goliards?

Kjourlaug: One of the major aspects that make our Fraternity much different from others is our long and rich History. It is important for our members to understand and know our History in order to ensure that it remains prudent. It is important for our active members to become official Goliards in order to keep our History alive and will help to keep our connection with our founders relevant. If more active members become Goliards then they can contribute to the education of other active members, and perhaps allow for others to see its importance and decide to become Goliards as well.

If you would like more information on how to become a Goliard or would like to sign up for the Goliard Program, please contact the National Office at (404) 231-1824.

Networking for Employment

by Brooks Terrell, Psi Delta 2010

In decades past, a college degree meant more than four years of hard work and diligence, it meant that you were employable and even desired. In 2010, when I graduated, a college degree meant that you completed four and a half or five years of hard work and that you had no guarantee of employment. The hundreds of thousands of college graduates seeking employment were all looking for their leg-up. Luckily, I joined the Chi Phi Fraternity while a student at UNC Charlotte and I learned that the best “way in” was through networking.

During my last year in college I contacted the President of Alumni Affairs from at UNC Charlotte. I asked him for some contacts in finance or business, mostly in banking. He came back to me with a list of six names around Charlotte and Atlanta. From these six contacts, I asked if they could not help me directly, would they give me further names. The continuous process of this created a large network for me. I utilized this network through a tool known as LinkedIn, which is by far one of the best social mediums to connect and expand business network and opportunities.

Through the use of LinkedIn, I was connected and introduced to several business people within my field of study; finance. I gained several interviews and tons of advice from each person. As one lead would end, another lead would almost immediately open up.

The most important part of my networking experience came from a contact I received from a friend of mine. This important business woman helped me extensively throughout my journey. Through LinkedIn, she introduced me to several people at Wells Fargo and Bank of America.

Many of these professionals were former recruiters that now own recruiting businesses. Through this network I gained most of my opportunities and increased the growth of my network, I still get opportunities to this day from some of these associates.

As I went into many interviews, I kept coming up short on the second and third interviews. I had an opportunity to talk with a bank executive prior to my Bank of America interview. His advice helped me land the job and begin a very promising career at Bank of America. All of this I gained from networking and utilizing Facebook, LinkedIn, and business cards.

Not all of my experiences were successful. I was turned down many times by my current employer, but I maintained my interest and kept improving my resume/LinkedIn profile. Through LinkedIn and talking with more business professionals, I had the chance to have my resume viewed by over 50 people who helped me improve and revise my profile.

The current job I obtained was from the advice and experience I gained along the way. I hope other Brothers can use my story and success in their job search. Networking is not easy, it takes hard work and making sure you constantly expand your network. I know that by using these social mediums I gained a competitive advantage over other recent college graduates. Not only is this helpful for the present job hunters but it is also important for those with established jobs to continue to connect with the business world. As your network is ever expanding, so are your opportunities.

GLADFELTER CIRCLE

A Record-Breaking Gladfelter Circle Year in 2011

More men supported Chi Phi at the Gladfelter Circle level in 2011 than at any other time since the founding of this prestigious giving society eleven years ago. In total, 15 men contributed at the Gladfelter Circle with Distinction level, and 28 donors contributed at the Gladfelter Circle level. Chi Phi extends a special thanks to the following individuals and companies who provided leadership during the 2011 calendar year.

March is the month of champions... of underdogs... of Cinderella stories.

Each year 64 elite college basketball teams meet to fight it out for one shining moment. Just like these elite teams, Chi Phi Chapters fought it out for one shining moment in the **Chi Phi 2012 March Mania Challenge**.

Early favorites University of Wisconsin-La Crosse Colony, were able to bank enough points to lead the participation from students category throughout the Challenge. Not to be out done, Rho Chapter at Lafayette College, made a late tournament run and with 100% of their students making a gift, were able to tie La Crosse.

While Rho and La Crosse had the most players in the game, Eta Theta Chapter at University of Maryland raised \$555 from students winning the money raised from students category. Nineteen Eta Theta Brothers committed to the Men of 1824, making an average gift of \$29.21 and brought home the hardware for the Terps.

The Theta Delta Florida Gators put on a full court press to defend against Alpha Theta Chi Nebraska Cornhuskers, but in the end the Gators came up just \$25 short. Raising \$10,400 in March from Alumni, Alpha Theta Chi will have a new trophy for their new house. In the final category, greatest participation from Alumni, there was another Cinderella story. Eastern Illinois University Colony had 25% alumni participation to take the category.

While, Theta Delta, Alpha Theta Chi, Eta Theta, Rho, Eastern Illinois Colony and University of Wisconsin-La Crosse Colony, will take home trophies, the real winners of the **March Mania Challenge** are Chi Phi students.

In the month of March, students and Alumni donated \$46,488.44 to support Chi Phi scholarships and Chapter Excellence Funds!

Remembering Chi Phi After Your Death: It Just Takes Two Lines

Making a gift to Chi Phi through a Last Will and Testament is easy. Individuals should instruct their attorney to add a provision to their Will naming the Chi Phi Educational Trust as a beneficiary of their estate.

THE FOLLOWING LANGUAGE IS APPROPRIATE:

I give, devise and bequeath [insert dollar amount or percent of estate] to the Chi Phi Educational Trust, (tax id#58-6035103) an unincorporated trust organized and existing under the laws of the State of Georgia, or its successor organization. Said Trust is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code and contributions to it are deductible under the provisions of federal income, gift and estate tax laws.

Individuals who have made the Chi Phi Educational Trust or their Chapter a beneficiary of their Last Will and Testament are asked to provide an attorney's letter or copy of this page from their Will so Chi Phi can acknowledge the donor's generosity and properly plan its future.

To learn more or to have a confidential conversation about a planned gift, contact Fred Maglione, CFRE, JD, at 404.231.1824 or maglione@chiphio.org.

CELEBRATE A MEMORY

A memorial gift is a meaningful way to celebrate the memory of a Fraternity Brother and express the sense of loss when you lose the life of someone important to you.

You can make a gift in memory of any of the men listed on these pages or another Brother who has entered the Chapter Eternal by contributing online at www.chiphicampaign.com or by sending a note with your check to the Chi Phi Educational Trust.

When your memorial gift is received, Chi Phi will promptly send a personalized tribute card to the person or family you indicate, notifying them of your thoughtful donation.

Your donation will immediately support Chi Phi students. All donations are tax deductible to the extent permitted by law.

Alpha Chapter Mourns the Passing of Brother Edward Owen Parry, Jr.

Brother Owen Parry, Alpha 1965, passed away peacefully on Thursday, March 15, 2012, after a brief battle with lung cancer. Owen embraced the end of his earthly life with the same class, courage and dignity as the Virginia gentleman that we all knew him to be. He was 68 years old and was born on November 9, 1943, in Philadelphia, Pennsylvania, to Edward Owen Parry, Sr. and Virginia Lloyd Parry.

Owen graduated from Shaker Heights High School in Shaker Heights, Ohio, in 1961 and pledged Chi Phi that same fall. Upon graduation in 1965, he took a job with CIGNA Insurance where he remained until his retirement in 1999. After starting in Field Sales in the Northeast Ohio region, he steadily worked his way up to several senior executive positions including Senior Vice President of National Sales, Senior Vice President of International Financial Services, and finally returning to his beloved specialty of Field Sales. Owen was a proud member of the National Marketing Executive Gold Circle in all four years of his eligibility and was one of only seven CIGNA employees to earn a 15 Year Gold Circle Qualifier Award. In addition, he served as the Sector Head of The United Way - Hartford, served on the Board of Directors for the Connecticut Opera Association, and was in the Presidents Club for the March of Dimes.

Following retirement in 1999, Owen enjoyed life in Charlottesville. It gave him the opportunity to enjoy the amenities afforded by his proximity to the University, especially the athletic venues and to reconnect with the Alpha Chapter. He immediately offered his assistance with the oversight and leadership of the Chapter. In the years that followed, Owen served as Chapter Advisor, House Corporation President and Alumni Association President. During that same period, he also served as President of the Fraternity Alumni Council at the University of Virginia. He literally rescued that organization from the brink of extinction and remained a strong advocate for the Greek System both nationally and at The University. He was asked to join the Chi Phi Educational Trust as a Trustee in 2006 and was serving as that Board's Vice Chairman until his recent diagnosis forced him to resign in February of this year.

Owen dearly loved his Fraternity and his University. He dedicated much of his retired life to the welfare of both entities. He was a gentleman of the first order, who could always be counted upon to lead by example . . . always a smile and a kind word. He believed deeply, that we are Brothers for life and to that end he organized more reunions, social gatherings and tailgates than any Chi Phi Brother could reasonably count. However, he did more than talk about brotherhood as a lifetime commitment. He lived it every day of his life and he wanted the rest of us to share that sentiment and appreciate the incredible opportunity given to us at 161 Rugby Road. Alpha Chapter has produced many good men since our founding in 1859, but none finer than our dear Brother Owen. His leadership was tireless, selfless and unconditional, just like his friendship.

A memorial service was held on Tuesday, March 20, 2012, at St. Paul's Memorial Church in Charlottesville and attended by many Brothers. Owen is survived by his loving wife of 46 years, Susan Parry. He is also survived by his loving mother, Virginia; his brother, David; his son, Brian and Brian's wife, Nancy; daughter, Allison; as well as beloved grandchildren Megan, Morgan, and Haley.

He has left a void in our lives, but footprints in our hearts – with so many fond memories for those who knew and loved him. We are blessed to have share in his life and to have had the opportunity to call him Brother.

You can rest assured that Brother Owen is sporting those V-Sabre pants and often repeating the word “deluxe” as he organizes the Chapter Eternal for our ultimate arrival. To honor the memory of Brother Parry, we have created an endowed fund that will permanently honor his legacy of service and leadership to the Alpha Chapter and the Chi Phi Fraternity. At this time, we are calling this restricted fund, The Owen Parry Leadership/Scholarship Fund. Donations to the Fund can be tax deductible. The fund and the annual awarding of scholarships will be directed by a committee of Alpha Chapter Alumni.

Donations can be sent to:

Tireless Participant and Contributor Passes Brother James Ralph Moore

James Rolph Moore, Lambda 1933, passed away in his home on Tuesday, March 20th at the age of 100. Jim was fortunate to have lived a long and productive life. Born to a pioneer family in San Francisco on July 21, 1911, he was a third generation San Franciscan whose grandfather arrived during the Gold Rush. Jim was the son of Mildred Rolph Moore and Joseph Alexander Moore, a shipbuilder, and the nephew of James "Sunny Jim" Rolph, a five-term Mayor of San Francisco, who later became Governor of California. Jim was educated at Lowell High School in San Francisco and graduated from the University of California at Berkeley in June 1933. While a student at Berkeley he joined the Chi Phi Fraternity's Lambda Chapter, following in the footsteps of his father, uncle and brother. James and his brother Joseph jointly were distinguished with the Chi Phi Walter Cronkite Award.

Following graduation, he began working in the family shipbuilding company, The Moore Dry Dock Company, an affiliation he maintained until his retirement. During the First and Second World Wars, the company constructed more than 175 ships for the United States Government and repaired several thousand vessels. The company also built many bridges in the Bay Area and fabricated the steel for numerous local buildings. During his working life and retirement, Jim was a tireless participant and contributor to a wide variety of public causes. A partial list of his affiliations involving board service and leadership positions includes the following: The Society of California Pioneers, The Lawrence Hall of Science at the University of California, Berkeley, The U. C. Berkeley Foundation, The Oakland Museum Association, The Boy Scouts of America, and The Boys and Girls Clubs of Oakland. Jim was also a Life Member of the University of California Alumni

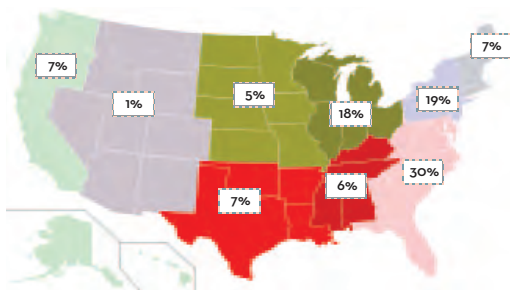

Association, a Berkeley Fellow, and a member of the Bohemian Club and the Pacific Union Club. An important aspect of his philosophy of life was the idea of giving something back, and he lived his life in a way that exemplified that spirit. Later in life, Jim tried his hand at writing and was the author of several books, including a volume of poetry issued just weeks prior to his passing. A man of gentle wit and quiet humor, he loved nothing better than to tell a good story and elicit laughter from his listeners. He had an enormous passion for knowledge, and reading about a wide variety of subjects gave him immense pleasure. Music played a huge role in his life. Jerome Kern, Cole Porter, George Gershwin and Rodgers and Hammerstein were some of his favorite composers. One of his greatest joys was to play the piano for family and friends. He enjoyed travel and held a special place in his heart for Lake Tahoe. Jim is survived by his children, Judith Moore Leet and her husband, Robert Leet, of Belvedere, CA, James Rolph Moore, Jr. and his wife, Sharon, of Alamo, CA, Ronald Stephen Moore, of Contra Costa County, CA, Jaynie Thaler Moore of Carmel, CA, and by seven grandchildren and thirteen great grandchildren.

Groundbreaking Chi Phi & Other Greek ALUMNI SURVEY

Last summer the Chi Phi Educational Trust was one of 36 Fraternity and Sorority Foundations to participate in a groundbreaking research project conducted by the North-American Interfraternity Conference Foundation. Nearly 57,000 Greek Alumni participated in this project. The data from this survey will help guide Chi Phi projects, communications, operations and services for many years to come.
